

Consolidated Annual Report
of Kredyt Bank S.A. Capital Group
prepared for the year ended
December 31, 2007

(Submitted to the Polish Financial Supervision Authority on February 29, 2008
- translation from Polish language)

Letter of the President of the Management Board of Kredyt Bank S.A.

Dear Shareholders, Customers and Employees.

The year of 2007 was important for Kredyt Bank S.A. Capital Group due to a good economic situation, high economic growth and significant changes occurring both on the world as well as Polish financial markets. It was a successful year for us, and that is why I present to you with a great satisfaction 2007 annual consolidated financial statement as well as the report on Kredyt Bank S.A. Capital Group activity in 2007.

The consolidated gross profit amounted to PLN 501 957 thousand and was the highest in the Group's history so far. It was possible thanks to a significant growth of the basic income generated regardless of non-conclusion of one-time transactions, comparable to those of previous years. We have maintained a strict cost control with a simultaneous continuation of certain development projects. In comparison with the year of 2006 the level of costs increased merely by 4.4%, which in combination with the growth of income allowed to improve the results as well as the efficiency.

In comparison with 2006 Kredyt Bank SA Group significantly increased its scale of activity in the key areas of business. We achieved nearly a 44% growth in net credit portfolio volume as well as 8% growth in customers' deposit base. This permitted to stabilize the market shares, while in some other cases the growth of shares in the financial services market was noted. Primarily, however, we were satisfied to observe a significant growth of Kredyt Bank's share in the market of mortgage-secured credits.

The growth in the scale of credit activity was accompanied by the improving portfolio quality. The improvement was seen in the basic ratios that characterize the credit risk area: share of credits for which individual impairment circumstances were identified in total gross receivables due from customers declined from 13.5% in the end of 2006 to 6.6% in the end of 2007. It should be emphasized that this improvement was achieved in result of reducing the portfolio of so called bad credits. The volume of receivables with the identified impairment circumstances declined by 33.2% in comparison with the end of 2006.

The year of 2007 saw the continuation of the projects of strategic importance for Kredyt Bank S.A. Group as well as KBC Group in Poland, which are to secure safe foundations for a further growth and generating income in future. Basing on the experience and potential of Żagiel S.A. a consumer finance business line was isolated and reorganized. The product offer was expanded and the distribution network was adopted to the needs of this customer segment, while the number of Żagiel S.A. outlets was doubled within a year. The project of expanding a network of Kredyt Bank outlets is still underway. 62 subsidiaries launched under this project conducted operating activity in the end of 2007.

Signing 2007 annual consolidated report of Kredyt Bank S.A. Group I wish to heartily thank our customers and employees of Kredyt Bank S.A. for the confidence and loyalty. I think that our co-operation is a confirmation that their choice was right. Making a good use of the market position achieved until now as well as expanding the cooperation inside Kredyt Bank S.A. Group is the best guarantee of the further growth.

Yours faithfully,

Ronnie Richardson
CEO of Kredyt Bank S.A.

INDEPENDENT AUDITORS' OPINION

To the Supervisory Board of Kredyt Bank S.A.

1. We have audited the attached consolidated financial statements of Kredyt Bank S.A Capital Group ('the Group'), for which the holding company is Kredyt Bank S.A. ('the Bank') located in Warsaw, Kasprzaka 2/8 Street, for the year ended 31 December 2007 containing:
 - the consolidated income statement for the period from 1 January 2007 to 31 December 2007 with a net profit amounting to 390,539 thousand zlotys,
 - the consolidated balance sheet as at 31 December 2007 with total assets amounting to 27,128,180 thousand zlotys,
 - the consolidated statement of changes in equity for the period from 1 January 2007 to 31 December 2007 with a net increase in equity amounting to 184,046 thousand zlotys,
 - the consolidated cash flow statement for the period from 1 January 2007 to 31 December 2007 with a net cash inflow amounting to 420,044 thousand zlotys and
 - the summary of significant accounting policies and other explanatory notes ('the attached consolidated financial statements').
2. The truth and fairness¹ of the attached consolidated financial statements and the proper maintenance of consolidation documentation are the responsibility of the Bank's Management Board. Our responsibility was to audit the attached consolidated financial statements and to express an opinion whether, based on our audit, these financial statements are, in all material respects, true and fair².
3. We conducted our audit of the attached consolidated financial statements in accordance with the following regulations being in force in Poland:
 - chapter 7 of the Accounting Act, dated 29 September 1994 ('the Accounting Act'),
 - the auditing standards issued by the National Chamber of Auditors,in order to obtain reasonable assurance whether these financial statements are free of material misstatement. In particular, the audit included examining, to a large extent on a test basis, documentation supporting the amounts and disclosures in the attached consolidated financial statements. The audit also included assessing the accounting principles adopted and used by the Group and significant estimates made by the Bank's Management Board, as well as evaluating the overall presentation of the attached consolidated financial statements. We believe our audit has provided a reasonable basis to express our opinion on the attached consolidated financial statements treated as a whole.

² Translation of the following expression in Polish: 'rzetelne, prawidłowe i jasne'

4. In our opinion, the attached consolidated financial statements, in all material respects:
- present truly and fairly all information material for the assessment of the results of the audited Group's operations for the period from 1 January 2007 to 31 December 2007, as well as its financial position³ as at 31 December 2007;
 - have been prepared in all material aspects correctly, i.e. in accordance with International Financial Reporting Standards as adopted by the European Union;
 - are in respect of the form and content, in accordance with the legal regulations governing the preparation of financial statements.
5. We have read the Directors' Report on the Group's operations for the period from 1 January 2007 to 31 December 2007 and the rules of preparation of annual consolidated financial statements ('the Directors' Report') and concluded that the information derived from the attached consolidated financial statements reconciles with these financial statements. The information included in the Directors' Report corresponds with the relevant regulations of the Decree of the Minister of Finance of 19 October 2005, on current and periodic information published by issuers of securities (Journal of Law No 209, item 1744).

Consolidated cash flow statement should be analysed with notes, which form an integral part of these financial statements

6. General information

Kredyt Bank Spółka Akcyjna ('Kredyt Bank S.A.', 'Bank', 'parent company') with its registered office in Warsaw, (Poland), ul. Kasprzaka 2/8, was established in 1990 and entered into the register of entrepreneurs maintained by the District Court for the Capital City of Warsaw under No. 0000019597. These financial statements of Kredyt Bank S.A. Capital Group ('Capital Group' or 'Group') as at 31.12.2007 comprise the financial statements of the Bank and its subsidiaries.

Kredyt Bank S.A. is a universal bank which provides banking services addressed and tailored to the needs of all customer groups. A wide range of the Bank's services is addressed to business entities, individual customers and local authorities. The Bank provides convenient access to its services via an extended network of banking outlets and ATMs.

These consolidated financial statements of Kredyt Bank S.A. Capital Group were approved for publication by the Management Board of Kredyt Bank S.A. on 29.02.2008.

These financial statements were audited by Ernst & Young Audit Sp. z o.o., an independent licensed certified auditor. The audit was performed in accordance with the Polish law and the certified auditors' professional standards issued by the National Council of Auditors in Poland.

Below, we present subsidiaries, which, as at 31.12.2007, along with Kredyt Bank S.A., their parent company form Kredyt Bank S.A. Capital Group.

Parent company		Seat	
Kredyt Bank S.A.		Warsaw	
Subsidiary	Seat	Share (%) in votes at GMS as at 31.12.2007	Share (%) in votes at GMS as at 31.12.2006

On 15.06.2007, a company named "Kredyt Bank Spółka Akcyjna i Towarzystwo Ubezpieczeń i Reasekuracji WARTA Spółka Akcyjna" Spółka Jawna was entered into the National Court Register – Register of Entrepreneurs in the District Court in Warsaw. The company was established by Kredyt Bank and WARTA with the main objective to perform auxiliary activities and support the banking and

insurance business. Both Kredyt Bank and WARTA contributed PLN 50 thousand each, and the interests of both companies in the new entity correspond to the value of their contributions. As at 31.12.2007, the company did not run any operating activity.

The Group's financial statement also entails an associate measured with the equity method.

Associate	Seat	Share (%) in votes at GMS as at 31.12.2007	Share (%) in votes at GMS as at 31.12.2006
1. KBC Towarzystwo Funduszy Inwestycyjnych S.A.	Warsaw	30.00	30.00

KBC Banking and Insurance Capital Group

Kredyt Bank S.A. is a part of KBC Banking and Insurance Capital Group ('KBC Group') established in 1998 as a result of a merger of ABB Insurance Group, Almanij-Kreditbank Group and CERA Bank Group. KBC Group has been operating in the present structure since 2005, i.e. the merger of KBC Bank and Insurance Holding Company with Almanij. KBC Group is listed on the Euronext Stock Exchange in Brussels.

KBC Group focuses on bancassurance-type operations for individual customers, provides services for businesses, is involved in assets management and other types of market activities. It is one of the three largest banking and insurance companies on its home market in Belgium and one of the leading financial groups in Europe; geographically, its operations are focused in Central Europe.

In Poland, KBC Group is also a sole shareholder of TUIR WARTA S.A.

7. The description of major accounting policies applied for the purpose of preparing these financial statements

7.1. Declaration of compliance with IFRS

Under Article 55 clause 6a of the Accounting Act of 29 September 1994 (consolidated text: Journal of Laws of 2002, No. 76, item 694) as amended ('the Act'), starting from 01.01.2005, the consolidated financial statements of Kredyt Bank S.A. Capital Group have been prepared in compliance with the International Accounting Standards (IAS) and the International Financial Reporting Standards (IFRS) that were approved by the European Commission.

Under Article 45 clause 1c of the Act and under the decision of the General Meeting of Shareholders of Kredyt Bank S.A. of 25.04.2005, from 01.01.2005, also the Bank's standalone financial statements have been prepared in accordance with IAS/IFRS.

These consolidated financial statements of the Group for 2007 ended 31.12.2007 have been prepared in accordance with the International Accounting Standards (IAS) and the International Financial Reporting Standards (IFRS) in force as at 31.12.2007 and approved by the European Commission. Matters not governed by the above-mentioned standards are regulated by the Accounting Act of 29 September 1994 (Journal of Laws of 2002 No. 76 item 694 as amended) and executive regulations thereto, and the Ordinance of the Minister of Finance of 19 October 2005 on current and interim information provided by issuers of securities (Journal of Laws of 2005 No. 209 item 1744).

IFRS include standards and interpretations approved by the International Accounting Standards Board ('IASB') and the International Financial Reporting Interpretations Committee ('IFRIC').

Below, we present new and amended IFRS and new IFRIC interpretations that the Bank has applied this year. Their application, apart from a few additional disclosures, has not affected the financial statements.

- IFRS 7 – Financial Instruments: Disclosures. The most vital new disclosures were presented in the following notes: 15, 16, 17, 19, 31, 32, 33, 36, 72, 75.
- IAS 1 Presentation of Financial Statements – Capital Disclosures. The Bank applied amended IAS 1. New disclosures are presented in Note 75.

The interpretations mentioned below have not materially affected the financial statements:

- IFRIC 7 Applying the Restatement Approach under IAS 29 Financial Reporting in Hyperinflationary Economies.
- IFRIC 8 Scope of IFRS 2.
- IFRIC 9 Reassessment of Embedded Derivatives.
- IFRIC 10 Interim Financial Reporting and Impairment.

The following standards and interpretations have been issued by the International Accounting Standards Board or the International Financial Reporting Interpretations Committee, however are not in force yet:

- IFRS 8 Operating Segments (applicable to annual periods beginning after 01.01.2009).

- An amendment to IAS 23 Borrowing Costs (in force since 01.01.2009) – as at the date of this financial statement, the amendment has not been approved by the European Union yet.
- IFRIC 11: IFRS 2 - Group and Treasury Share Transactions (applicable to annual periods beginning after 01.03.2007).
- IFRIC 12: Service Concession Arrangements (applicable to annual periods beginning after 01.01.2008) – as at the date of this financial statement, this interpretation has not been approved by the European Union yet.
- IFRIC 13: Customer Loyalty Programmes (applicable to annual periods beginning after 01.07.2008) – as at the date of this financial statement, this interpretation has not been approved by the European Union yet.
- IFRIC 14: IAS 19 The Limit on a Defined Benefit Asset, Minimum Funding Requirements and their Interaction (applicable to annual periods beginning after 01.01.2008) – as at the date of this financial statement, this interpretation has not been approved by the European Union yet.

The Management Board does not predict that the introduction of the above standards or interpretations will materially affect the Bank's accounting principles (policy).

7.2. Basis of preparation

The figures in these financial statements have been presented in PLN thousands (thousand PLN), unless stated otherwise.

This consolidated financial statements were prepared based on the assumption that the Group companies remain a going concern in the foreseeable future, i.e. for the period of at least one year from the balance sheet date. As at the approval date of these financial statements by the Management Board, there are no circumstances which could threaten the continuation of the business of the Group's companies.

These financial statements was prepared according to the historical cost concept, except for financial assets and financial liabilities which are measured at fair value through profit or loss, loans and advances to customers and financial instruments measured at amortised cost having regard for impairment losses as well as held-for-sale financial instruments which are carried at fair value through revaluation reserve.

Accounting principles adopted to prepare these financial statements are applied in a continuous manner in all presented periods.

7.3. Consolidation of financial statements

This consolidated financial statement includes the financial statement of Kredyt Bank S.A. and the financial statements of subsidiaries for the period of 12 months ended 31.12.2007. Financial statements of subsidiaries are prepared for the same reporting period as the financial statement of the parent company.

Certain Group companies keep their accounting books according to the accounting policy (principles) set out in the Act and executive regulations thereto ('Polish Accounting Standards'). This consolidated financial statement includes respective adjustments made to ensure the compliance of the financial statements of these entities with IFRS.

7.3.1. Subsidiaries

Subsidiaries are all entities, in relation to which the Bank may, directly or indirectly, exert control and govern their financial and operating policies in order to gain benefits from their businesses.

7.3.2. Associates

Associates are entities not controlled by the Group in terms of their financial or operational policies, but the Group exerts significant influence upon them, which is often accompanied by 20%-50% stake in the total number of votes within their decision-making bodies. Investments in shares in associates are initially recognised in the balance sheet at cost and further on, they are measured with the equity method.

7.4. Transactions in foreign currencies

The items included in the financial statements of particular Group companies are recognised in the currency in which a given business operates.

Transactions in foreign currencies are translated into PLN at the exchange rate as at the transaction date. Monetary assets and liabilities expressed in foreign currencies, recognised at historical cost, are translated into PLN at the average exchange rate of the National Bank of Poland as of the balance sheet date. Gains/losses from the translation of the resulting currency translation differences are recognised in the income statement.

Non-monetary assets and liabilities expressed in foreign currencies, recognised at historical cost, are translated into PLN at an exchange rate as at the transaction date, and items carried at fair value are translated at the average exchange rate of the National Bank of Poland as of the measurement date. Currency translation differences on non-monetary items measured at fair value through profit or loss are recognised in gains and losses on the change in fair value.

As at 31.12.2007, KIF BV, the Bank's subsidiary is the only foreign entity of the Bank. EUR is the functional currency for this entity. The company's balance sheet figures are translated at the NBP average exchange rate and the income statement, and the cash flow statement figures are translated at the arithmetic mean of NBP average rates of exchange.

Below, we present NBP average rates of exchange applied by the Group to translate balance sheet items.

	31.12.2007	31.12.2006
EUR	3.5820	3.8312
USD	2.4350	2.9105
CHF	2.1614	2.3842

7.5. Recognition of financial assets and liabilities in the balance sheet

The Group recognises financial assets and liabilities in the balance sheet only when it is a party to a transaction.

Sale/purchase transactions related to financial assets valued at fair value through profit or loss, held-to-maturity investments and available-for-sale financial assets are recognised in the balance sheet always on the date of the transaction settlement. Loans and receivables are recognised at the time of the payment of cash to the borrower.

7.6. Derecognition of financial assets from the balance sheet

The Group derecognises financial assets from the balance sheet when and only when contractual rights to cash flows from such assets expire or when the Group transfers a financial asset pursuant to paragraphs 18 and 19 of IAS 39, and the transfer meets the requirements for the derecognition from the balance sheet provided for in paragraph 20 of IAS 39. Particularly, the Group writes off loan receivables from the balance sheet to impairment losses when such receivables are uncollectible receivables, particularly when:

- the costs of further debt recovery will exceed the expected proceeds from debt recovery;
- the ineffectiveness of the Group's debt recovery process is confirmed with a respective document issued by a respective enforcement body;
- the debtor's assets that can be subjected to enforcement, and the debtor's whereabouts cannot be established;
- claims are prescribed.

Following the decision on writing off an asset, the Group fails to undertake any further debt recovery action, and any possible proceeds from a given asset are only of incidental nature.

7.7. Classification and measurement of financial assets and liabilities

7.7.1. Financial assets and liabilities at fair value through profit or loss

This category includes:

- held-for-trading assets or liabilities, i.e. those acquired or contracted with the intention to sell or repurchase them in the nearest future. This category comprises portfolios of the financial assets and liabilities portfolios managed jointly in order to generate profits in a short time horizon. This category also includes derivatives.
- financial assets or liabilities which, at the time of initial recognition, were designated by the Bank as measured at fair value through profit or loss, as the items are managed in a portfolio on the basis of the valuation at fair value, pursuant to the recorded risk management principles or the Group's investment strategy.

Fair value is determined on the basis of quotations in active markets, including prices of the latest transactions and generally adopted measurement models based on variables that can be observed in the market environment.

Interest and acquired discount or premium on securities is settled over time in net interest income based on the effective interest rate method. Securities are carried at fair value, and its change is recognised in the profit/loss on financial operations.

Outflows from assets disposal are calculated with the FIFO method.

Financial derivatives are recognised at fair value, without deductions of transaction expenses that can be incurred at the disposal. The transaction price is the best indicator of fair value at the initial recognition of a derivative.

Derivatives with positive valuation as at the date of measurement are recognised in the balance sheet as assets, and derivatives with negative valuation from measurement – in liabilities.

7.7.2. Held-to-maturity investments

Held-to-maturity investments are non-derivative financial assets with fixed or determinable payments and fixed maturity that the Group's entities intend and are able to hold to maturity or by the date very close to maturity.

Held-to-maturity investments are measured at amortised cost using the effective interest method, taking account of impairment losses. Accrued interest and settled discount or premium is recognised in net interest income.

7.7.3. Loans and receivables

Loans and receivables are non-derivative financial assets, with fixed or determinable payments that are not quoted in an active market. Loans and receivables arise when the Group disburses cash to

customers for purposes other than generating short-term trading gains. This category entails loans and advances to banks and customers, including purchased debts.

Loans are measured in the balance sheet at amortised cost based on the effective interest rate method, taking account of impairment losses.

Accrued interest with net commission (commissions received less commissions paid) settled over time using the effective interest rate method are recognised in interest income; the commission settled on a straight-line basis is recognised in fee and commission income. Impairment charge is recognised in the income statement in correspondence with accounts of provisions which adjust assets value.

7.7.4. Available-for-sale financial assets

Available-for-sale financial assets are non-derivative financial assets designated as available for sale or not classified as financial assets valued at fair value through profit or loss, loans and receivables or held-to-maturity investments.

Available-for-sale financial assets are measured at fair value on the balance sheet. Changes in fair value are recognised in revaluation reserve until the financial asset is derecognised or impairment is recognised; then accumulated gains/losses included in equity are recognised in the income statement. In the case of debt securities, interest income and discount or premium is settled over time in net interest income using the effective interest rate method.

If fair value cannot be determined, assets are recognised at cost less impairment charge. Impairment charge is recognised in the income statement in correspondence with accounts of provisions which adjust assets value.

Dividends from available-for-sale equity instruments are recognised in the income statement at the time when the right to obtain them arises.

Outflows from assets disposal are calculated with the FIFO method.

7.7.5. Financial liabilities not held for trading

This category includes amounts due to banks and customers, loans borrowed by the Group, own debt securities issued, liabilities arising from repurchase transactions and subordinated liabilities, following the deduction of transaction expenses.

Financial liabilities not held for trading are recognised in the balance sheet at amortised cost with the application of the effective interest rate method.

7.7.6. Hedge accounting

Hedge accounting recognises the effects of compensating for changes in fair value of the hedging instrument and the hedged item, which exert impact on the income statement. According to adopted hedge accounting principles, the Group designates certain derivatives to hedge fair value and future

cash flows of specific assets, on condition that the criteria provided for in IAS 39 are met. Hedge accounting is applied in the Group to hedge certain items, when all the following criteria are met:

- upon the inception of hedge, the Group officially determines and documents hedging relations as well as the purpose of risk management and the strategy of hedge; the documentation identifies the hedging instrument, the hedged item or transaction, the nature of the hedged risk and the method of the Group's assessment of hedging instrument effectiveness in offsetting the risk of changes in fair value of the hedged item or cash flows related to the hedged risk;
- the hedging is expected to be highly effective in achieving offsetting changes in fair value (or cash flows) attributable to the hedged risk, according to the initially documented risk management strategy related to a specific hedging relationship;
- the hedge effectiveness may be assessed reliably, i.e. fair value or cash flows attributable to the hedged item resulting from the hedged risk and the fair value of the hedging instrument may be measured reliably;
- the hedge is assessed on an ongoing basis and is found highly effective in all reporting periods in which the hedge was established.

Fair value hedge, which meets hedge accounting conditions, is recognised by the Group as follows:

- gains or losses resulting from the revaluation of fair value of a hedging derivative are disclosed in the income statement;
- gains or losses related to the hedged item, resulting from the hedged risk, adjust the carrying amount of the hedged item and are recognised in the income statement.

Future cash flows hedge, which meets hedge accounting conditions, is recognised by the Group as follows:

- a portion of gains or losses associated with the hedging instrument, which constitutes an effective hedge, is recognised directly in equity;
- a non-effective portion of gains or losses associated with the hedging instrument is recognised in the income statement.

Interest received and paid on derivatives used as hedging instruments is recognised in the income statement in interest income/expense respectively.

7.7.7. Embedded derivatives

An embedded derivative is a component of a hybrid (combined) instrument that also includes a non-derivative host contract – with the effect that some of the cash flows of the combined instrument vary in a way similar to the stand-alone derivative.

An embedded derivative is separated from the host contract and accounted for as a derivative only if:

- the economic characteristics and risks of the embedded derivative are not closely related to the economic characteristic and the risks of the host contract;

- a separate instrument with the same terms as the embedded derivative would meet the definition of a derivative; and
- a hybrid (combined) instrument is not carried at fair value and changes in fair value are not recognised in the income statement.

When an embedded derivative is separated, the host contract is accounted for in accordance with accounting principles appropriate for such contracts.

7.8. Finance lease receivables

Contracts of lease under which the Group generally transfers all the risks and rewards related to the possessed assets are recognised by the Group as finance lease contracts. Receivables due under finance lease contracts are presented by the Group in the balance sheet in the amount equal to net leasing investment, as loans and advances to customers.

Interest income under finance lease contracts is settled with the effective interest rate method in order to reflect the constant, in a given period, rate of return on net leasing investment.

7.9. Offsetting financial instruments

Financial assets and liabilities are offset and the net amount reported in the balance sheet, when the Group has a legally enforceable right to offset the recognised amounts and intends to settle it on a net basis, or realise the asset and settle the liability simultaneously.

7.10. Sale and repurchase agreements

Securities sold under repurchase agreements ('repos' and 'sell buy back') are not excluded from the balance sheet. Payments due to the counterparty are recognised as financial liabilities as 'Liabilities arising from repurchase transactions'. Securities purchased under agreements to resell ('reverse repos' and 'buy sell back') are recorded as loans and advances to other banks or customers, depending on their nature. The difference between the sale and repurchase prices is treated as interest and accrued over the life of the agreements using the effective interest method.

7.11. Property, plant and equipment

7.11.1. Owned property, plant and equipment

Property, plant and equipment, complete, prepared for direct use, with a foreseeable useful life of over one year, held by the Group and used by it, are recognised in the balance sheet at cost less depreciation and impairment losses. Property, plant and equipment with low individual value are fully depreciated in the month of putting them into use.

Property, plant and equipment also include construction in progress and property, plant and equipment put into use under the contracts of operating lease. Property, plant and equipment not used by the Group, but classified as held for sale, are recognised in the balance sheet at the lower of: carrying amount as at the classification in this category and fair value less selling costs.

Fixed assets at the time of their acquisition are divided into components which are items of material significance and which can be assigned a separate period of useful life.

7.11.2. Capital expenditure incurred in future periods

The Group recognises, in the carrying amount of property, plant and equipment, expenses of the increase in value or of the replacement of parts of property, plant and equipment at the time of their incurrence, when it is probable that future economic benefits associated with the item will flow to the Group and the cost of improvement or replacement may be measured reliably. All other expenses are charged to the income statement during the financial period in which they are incurred.

7.11.3. Depreciation

Property, plant and equipment are depreciated with the straight-line method in line with the depreciation schedule. The period of economic useful life is taken into consideration while determining the depreciation period and the annual depreciation rate. Land is not depreciated. Property, plant and equipment that are used together, but which have various useful lives, are depreciated separately.

Estimated periods of expected economic useful life of property, plant and equipment:

Buildings	40 years
Leasehold improvements	10 years
Motor vehicles	6 years
Plant and machinery	between 3 and 7 years
Other property, plant and equipment	5 years

The assets' residual values and useful lives are reviewed on an annual basis. The Group performs an annual analysis of evidence and the tests for impairment of particular groups of property, plant and equipment to ensure whether the present carrying amount does not exceed the higher value of the following two values: market value or discounted value of future economic benefits.

Depreciation rates resulting from the tax regulations in force are applied for the purpose of tax settlements.

7.12. Intangible assets

Intangible assets are assets, which comply with the following criteria:

- they can be separated from a business unit and sold, transferred, licensed or given for gratuitous use to third parties, both individually and jointly with related agreements, assets or liabilities, or
- they arise from contracts or other titles, irrespective of whether they can be transferred or separated from a business unit.

Intangible assets with a foreseeable useful life of over one year, held by the Group and used by it, are recognised in the balance sheet at cost less amortisation and impairment losses. Intangible assets with low individual value are fully amortised in the month of putting them into use.

The Group companies' costs that are associated with the production, at own cost and expense and for internal use, of intangible assets with a planned useful life of over one year that will probably generate economic benefits exceeding incurred costs, are also recognised as intangible assets in the balance sheet. Direct costs of the production of intangible assets activated in this way are amortised in the estimated useful life not exceeding 5 years.

The Group's companies recognise, in the carrying amount of intangible assets, expenses of the increase in value or replacement of the parts of such assets at the time of their incurrence, when it is probable that greater future economic benefits associated with the item will flow to such companies and the cost of improvement or replacement may be measured reliably. All other expenses are accounted for in the income statement as incurred.

7.12.1. Computer software

Acquired computer software licenses are recognised as intangible assets at costs incurred to acquire and bring to use the specific software. The Group amortizes activated expenses in the estimated useful life of 5 years.

The Group's expenditures on maintenance and technical service of computer software are recognised as expense as incurred.

7.12.2. Other intangible assets

Other intangible assets are recognised by the Group in the balance sheet at cost less accumulated amortisation and any impairment loss.

7.12.3. Amortisation

Intangible assets are amortised with the straight-line method according to the amortisation schedule. The economic useful life is taken into consideration while determining the amortisation period and the annual amortisation rate. Estimated periods of the expected useful life for intangible assets are equal to 5 years.

Amortisation rates resulting from the tax regulations in force are applied for the purpose of tax settlements.

The Group does not have any intangible assets with an indefinite useful life.

7.13. Investment properties

In 2007, as the Group had no opportunity to sell certain assets classified as non-current assets classified as held for sale (IFRS 5), the Group reclassified them to investment properties. Under IAS 40 and pursuant to the policy of the Group's main shareholder, the Group values investment properties at cost.

7.14. Goodwill

Goodwill represents an excess of the cost of an acquisition over the fair value of the Group's share of identifiable assets, liabilities and contingent liabilities of the acquired subsidiary/associate at the date of the acquisition. Goodwill on acquisitions of subsidiaries is included in the balance sheet in 'goodwill on subordinated companies'. Goodwill on acquisitions of associates is included in 'investments in associates'. Goodwill is not amortised, only analysed in terms of the risk of impairment.

At least once a year, the Group performs a goodwill impairment test based on the models developed in cooperation with the Bank's major shareholder.

7.15. The methods of the measurement of impairment of assets other than financial assets

Carrying amounts of particular assets are periodically tested for impairment. If the Group identifies evidence for impairment, further it determines whether the present book value of a given asset is higher than the value that can be obtained from its further use or sale, i.e. the recoverable amount of a given asset is established. If the recoverable amount is lower than the present carrying amount of a given asset, impairment charge is accounted for in the income statement.

7.15.1. Measurement of recoverable amount

A recoverable amount of an asset is determined as the higher of the following: a price than can be obtained from the sale less costs of sells and value in use of a given asset. Value in use is determined

as estimated future cash flows generated by a given asset discounted with the market rate and increased with the margin for the risk specific for a given class of assets.

Cash-generating units (CGU), i.e. groups of financial assets and liabilities directly attributable to goodwill and generating cash inflows independent of other groups, are separated for the purpose of goodwill impairment tests. If negative trends in the generated flows are identified, the impairment of the whole group of assets and liabilities is measured and recognised in attributed goodwill.

The analysis of circumstances and any possible impairment tests for property, plant and equipment and intangible assets are performed once a year. The impairment test for goodwill is performed annually, regardless of whether the evidences for impairment were present or not.

7.15.2. Reversal of impairment

Impairment loss on goodwill is not reversed.

In the case of other assets, except for equity instruments classified as available for sale, impairment loss may be reversed if evidence for impairment ceases to exist or the parameters taken into account in estimates of recoverable amount are changed.

Impairment charge may be reversed only up to the carrying amount of an asset, which, having regard for accumulated depreciation, would have been determined if the impairment charge had not been made.

7.16. Trade and other receivables

Trade and other receivables are reported in the amount due less impairment.

In the case when the impact of time value of money (TVM) is material, the value of receivables is determined by discounting forecasted future cash flows to present value, applying a gross discount rate corresponding to present market valuations of time value of money. In the case the discounting method was applied, the increase in receivables due to the elapse of time is recognised as 'Other operating income'.

7.17. Assets taken over for debts

Assets taken over for debts are measured at their fair value, including the cost of sale. If fair value of assets taken over is lower than the nominal value of receivables, impairment charge is recognised. If the selling price of the assets is higher than debt, the difference constitutes a liability towards the borrower.

7.18. Non-current assets classified as held for sale and discontinued operations

Prior to the classification as 'held-for-sale', assets (and all assets and liabilities in the held-for-sale group) are revalued according to IFRS 5. Property, plant and equipment and non-current assets classified as held for sale are measured at the lower of: present carrying value or fair value less costs to sell. Property, plant and equipment, when they are classified as held for sale, are not depreciated.

Discontinued operation is an element of the Group's operations, which constitutes the Group's separate major line of business or its geographical area of operations, or if it is a subsidiary acquired exclusively with a view to resale. The Group recognises operations as discontinued upon sale or classification as 'held-for-sale'.

7.19. Deferred tax asset and liability

Deferred tax asset is recognised for all deductible temporary differences as well as for carry forward of unused tax credits and unused tax losses to the extent that it is probable that taxable profit will be available against which the deductible temporary differences can be utilised.

The carrying amount of a deferred tax asset is reviewed at each balance sheet date and is subject to a respective decrease by the amount, which corresponds to the lower degree of the probability of generating taxable income or partial or total utilisation of a deferred tax asset.

Deferred tax liability is recognised for all taxable temporary differences. Deferred tax asset and deferred tax liability are measured at tax rates that are expected to apply to the period when an asset is realised or a liability settled, based on tax rates (and tax laws) in force as at the balance sheet date or certain to be in force in the future as at the balance sheet date. Deferred tax liability is not discounted.

Deferred tax related to items recognised directly in equity is also charged or credited directly in equity at the present tax rate.

The Group's companies offset deferred tax asset against deferred tax liability.

7.20. Cash and cash equivalents

For the purpose of the cash flow statement, cash and cash equivalents include short-term balances used to settle short-term monetary liabilities, with less than three months maturity from the date of acquisition, including cash and balances with Central Bank and other qualifying short-term receivables, including term deposits on the interbank market.

7.21. Provisions

The Group recognises provisions in the balance sheet when:

- it has a present legal or constructive obligation as a result of past events;
- it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation;
- reliable estimate can be made of the amount of the obligation.

The provision is recognised at the amount of the estimated outflow of cash. The amount of the provision is determined as the value of the discounted future cash flow for the period after which the provision will be utilized.

7.21.1. Restructuring provision

The Group recognises a restructuring provision in the balance sheet for evidenced costs of restructuring. The provision is made on the basis of a detailed, official and published restructuring plan. The provision does not include future operating expense.

7.21.2. Employee benefits

The Group does not offer a specific pension scheme for its employees, thus has no commitments to its employees in this respect. The Group's entities, as employers, fulfilling the obligations indicated in the law, are obliged to withhold and pay social security and health insurance contributions for its employees and contributions to the Labour Fund and the Guaranteed Employee Benefits Fund. These payments are a part of short-term employee benefits, including remuneration, bonuses, paid leaves. Short-term benefits are recognised in general expenses under general principles.

A provision for retirement severance pays, which is determined annually by actuarial calculations is the only component of long-term employee benefits.

7.22. Equity

Share capital is recognised at nominal value in the amount compliant with the Bank's Memorandum and Articles of Association and the entry in the Court Register. Other equity is recognised in the balance sheet by types as required by law and Memorandums and Articles of Association of the Bank and of particular subsidiaries. Equity also comprises net profit/loss for the period and retained profit or loss as well as the result of the measurement of financial assets carried through revaluation reserve (in the case of subsidiaries, the Group's equity also comprises net profit/loss of such companies generated from the date of their acquisition by the parent company).

7.23. Granted off-balance sheet liabilities

Within its operations, the Group enters into transactions, which, at the time of their conclusion, are not recognised in the balance sheet as assets or liabilities, but result in contingent liabilities. A contingent liability is:

- a possible obligation that arises from past events, whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly controlled by the Group's entities;
- a present obligation resulting from past events, but not recognised in the balance sheet, as it is not probable that the outflow of cash or other assets in order to settle the obligation is necessary, or the obligation amount cannot be measured with sufficient reliability.

Granted credit lines and guarantees are the most significant items of granted off-balance sheet liabilities.

Customers' undrawn credit lines granted by the Group and liabilities under guarantees issued by the Group to customers are recognised in off-balance sheet liabilities in the amount resulting from contracts.

Provisions for estimated risk are reported in 'Provisions' in the Group's balance sheet. Credit risk arising from off-balance sheet liabilities is assessed on the basis of IAS 37 and IAS 39.

7.24. Company Social Benefit Fund (CSBF)

CSBF is created on the basis of write-downs made by the Bank and the Group companies and charged to operating expenses as required by the CSBF Act. The objective of the Fund is to finance social benefits for employees. The Fund's liabilities are accumulated write-downs made by the Bank and the Group companies for CSBF less non-returnable expenditure from CSBF. The Group has no social assets; all CSBF liabilities are expressed in cash deposited on a separate banking account.

For the purpose of presentation in this financial statement, the Group sets off assets and liabilities of CSBF, as they do not constitute Group's assets.

7.25. Net interest income

Interest income and expense generated by financial assets and liabilities are recognised in the income statement at amortised cost using the effective interest rate method.

The following financial assets and liabilities are measured by the Group at amortised cost:

- loans granted as well as other receivables – not held for trading;
- held-to-maturity investments;
- financial liabilities not held for trading and non-derivative financial instruments;

- financial assets (not equity instruments) for which fair value cannot be determined reliably.

In addition, as indicated in “Financial assets and liabilities” section, in the case of debt securities carried at fair value, the coupon rates and acquired discounts or premiums are amortised using effective interest rate method in the income statement.

The effective interest rate is the rate that discounts a future, expected flow of cash payments to present net carrying amount during the period until maturity or by the time of the next market evaluation of a particular financial asset and liability, and its determination entails any due or cash payments as well as cash flows paid or received by the Group under the agreement on a given instrument, excluding future, possible credit losses.

The method of settling coupon rates, commissions/fees and certain external costs connected with the financial instruments (with the effective interest method rate or straight-line method) depends on the nature of a given instrument. In the case of financial instruments with fixed cash flows schedules, the method of the effective interest rate is applied. In the case of instruments with undefined cash flows schedules, it is impossible to calculate the effective interest rate and commissions/fees are settled on the straight-line basis over time.

And the method of recognising particular types of commissions/fees in the income statement depends on the economic nature of a commission/fee.

The items included in the commissions/fees settled over time include, e.g. fees for a positive appraisal of a loan application, commissions for granting a credit, commissions for releasing a credit, fees for establishing additional collateral, fees paid to loans extension intermediaries. The collection of the above commissions and fees constitutes an integral part of the return generated by a specific financial instrument. This category also includes fees and costs of changes of contractual terms, which modifies the value of initial effective interest rate. Any significant amendment to the conditions of a given financial instrument in economic terms is connected with the expiry of the financial instrument of the previous type and creation of a new instrument with different characteristics. The fees that are collected in this category include, among others, fees for preparing an annex changing a future cash flows schedule, fees for restructuring loan agreements, fees for postponement of payment dates, etc. The above-mentioned types of fees are deferred and settled over time in the income statement applying the effective interest rate method or on a straight-line basis, depending on the type of a product.

In the case of assets for which evidence for the risk of impairment was identified, interest income is charged to the income statement on the basis of net investment defined as the difference between the gross exposure value (having regard for unsettled commissions) and impairment charge.

7.26. Net fee and commission income

As stated above, fees and commissions deferred and amortised over time using the effective interest rate method are reported in ‘net interest income’.

However, fees and commissions not amortised using the effective interest rate, but settled over time with the straight-line method or recognised one-off, are reported in ‘net fee and commission income’. Income settled over time with the straight-line method includes commissions on revolving loans,

overdraft facilities, credit cards, off-balance sheet liabilities, and fees for managing current accounts. All fees for the activities in which the Group acts as an agent or provides services related to the distribution of shares of investment funds, transfers, and payments, etc. are recognised once.

7.27. Net trading income

Net trading income comprises gains or losses on the disposal or change of the fair value of financial assets and liabilities measured at fair value through profit or loss. This item also includes foreign exchange and interest on swaps.

7.28. Dividends

In the case of equity investments recognised in the balance sheet at historical cost, dividend income is recognised in the income statement at the time when the right to dividend is established. In the case of equity investments recognised in the balance sheet with equity method, dividend income is already included in the measurement with the accrual concept, initially recognised in the measurement with the equity method.

7.29. Net income from sale of receivables

Net income from sale of doubtful receivables is determined by comparing net value of sold assets with the price paid for the assets, having regard for provisions against potential risk associated with the transaction. Net income from sale of receivables is presented as a separate item in the income statement. Sold assets are derecognised from the balance sheet on condition of transferring all rights and rewards from them onto the buyer.

7.30. Other operating income and expenses

Other operating income and expenses include items not related directly to the Group's operations. These are in particular income and expenses on sale and liquidation of property, plant and equipment, received and paid indemnities, income and expenses on other services provided or acquired by the Group to a marginal extent.

7.31. Income tax expense

The deductions from profit before tax entail current income tax payable and deductions/credits associated with the change in deferred income tax.

Current tax for the period is calculated by the Group companies on the basis of their profit before tax as per books adjusted with income and expense which, under the present income tax act, are excluded from the tax base. Furthermore, the book profit before tax in the current year is adjusted to take account of the cash realisation of income and expenses in the current reporting period, which are recognised in profit before tax in previous years. Deferred income tax recognised as an element of income tax charge/credit on book profit before tax is calculated as the net effect of the change in deferred tax assets and liabilities.

Details on the method of calculating deferred tax are presented in Note 7.19.

7.32. Comparable data

Accounting principles adopted to prepare this financial statement are applied in a continuous manner in all presented periods. The description of adjustments of comparable data has been presented in Note 71.

8. Accounting estimates

The preparation of financial statements in line with IFRS requires a professional judgment of the Bank's Management Board and Management Boards of the Group companies on the adopted accounting principles and accounting estimates applied with respect to balance sheet items and income statement items. Estimates are related to uncertain future events and are made basing on historical data and a number of assumptions based on the facts available as at the balance sheet date, resulting from internal and external conditions. The actual results of future business operations may differ from the present accounting estimates as at the balance sheet date. Therefore, accounting estimates are verified on a regular basis. Changes in estimates are recognised in the financial statement in the period they were introduced. If such changes are also related to future periods, the assumptions being the basis for the estimates for future periods are also adjusted.

The most important accounting estimates prepared for the purpose of this financial statement refer to:

- measurement of financial assets and liabilities at fair value, including derivatives for which no active market exists;
- identification and measurement of impairment losses for financial assets measured at amortised cost and historical cost;
- value of deferred tax assets;
- provisions.

8.1. Valuation of financial assets and liabilities at fair value

In the case of financial assets and liabilities recognised in the balance sheet at fair value, for which no active market is identified, except for equity instruments, they are measured on the basis of generally adopted measurement models based on variables that can be observed in the market environment. Certain variables, e.g. future interest rates, volatility parameters, correlations, must be assessed professionally. The models and variables are verified on a regular basis. The change in adopted models or variables in these models might affect accounting estimates related to measurement.

8.2. Impairment of financial assets valued at amortised cost and historical cost

At each balance sheet date (at least once per quarter), the Group analyses whether there is an indication that a financial asset and/or a group of financial assets is impaired. A financial asset or a group of financial assets is impaired and impairment losses are incurred if, and only if, there is objective evidence for impairment as a result of one or more events that occurred after initial recognition of the asset and that loss event or events has an impact on the estimated future cash flows generated by the financial asset or the group of financial assets. Expected future losses are not taken into account in estimates of impairment.

If the Group identifies an evidence for impairment, the amount of the impairment loss is determined as the difference between the carrying amount of the loan and its economic value measured as the present value of estimated future cash flows discounted using the initial effective interest rate of contracts. Impairment loss is recognised in the income statement in correspondence with provision account which adjusts assets' value.

Loan receivables constitute the most significant class of financial assets recognised in the Group's balance sheet at amortised cost and subject to impairment.

8.2.1. Evidence for impairment

The analysis of the evidence indicating the risk of impairment is performed for individual loans as well as portfolios (groups) of loans.

The list of objective evidence includes:

- a) significant financial problems of an issuer or a debtor;
- b) a breach of contract, e.g. failure to pay or delaying payment of interest or the principal amount;
- c) granting a facility by the lender to the borrower, for economic or legal reasons related to the borrower's financial problems, where such a facility would not have been granted otherwise;
- d) high probability of the borrower's bankruptcy or their other financial reorganisation.

If there is no evidence that the impairment occurred, the previously recognised impairment losses are reversed through income statement.

8.2.2. Measurement of individual impairment

Individual impairment is measured for loan receivables over a specific exposure level, for which certain individual evidence indicating impairment were identified. The process of estimating future, expected cash flows is carried out in a specially dedicated IT tool.

Expected future cash flows from collaterals are estimated on the basis of debt recovery value which is calculated with the application of periodically verified adjusting indicators determined for each type of hedging on the basis of historical data collected by the Bank concerning the time of debt collection process, recovered amounts from hedging and their value determined in the valuation.

The quality of the measurement of individual impairment of loan receivables is verified during a multi-stage independent process.

8.2.3. Measurement of collective impairment

In the event where no objective evidence for loan impairment assessed on individual basis occurred, regardless of whether or not it constitutes a significant reporting item, such exposure is included in the credit portfolio of similar nature and the collective analysis of the impairment is conducted.

Homogenous loans portfolios are created basing upon similar characteristics of credit risks that are specific for the defined groups of customers and products.

The collective impairment is measured basing on historical parameters of losses generated by similar assets portfolios. Historical trends for losses are cleared of one-off events and are updated against a current risk profile of homogenous groups of assets. Hence, the portfolios systematic risk is identified.

The following issues, apart from corrected historical trends, have material impact on the level of the collective impairment:

- fluctuations in the receivables portfolios;
- the Group's operating effectiveness in credit risk management processes, particularly taking into account the restructuring and debt collecting activities;
- Poland's macroeconomic situation and its direct impact on the main indicators applied in the banking sector;
- the Group's credit policy for selected sectors of economy as well as receivables portfolios compared to the models adopted by other banks.

If there is no evidence that the impairment occurred, the previously recognised impairment losses are reversed through income statement.

8.2.4. Available-for-sale financial assets

If the Group identifies objective evidence for the impairment of an asset classified as available for sale, the cumulative negative measurement of this asset, previously accounted for in the revaluation reserve, is written off and recognised directly in the income statement, despite the fact that this asset is not excluded from the balance sheet.

In the case of an equity instrument classified as available for sale for which fair value cannot be determined reliably, i.e. measured at historical cost having regard for impairment, impairment losses are not reversed. In the case of a debt instrument measured at fair value at the time when the circumstances indicating impairment are no longer identified, the amount of the reversed impairment loss is recognised in the income statement.

8.3. The value of deferred tax asset

The probability of realising net deferred tax asset is determined on the basis of financial plans and tax forecasts prepared by the Bank's Management Board, updated on an ongoing basis as at the end of each quarter, having regard for the prudence principle.

The Bank's subsidiaries recognise a deferred tax liability for all temporary differences whereas the deferred tax asset is determined on the basis of financial plans approved by the Management Boards of subsidiaries.

9. Segment reporting

The Group's operation, as in the previous reporting periods, was divided into four basic sector segments: corporate, retail, treasury and investment. The Bank's operations are not diversified in geographical terms. Operations are focused on the Polish market; the main customer base is composed of Polish natural and legal persons and foreign customers operating on the Polish market

Corporate Segment

Corporate Segment, in management terms, entails transactions with large companies (with annual sales revenue exceeding PLN 16 million) as well as state budgetary units at central and local levels. Beside the traditional deposit, credit and settlement services, the customers from this segment are offered other specific services. They are tailored to customers' individual needs, e.g. organizing syndicates supporting investment projects, financing real estate transactions, financing foreign trade and bulk payments. The Group's offer in this segment is expanded by the products of Kredyt Lease, which offers a complete range of services for companies in respect of leasing of property, plant and equipment and real estates, and also of real estate trade.

Retail Segment

Retail Segment, in management terms, incorporates products targeted at individual customers as well as Small and Medium-sized Enterprises (SME), whose annual sales revenue does not exceed PLN 16 million. The products on offer comprise a wide range of deposit and loan products, insurance products (bancassurance and assurebanking) offered in co-operation with WARTA S.A. as well as clearing services. This offer is addressed to customers through traditional channels of distribution via the Bank's nationwide network of branches as well as KB24 - an Internet network. The results of this segment also comprise the result of Żagiel S.A. (Consumer Finance) specialising in the sale of instalment loans as well as in intermediation in the distribution of the selected services that are found in the Bank's and WARTA's offers. Furthermore, the Bank's offer for this segment includes products offered by KBC TFI with regard to the sale of shares in investment funds.

Treasury Segment

Treasury Segment, in management terms, comprises the result of the transactions performed by the Group on its own account as an active participant of the money market (Treasury and NBP bills), bonds market (Treasury and commercial bonds), currency market and interbank market. The result of the segment also includes net income on derivative instruments transactions: forward, FX swap, IRS, CIRS, FRA, interest rate and currency options.

Investment Segment

Investment Segment, in management terms, incorporates the Group's equity investments in shares of companies whose core business is focused on generating added value for the Group by specialising in non-banking areas of operation, and also on investments in the shares of companies with an expected high long-term rate of return. In addition, the segment focuses on custodian services.

The segment's income and expenses had been determined before inter-segmental eliminations were made. The selling prices exercised among segments are calculated on the basis of the transfer pricing methodology.

Interest on hedging instruments	44 265	4 201
Total	1 594 854	1 328 798

Interest income comprises cash interest and interest calculated on an accrual basis on receivables for which evidence for impairment was identified. Interest was calculated with the effective interest rate applied in discounting expected cash flows for the purpose of estimating the impairment loss on loan receivables. The amount of interest on receivables for which individual evidence for impairment was identified recognised in interest income for 2006 amounts to PLN 26,463 thousand as compared to PLN 19,146 thousand in 2007. Accrued interest was taken into consideration when estimating impairment losses on such receivables.

11. Interest expense

18. Net income from sale of receivables

On 14.04.2006, the Bank and an external entity (BEST I Niestandaryzowany Sekurytyzacyjny Fundusz Inwestycyjny Zamknięty) concluded an agreement on the sale of receivables of Kredyt Bank S.A. and Żagiel S.A. The maximum amount of the capital of the receivables sold was determined at PLN 1,044,771 thousand, which made that transaction the biggest one effected on the Polish market. Total net income from the sale of receivables in 2006 amounted to PLN 149,662 thousand.

In 2007, the Group sold receivables related to the operations of Żagiel, as an intermediary in the sale of loan products and the Bank's other receivables. Total net income on the sale of receivables in 2007 amounted to PLN 54,893 thousand.

Total	974 622	930 242

Operating lease rentals

Leasing contracts under which the lessor retains the whole risk and all rewards arising from the possession of the leased property, are accounted for as an operating lease. Fees under operating lease are recognised as expenses in the income statement on a straight-line basis over the period of leasing.

Contracts of operating lease under which the parent company acts as the lessee are mainly related to the lease of real estate and real estate used by the parent company in the normal course of business. All contracts are executed on market terms, without any exceptional or non-standard terms or conditions.

Gross leasing payments paid by the Group and recognised in particular reporting periods as operating expense were as follows (rent + non-deductible VAT):

	01.01.2007- 31.12.2007	Comparable data 01.01.2006- 31.12.2006
Leasing payments	98 434	71 173

The majority of fees were the fees for the leasing of real estates.

The total amount of future gross minimum leasing fees that the Group is obliged to pay under irrevocable contracts of operating leasing, determined as at the balance sheet date, is as follows:

	31.12.2007	Comparable data 31.12.2006
Future gross minimum lease payments		
- not later than one year	59 109	60 942
- later than one year and not later than five years	134 473	182 415
- later than 5 years	16 002	61 522
Total	209 584	304 879

Under operating leasing contracts, the parent company operates two Head Office buildings, which, towards the end of 2004, were sold to companies not related to the Bank and are now leased from them. Sale transactions were executed on market terms; contracts of lease were also executed on market terms. The contracts are executed for 10 years and their terms provide for the possibility of their extension, without the terms set out on the day of their executions. Under the contracts, the parent company has no guaranteed repurchase right to the buildings after the 10-year term of lease. The contracts do not meet the criteria of financial leasing and, therefore, are classified as operating leasing contracts.

22. Net impairment losses on financial assets, other assets and provisions

Impairment is measured for all loan receivables in the case of which certain individual evidence for impairment was identified with regard to all evidence for impairment for a given exposure and a given borrower, including mainly the credit risk and the risk of a borrower's insolvency, the probability of recovering amounts due, the transferability of assets being material collateral and the period of recovering amounts due and the collection of collateral.

As at 31.12.2007, the amount of non-amortised loan commissions settled with the effective interest rate, which, according to the concept of the measurement of financial assets at amortised cost decreases the value of gross receivables, amounted to PLN 163,023 thousand, as compared to PLN 142,188 thousand as at 31.12.2006. The amounts were already recognised in total gross receivables.

Receivables quality ratio

in PLN '000	31.12.2007	Comparable data 31.12.2006
Loans and advances with no evidence for impairment, including interest	16 312 565	10 932 092
Loans and advances with evidence for impairment, including interest	1 143 619	1 711 751
Total gross loan and advances to customers	17 456 184	12 643 843
Impairment losses on loans and advances to customers	834 327	1 087 462
including: impairment losses on I loans and advances with evidence for impairment	792 087	1 030 165
Total net loans and advances to customers	16 621 857	11 556 381
The share of loans and advances with evidence for impairment in total gross loans and advances	6.6%	13.5%
Coverage of loans and advances with evidence for impairment with impairment losses	69.3%	60.2%
Coverage of gross loans and advances to customers with corresponding impairment losses	4.8%	8.6%

Over 12 months, the value of impaired receivables, i.e. for which evidence for impairment was identified, decreased by 33.2%, primarily as a result of the sale of receivables, writing down receivables, the improvement of the borrowers' financial standing and repayments of receivables following the restructuring measures. As a result of the above-mentioned situation and the material increase in loans portfolio, over the last 12 months, the quality ratio for the Bank's gross receivables portfolio improved by 6.9 p.p.

Receivables assessed individually

Gross receivables	Impairment	Net receivables
440 240	286 527	153 713

Loan collaterals accepted by the Bank

In the case of receivables for which impairment was identified, the total value of collateral approved by the Group considered in estimated future cash flow is presented in the table below.

	31.12.2007	Comparable data 31.12.2006
Value of approved collateral	339 899	567 341

Apart from standard loan collateral specified in loan agreements which are in line with the practices applied in the industry (mortgage, transfers of ownership to secure a loan, registered pledges, sureties, guarantees and transfers of receivables), the Group does not apply any other loan collateral, e.g. credit derivatives.

The Group monitors established legal securities of loan transactions by evaluation of the value of approved collateral on the basis of documents lodged by the borrower and internal databases including historic data about the recoverability of collateral.

All investment securities classified in the portfolio of available-for-sale financial assets are measured at fair value, except for NBP bonds issued for the purpose of statutory reserve of banks and non-listed equity investments. NBP bonds are measured at amortised cost, as there is no active market for them, and NBP bonds may only be redeemed by the issuer. Non-listed equity investments are recognised at cost, having regard for impairment losses, as there is also no active market for them and their fair value cannot be determined reliably.

36. Financial assets subject to hedge accounting

The Group applies hedge accounting for fair value hedge for asset swaps. The purpose of hedge accounting is to hedge fixed interest rate bonds with IRS, on which the Group pays a fixed interest rate and receives a floating interest rate.

The aim of loans-related cash flow hedge is to change floating interest rate cash flows generated by the loans portfolio to cash flows based on a fixed interest rate to match the structure of the interest rate risk for assets and liabilities based on a fixed interest rate. The hedge involves swap transactions in which the Group, on the whole, pays cash flows based on variable O/N interest rate matched to the interest rate of the loans portfolio and receives interest flows at a fixed interest rate with required maturity. The above structure makes it possible to change the floating interest rate into the fixed interest rate without the necessity for employing additional liquid cash for the purchase of new assets

(e.g. fixed coupon bonds), at the same time ensuring stable impact on the result by recognising changes of fair value of swaps in the Group's equity.

The Group applies cash flow hedge accounting for asset swaps. The transaction involves hedging cash flows from floating interest rate bonds, as a result of which the Group receives fixed and pays floating interest flows.

The rules of recognising and measuring the effectiveness of the hedges for transactions subject to hedge accounting are described in Note 7.7.6 of this financial statement.

As at 31.12.2007**Financial assets subject to cash flow hedge accounting**

- bonds

Hedged assets - available-for-sale bonds

Bond nominal value	Maturity date	Interest rate	Coupon rate payment

* The item contains: amounts due from the sale of financial and property, plant and equipment, returnable security deposits paid by the Bank under finance and operating lease agreements for real estates used by the Bank, settlements under payment cards, amounts due to the State Treasury.

44. Investment properties

In 2007, as the sale of certain assets classified as non-current assets held for sale (IFRS 5) was not possible, the Group reclassified them into investment properties. Under IAS 40 and pursuant to the policy of the Group's main shareholder, the Group values investment properties at cost.

In 2007, income from rent related to the investment properties amounted to PLN 26,508 thousand. The direct operating expenses related to the investment properties and incurred in the period amounted to PLN 8,247 thousand.

The building being the main part of the property is depreciated on a straight-line basis for 40 years (annual depreciation rate is 2.5%) and other plant and machinery are depreciated at 7%, 10%, 14% and 18% rates.

With reference to the suit of Mostostal Zabrze Holding S.A. against Reliz Sp. z o.o., the Group cannot dispose of this investment property.

The table below presents changes in the investment properties in 2007:

52. Equity

Share capital

As at 31.12.2007, the parent company's share capital totalled PLN 1,358,294,400 and was divided into 271,658,880 shares of nominal value PLN 5.00 each. The parent company's shares are registered shares and bearer shares, but not preference shares. Each share entitles its holder to one vote at the parent company's General Meeting of Shareholders. The parent company's shares are admitted to public trading. The share capital did not change in 2007.

The analysis of registered shares and bearer shares presented below was prepared as at 31.12.2007.

Registered shares

Shareholders of the parent company hold 68,060 registered shares, which accounts for 0.03% of the share capital. Registered shares as at 31.12.2007:

Series	Number of shares
A	2 942
C	1 425
F	5 792
P	29 621
S1	26 663
Total	66 443

Series A, C and F shares were admitted to stock exchange trading on condition that they are converted into bearer shares, and series P and S1 shares may be admitted to stock exchange trading when respective authorizations are obtained.

Bearer shares

The parent company's Shareholders hold 271,592,437 bearer shares, which account for 99.98% of the share capital. Originally, the number of bearer shares amounted to 264,204,350. In addition, as a result of the conversion of registered shares into bearer shares, 7,386,470 became bearer shares. Bearer shares as at 31.12.2007:

(Original) bearer shares		Following the conversion of registered shares into bearer shares	
Series	Number of shares	Series	Number of shares
B	2 500 000	A	2 497 058
D	100 000	C	98 575

W	60 368 640		
Total	264 204 350	Total	7 388 087
Total bearer shares			271 592 437

As at 31.12.2007, as many as 271,592,437 bearer shares were traded on the main market of the Warsaw Stock Exchange. And, as at 31.12.2006, the number of shares traded on the stock exchange amounted to 271,590,820.

The shareholding structure changed as compared to the structure as at 31.12.2006 presented in the Group annual financial report for 2006.

On 27.04.2007, Kredyt Bank S.A. was informed by KBC Bank NV that, on 24.04.2007, KBC Securities NV, a wholly-owned subsidiary of KBC Bank NV, had purchased 7,690,966 shares of Kredyt Bank S.A. in a block transaction.

As informed by KBC Bank NV, both companies jointly, i.e. KBC Bank NV and KBC Securities NV, are entitled to exercise up to 75% of votes at the General Meeting of Shareholders of Kredyt Bank S.A., i.e. KBC Bank NV and KBC Securities NV jointly may exercise 203,744,160 votes at the General Meeting of Shareholders of Kredyt Bank S.A.

The table below presents Shareholders of Kredyt Bank S.A. holding over 5% of total votes at the General Meeting of Shareholders of Kredyt Bank S.A. as at 31.12.2007.

Shareholder	Line of business	Number of shares and votes at GMS	Share in votes and in share capital (in %)
KBC Bank N.V.	Banking	217 327 103	80.00
Sofina S.A.	Investment company	15 014 772	5.53

On 18 December 2007, the Management Board of Kredyt Bank S.A. was informed by Pioneer Pekao Investment Management S.A. ('PPIM' based in Warsaw) that, on 17 December 2007, PPIM held over 5% of total votes at the General Meeting of Shareholders of Kredyt Bank S.A. concerning the financial instruments included in the portfolios managed within the services of managing broker-traded financial instruments upon order provided by PPIM and in performance of the agreement on the management of broker-traded financial instruments upon order, concluded between Pioneer Pekao Towarzystwo Funduszy Inwestycyjnych SA and PPIM.

PPIM notified, on behalf of the funds it managed, of the increase in the interest of the said funds to 5.001% of total votes at the General Meeting of Shareholders of Kredyt Bank S.A. (The said investment funds are shareholders who jointly hold the above-mentioned number of votes at the General Meeting of Shareholders. Portfolios of investment funds are a sub-group of all portfolios of PPIM's Customers.)

The total interest of PPIM amounts to 13,674,064 shares of Kredyt Bank S.A. which account for 5.03% of total votes and share capital of Kredyt Bank S.A. (All Customers of Pioneer Pekao Investment Management S.A., related to portfolios managed by PPIM, are shareholders who jointly hold the above-mentioned number of votes at the General Meeting of Shareholders).

Major items in 'contingent liabilities' related to the guarantees issued for customers are guarantees of good contracts performance and loan repayment guarantees. The Group offers its customers guarantees as a standard loan product offer mainly for corporate customers. Commission income from guarantees granted are charged to fee and commission income in the income statement on a straight-line basis over the lifetime of the guarantee

The Group treats guarantees granted and unconditional financing liabilities as an exposure with credit risk for the purpose of credit risk management. The assessment of risk under issued guarantees is an element of the credit risk assessment process resulting from other credit products held by particular customers, i.e. all credit facilities, including guarantees, issued to particular borrowers are at the same time analysed for the occurrence of the impairment indicators and required level of allowance for impairment.

As at 31.12.2007, the estimated provision for the guarantees granted and unconditional financing liabilities amounted to PLN 15,009 thousand. This amount is presented in Note 49 in 'provision for off-balance sheet items.

54. Capital adequacy ratio

56. Discontinued operations

The Group did not carry out operations that were discontinued in 2007.

57. Social assets and the Company Social Benefit Fund (CSBF)

The Act of 4 March 1994 on Company Social Benefit Fund, as amended, stipulates that the Company Social Benefit Fund shall be established by employers hiring over 20 full-time employees. The Group established such a fund and makes periodical charges in the amount of the basic charge. The fund has no property, plant and equipment. The objective of the Fund is to subsidize the Company's employee-related operations, loans borrowed to employees and other employee-related expenses.

The Group set off the Fund assets against its liabilities to the Fund, as these assets are not Group's separate assets.

The table below presents the analysis of the Fund's assets, liabilities and expenses.

	31.12.2007	31.12.2006
Employee cash loans	5 462	6 706
Cash on CSBF's bank accounts	9 353	7 034
Fund-related payables	14 815	13 740
Balance after set-off	0	0
Charges to the Fund in the period	3 472	3 316

58. Employee benefits

58.1. Employee Stock Ownership Plan

No employee stock ownership plan is implemented in the Group.

58.2. Retirement benefits and other benefits after retirement

The Group companies pay retirement severance pays to employees who become retired in the amount set out in the Labour Code. As at the balance sheet date, a provision is established on the basis of an actuary's estimate.

	01.01.2007- 31.12.2007	Comparable data 01.01.2006- 31.12.2006

Period end *	3 200	8 059

*restructuring provisions presented in Note 49 also include network restructuring provisions of PLN 2,056 thousand for 2007, and of PLN 2,929 thousand for 2006.

59. Related party transactions

Related parties with which the Group concludes transactions are the Group's associates, the companies of KBC Group, persons managing the Group and other related parties.

Transactions with related parties are standard banking operations, provided at arm's length: granting loans, issuing bank guarantees, issuing own securities, accepting deposits, borrowing loans, foreign exchanged transactions, transactions made in derivatives. The volumes of transactions and related income and expense have been presented below:

In 2007, no significant transactions had place between not fully consolidated Group's companies and the remaining Group's companies with the value equal to or exceeding PLN equivalent of EUR 500 thousand and which were not related to current operations.

64. Disposal of subordinated companies

No subordinated companies were sold in 2007.

In 2006, the Bank sold:

- to BFI Serwis Sp. z o.o. (the Bank's subsidiary), 16,720 shares in BFI Serwis Sp. z o.o. to redeem them. They accounted for 86.86% of the share capital and total votes at the General Meeting of Shareholders of BFI Serwis Sp. z o.o. Following the sale of shares, the Bank holds 2,529 shares in BFI Serwis Sp. z o.o., which account for 99.96% of the share capital and total votes at the General Meeting of Shareholders of BFI Serwis Sp. z o.o.
- to Zakłady Odzieżowe Bytom S.A., 160,195 registered shares of Zakłady Przemysłu Jedwabniczego Dolwis S.A. based in Leśna, which account for 50.06% of the share capital of ZPJ Dolwis S.A. and 50.06% of votes at the General Meeting of Shareholders of ZPJ Dolwis S.A. The nominal value of shares in ZPJ Dolwis S.A. amounts to PLN 1.57 per share. The book value of the shares in the Bank's books amounted to PLN 0. The selling price amounted to PLN 167 thousand.

65. Assets pledged as collateral

As at 31.12.2007, the following assets in the form of Treasury bills and bonds were collateral for the Group's own liabilities:

- Treasury bonds of the nominal value of PLN 42,080 thousand and of the carrying amount of PLN 44,061 thousand were collateral for the protection fund for guaranteed cash in the Banking Guarantee Fund and were deposited in the National Depository for Securities;
- Treasury bonds of the nominal value of PLN 1,850,000 thousand and of the carrying amount of PLN 2,121,754 thousand as security for possible borrowing of a lombard loan in the National Bank of Poland (NBP);
- Treasury bonds of the nominal value of PLN 48,620 thousand and of the carrying amount of PLN 50,286 thousand pledged in relation to REPO transactions with customers.

As at 31.12.2006, the following assets in the form of Treasury bills and bonds were collateral for the Group's own liabilities:

- Treasury bonds of the nominal value of PLN 73,620 thousand and of the carrying amount of PLN 78,140 thousand were collateral for the protection fund for guaranteed cash in the Banking Guarantee Fund and were deposited in the National Depository for Securities;
- Treasury bonds of the nominal value of PLN 1,000,000 thousand and of the carrying amount of PLN 1,015,235 thousand as security for possible borrowing of a lombard loan in the National Bank of Poland (NBP);
- Treasury bonds of the nominal value of PLN 1,000,057 thousand and of the carrying amount of PLN 1,038,716 thousand as well as Treasury bills with the nominal value of PLN 15,070 thousand and the carrying amount of PLN 15,039 thousand pledged in relation to REPO transactions with customers;
- Treasury bonds of the nominal value of PLN 500 thousand and of the carrying amount of PLN 495 thousand were a guarantee deposit for futures.

66. Changes in the Management and Supervisory Boards of Kredyt Bank S.A. in 2007

On 06.04.2007, Mr. Konrad Kozik, the Vice President of the Management Board of Kredyt Bank S.A., resigned from his position of the Vice President of the Management Board of Kredyt Bank S.A. and from the membership in the Management Board of Kredyt Bank S.A. as of 27.04.2007.

On 18.04.2007, at the session of the Bank's Supervisory Board, Mr. Bohdan Mierzwiński, the Vice President of the Management Board of Kredyt Bank S.A., was dismissed from his position of the Vice President of the Management Board of Kredyt Bank S.A. and from the membership in the Management Board of Kredyt Bank S.A. as of 18.04.2007.

On 05.06.2007, the Supervisory Board of Kredyt Bank S.A. appointed, as of 01.07.2007, Mr. Andrzej Witkowski, the Chairman of the Supervisory Board, to be a temporary Vice President of the Management Board of Kredyt Bank S.A. The period for which Mr Andrzej Witkowski, Chairman of the Supervisory Board of Kredyt Bank S.A., was delegated to perform the function of a Member of the

Management Board of Kredyt Bank S.A. expired on 30 September 2007. As a result, the Supervisory Board of Kredyt Bank S.A., during its session on 26 September 2007, pursuant to its powers under § 25 item 2 of the Articles of Association of Kredyt Bank S.A., decided that, since 1 October 2007, the Management Board of Kredyt Bank, by the time of the appointment of a new Member of the Bank's Management Board, will be composed of 4 members.

On 18 December 2007, at the session of the Bank's Supervisory Board, Mr. Ronald Richardson, the President of the Bank's Management Board, resigned from his position of the President of the Bank's Management Board, and from the membership in the Bank's Management Board as of 29 February 2008.

On 18 December 2007, at the session of the Bank's Supervisory Board, Mr. Maciej Bardan was appointed the President of the Management Board of Kredyt Bank S.A. as of 1 March 2008. At the same time, the Supervisory Board shall address the Commission for Banking Supervision to grant its consent to the appointment of Mr. Maciej Bardan as the President of the Bank's Management Board.

As at 31.12.2007, the Management Board of Kredyt Bank S.A. was composed of:

Mr. Ronald Richardson	- President of the Management Board, CEO
Mr. Umberto Arts	- Vice President of the Management Board, Vice CEO
Mr. Krzysztof Kokot	- Vice President of the Management Board, Vice CEO
Mr. Michał Oziębło	- Vice President of the Management Board, Vice CEO

On 27.03.2007, Mr. Józef Toczek, a Member of the Supervisory Board of Kredyt Bank S.A. resigned from his position of a Member of the Supervisory Board of Kredyt Bank S.A.

On 05.06.2007, the Annual General Meeting of Shareholders of Kredyt Bank S.A., appointed, as of 05.06.2007, Mr. Francois Gillet and Mr. Krzysztof Trębaczkiwicz to be Members of the Supervisory Board of Kredyt Bank S.A.

As at 31.12.2007, the Supervisory Board of Kredyt Bank S.A. was composed of:

Mr. Andrzej Witkowski	- Chairman of the Supervisory Board
Mr. Adam Noga	- Vice Chairman of the Supervisory Board
Mr. Francois Gillet	- Member of the Supervisory Board
Mr. John Hollows	- Member of the Supervisory Board
Mr. Feliks Kulikowski	- Member of the Supervisory Board
Mr. Marek Michałowski	- Member of the Supervisory Board
Mr. Luc Philips	- Member of the Supervisory Board
Mr. Jan Vanhevel	- Member of the Supervisory Board
Mr. Krzysztof Trębaczkiwicz	- Member of the Supervisory Board

67. Seasonality or cyclical nature of operations

The operations of the Group companies are not of seasonal nature.

68. Non-typical factors and events

In 2007, no untypical events occurred in the Group (not related to operating activities) that would affect the structure of balance sheet items and the financial result.

In 2006, the Group sold receivables to a securitisation fund; the impact of this sale on the Group's profit before tax for 2006 amounted to PLN 149,662 thousand.

69. Dividends paid and declared

On 05.06.2007, the Annual General Meeting of Shareholders of Kredyt Bank S.A. adopted a resolution on the distribution of profit for 2006. The net profit for 2006 amounting to PLN 437,442,933.29 was allocated to:

- reserves - PLN 60,000,000.00;
- dividend payment - PLN 100,513,785.60;
- Bank's share premium - PLN 276,929,147.69.

70. Post-balance sheet events

On 7 February 2008, Kredyt Bank S.A. executed, with Kredietbank S.A. Luxembourgeoise, a multicurrency loan agreement up to the amount equivalent to EUR 200 million (i.e. PLN 719,580,000 at the average exchange rate of the NBP of 7 February 2008). The agreement was concluded on market terms with the repayment date of 2 years and one day.

The loan can be drawn in CHF or PLN. The interest rate is based on LIBOR/WIBOR rates + margin. The amount of cash received under the above-mentioned agreement exceeds 10% of the Bank's equity.

Cash obtained under the above-mentioned loan will be used to finance the Bank's current operations.

71. Comparable data

With respect to comparable data included in this financial report, there were changes in the presentation of figures as compared to data presented in the financial statements of Kredyt Bank S.A. Group for 2006. The changes aimed at the adjustment of comparable data to the format applied as at 31.12.2007.

72. Fair value of financial assets and liabilities not recognised at fair value in the balance sheet

72.1. Fair value

Fair value is an amount for which an asset may be sold or exchanged,, or a liability settled, between knowledgeable, willing parties in an arm's length transaction.

The main categories of financial assets and liabilities not measured in the Group's balance sheet at fair value are assets or liabilities measured at amortised cost or historical cost:

- loans and advances granted as well as other own receivables not held for trading;
- held-to-maturity investments;
- available-for-sale financial assets recognised at cost, including equity investments;

- financial liabilities not held for trading.

The table below shows differences between the carrying amount and estimated fair value of the Group's financial assets and liabilities not recognised in the Group's balance sheet at fair value.

72.2. Loans and advances to banks and to customers

As stated in the sections concerning the accounting principles adopted by the Group and the material accounting estimates, granted loans and advances and other own receivables not held for trading are measured at amortised cost with the effective interest rate method, having regard for impairment measured on the basis of future expected cash flows (including those generated upon the sale of loan collateral) discounted with the original effective interest rate.

Poland does not have an active market on which loans and receivables may be traded, therefore, it is not possible to reliably determine the market price of these assets. Estimates performed on the basis of the models of measurement relying on discounted expected cash flows of the principal and interest is the best reflection of the fair value. The discount rate is the market rate as at the balance sheet date plus credit margin offered on the market for particular loan facilities and specific customer groups/segments.

72.3. Held-to-maturity investments and available-for-sale financial assets

As stated in the section on the accounting principles adopted by the Group, held-to-maturity investments are measured at amortised cost with the effective interest rate methodology. Available-for-sale debt securities not measured at fair value in the balance sheet are also measured in this way. The market prices of securities applied in the measurement of fair value, for both categories of assets, do not take into consideration any potential adjustments resulting from the limited liquidity of the market or transaction costs.

The Group has no material commitment in shares of companies which are recognised at historical cost. Minority interests are also of specific nature, as, to a large extent, they are shares taken up for a borrowers' debt, therefore there is no active market for those assets and the fair value estimation may significantly differ from the real offers.

72.4. Other financial assets not recognised in the balance sheet at fair value

In the case of certain groups of financial assets held at the value of the payment due, it was assumed that fair value was equal to the book value. It is mainly related to cash and current receivables.

72.5. Financial liabilities not held for trading

As stated in Note 46 and Note 47, the bulk of deposits made in banks and customer deposits are deposits on current accounts and term deposits with balance sheet maturities of less than three months.

On the basis of the assumptions adopted for the measurement models, estimated fair value of financial liabilities not held for trading is not considerably different from their carrying amount.

73. Information on proceedings before courts or public administration authority

In 2007, the Bank was not a party to any proceedings before court or public administration authority, where the amount(s) claimed would amount to at least 10% of the Bank's equity.

Below are presented those proceedings, in which the amounts claimed are the highest

73.1. The cases in which the Group companies are plaintiffs

With reference to the Bank's failure in the litigation against Inspektoria Towarzystwa Salezjańskiego (Salesian Society Inspectorate) in Wrocław, the guarantor of loans granted by the Bank from February to August 2001 to four entities: St. Jan Bosko's Roman-Catholic Parish, St. Jack's Roman-Catholic Parish and two monastic houses of the Salesian Society in Lublin, the Bank is now pursuing claims by the reason of groundless enrichment against church institutions for the total amount of PLN 14,567.2 thousand with possible extension of the suit. The defendants replied to lawsuits and applied for the dismissal of all claims. Upon the Bank's request, accounting experts prepared reports to determine whether the resources obtained from lombard loans had been transferred to the accounts of the parish and monastic houses and determine the way of disposing the resources from these accounts. In two cases the court dismissed the suits; in both cases the Bank appealed against the court decision.

73.2. The cases in which the Group companies are defendants

The highest claim cases are as follows:

- Two court proceedings regarding a credit granted to Laboratorium Frakcjonowania Osocza Sp. z o.o. in Mielec ('LFO'). The Bank is the leader of the syndicate of five banks, which, under the agreement of 04.03.1997, granted a syndicated loan to LFO. The loan was secured by, among others, a registered pledge on the company's property, plant and equipment and the surety of the State Treasury up to 60% of the drawn amount of the loan and accrued interest. As the investment project for which the loan was extended had not been completed and the dates of the payment of commitments had not been met, the Bank, representing the syndicate, terminated the agreement under its terms and conditions and called LFO to pay claims. The proceedings related to the Bank's exercise of the collateral under the loan

agreement were unsuccessful; as a result, on 28.03.2003, the Bank, on behalf of syndicate members, called the Minister of Finance representing the State Treasury to pay USD 12.7 million, i.e. 60% of the drawn loan amount and USD 1.6 million of interest. The Finance Minister refused to exercise the surety. On the basis of the executory title obtained by the Bank, the court debt collector enforced the whole claim for the Bank, i.e. PLN 8,120.1 thousand on account of the repayment of loan principle and interest, and PLN 30.0 thousand on account of expenses.

- The State Treasury requested for determination whether the syndicated loan agreement concluded between LFO and the syndicate of five banks had expired on 28.02.1998 as a result of the occurrence of a contractual condition, and, as a result, the commitment of the State Treasury as the guarantor of the loan under the guarantor's agreement had expired as well. The State Treasury is represented by the General Public Prosecutor's Office of the State Treasury. Experts' opinions and auxiliary opinions were prepared and additional witnesses were questioned. In the first quarter of 2007, the State Treasury changed the lawsuit and claimed PLN 8,207.4 thousand including interest. Upon the request of the State Treasury, the court called upon the trustee in bankruptcy of LFO to participate in the case.

In the meantime, the parties submitted pleadings.

- Claims of LFO for damages due to the termination of the loan agreement amounting to PLN 119,477 thousand. The lawsuit was submitted on 18.06.2003. The Bank is of the opinion that LFO claims are not based on any actual and legal grounds. On 16.03.2005, the court rejected the suit by LFO. At present, after being heard by courts of all instances, the case was referred to the Circuit Court in Warsaw, which, as a result of LFO bankruptcy, stayed legal proceedings. The proceedings are still suspended.
- A trustee in bankruptcy of a company operating in the real estate developing sector (the name of the company is subject to confidentiality application) claims for payment of indemnity of PLN 32,256 thousand by the reason of effecting by the Bank of financial orders from the company's account on the basis of bank transfers orders and checks bearing a forged signature of one of the persons authorized to represent the company in dealings with the Bank. At the hearing on 21.11.2006, the plaintiff limited its claim for interest. The total amount claimed by the plaintiff equals PLN 20,665.6 thousand. On 20.03.2007, the court announced its decision and claimed the whole disputed amount with interest from the Bank. The Bank requested the court to justify the verdict. Following the receipt of the justification, the Bank appealed against the court's decision. Having lodged the appeal, the Bank requested to summon the member of the company's management board who had forged signatures. Furthermore, the Bank lodged a motion claiming that the proceedings in the first instance had been invalid (the motion regards the composition of the panel of judges). The trustee in bankruptcy lodged another pleading in this case. On 14.11.2007, the Supreme Court expressed its opinion on the composition of the panel of judges stating that it had been correct.
- A suit filed by MSG Investment Sp. z o.o. in liquidation. The plaintiff claims that, as a result of debt recovery measures taken by the Bank, he lost PLN 25 million (no calculations are

presented in the lawsuit). In the Bank's opinion, the basis for claims specified in the lawsuit are doubtful. The Court set a new date to 29.02.2008.

- The court proceedings concerning a loan totalling PLN 2,900.0 thousand extended by the Bank to its client in September 1999 to purchase securities. The Client claims damages for the loss of profit due to the decline in the value of assets on the account in the period of its freeze and failure to generate profit that he might have generated if he had had free access to the account, e.g. loss of profit related to unexercised pre-emptive right offered to him and the failure to take up new shares. The plaintiff also demands amounts collected by the Bank after the termination of the agreement. The total value of the object of the dispute amounted to PLN 10,048.6 thousand. On 12.09.2007, the parties agreed to a private arrangement; the Bank paid PLN 2.9 million to the customer. On 17.09.2007, the Court, upon the plaintiff's request, discontinued the proceedings and the case was closed.
- On 17.01.2001, the President of the Office for Competition and Customer Protection, upon the request of Polska Organizacja Handlu i Dystrybucji, initiated proceedings concerning competition-restricting practices on payment cards market by VISA and MasterCard as well as 20 banks, including Kredyt Bank S.A. On 29.12.2006, the President of the Office for Competition and Customer Protection issued the decision in which:
 - they imposed a fine on Kredyt Bank of PLN 12,158.4 thousand;
 - HSBC Bank Polska S.A. was fined with PLN 193,0 thousand and the proceedings against this company were discontinued (under a binding agreement between HSBC and Kredyt Bank S.A., the fine for HSBC should be paid by Kredyt Bank S.A. as well).

The decision was to be enforced immediately as regards the order to discontinue the practice of joint determination of the interchange fee rate. On 17.01.2006 and 19.01.2007, appeals against Decision No. DAR 15/2006 of the President of the Office for Competition and Customer Protection were made on behalf of HSBC Bank Polska and Kredyt Bank. In this decision, the President of the Office for Competition and Customer Protection resolved that joint determination by the Banks, Visa and MasterCard of the interchange fee restricted competition. On 18.01.2007, the President of the Office for Competition and Customer Protection issued a decision in which they obliged the banks to jointly and severally pay PLN 157.6 thousand to the Polish Organization of Commerce and Distribution (POHiD) as reimbursement of the proceedings costs. Kredyt Bank S.A. complained against this decision on 31.01.2007 and deemed it unjustified. The case was referred to the Economic Court in Warsaw which split the case into separate proceedings against each of the banks involved in the case. The hearing date has not been set yet. The parties are now exchanging multiple pleadings.

- In relation to a loan transaction to finance the construction of Altus building in Katowice, the Bank and Reliz Sp. z o.o. are involved in certain disputes of legal nature. The said disputes are related to claims of the guarantor of the loan to finance the building, i.e. Mostostal Zabrze Holding S.A., against the Bank and the building owner. The court requested the parties to settle the case amicably. Negotiations between the parties are underway.

Another suit was lodged by MZH against Reliz – *actio Pauliana*. MZH demands to recognize the sale of the real estate 'Altus' to Reliz (the Bank holds 100% of shares in Reliz) as ineffective towards them. At the hearing on 21.01.2008, the Court requested the plaintiff to

submit the bankruptcy documentation of BC 2000 in 7 days under the pain of exclusion. The Court, at its hearing on 25.02.2008, decided to postpone the decision by 14.04.2008 in order to supplement the evidence documentation.

- From May to August 2005, the Bank entered into nine framework agreements concerning the conclusion of term exchange transactions. The transaction result amounts to PLN 7,986.5 thousand. The transactions were negotiated by the Bank's employee with customers' consent. As a result of a change of trends on the market, the majority of forwards resulted in huge losses. Customers who were requested to additionally hedge the transaction challenge the concluded transactions. Seven proceedings are pending in these cases, including two proceedings that were suspended by the end of the criminal proceedings. Four proceedings were combined and will be heard jointly: at the hearing of 21.12.2007, the Court awarded the total amount (with interest) of PLN 5.7 million to four customers, to be paid by the Bank. In the seventh case, the hearing date was adjourned to 28.03.2008.
- The trustee in bankruptcy for a company from the media industry claims damages of PLN 4,350.0 thousand due to improper performance by Inwestycyjny Dom Maklerski Kredyt Banku S.A. of the firm commitment underwriting agreement for the shares of the said company by alleged improper settlement of proceeds from the issue of such shares. On 27.04.2007, the Bank responded to the suit. At the hearing on 24.09.2007, the Court obliged the Bank and KBC Securities (the legal successor of Inwestycyjny Dom Maklerski since 01.04.2005) to present documents in the case. At the hearing on 11.01.2008, the Court dismissed the lawsuit. The sentence is not legally valid.

The Management Board is of the opinion that any risks related to the proceedings before courts or public administration authorities are properly secured by the provisions established by the Bank.

74. Custodian services

An offer of the Bank's custodian services entails managing securities accounts for domestic and foreign, both institutional and individual, customers. For the special group of customers, i.e. investment funds, the Bank also plays a role of a depository, a transfer agent and an issue sponsor.

- The Bank holds an authorization of the Polish Securities and Exchange Commission to manage securities accounts; it is also a direct participant of the National Depository for Securities (KDPW) as a Depository and a participant of the Securities Register (RPW) managed by the National Bank of Poland (NBP). On these basis, the Bank manages accounts for securities admitted to public trading, deposited in KDPW or RPW. The Custody Department in the Bank's Head Office is the Bank's business unit providing the said services.

In 2007, income related to the management of securities accounts and registers as well as the services of an issue sponsor amounted to PLN 3,878 thousand as compared to PLN 3,733 thousand in 2006.

75. Risk management at Kredyt Bank S.A. Capital Group

Risk management in the Capital Group is concentrated directly in the Bank, as a result the data presented below in this Note regard Kredyt Bank S.A.

The Bank's supervisory bodies, explicitly the Management Board and the Supervisory Board, play the most important role in the risk management process.

The Bank's Supervisory Board, through the Audit Committee, is informed about the most vital decisions and give opinions about the actions of the Management Board in this respect.

Particular risks are dealt with directly by specialised Committees:

- Assets and Liabilities Management Committee - responsible for management of the risk in the banking portfolio as well as management of the Bank's structural liquidity;
- Operating Risk Committee - supervising the management of the operating risk;
- Credit Risk Committee - supervising the credit risk management process.

Members of the Management Board supervise works of the above committees; there are at least two Board Members in each committee.

The Risk Management Department deals with measurement and monitoring of all types of risks in Kredyt Bank. This is the only unit reporting all issues regarding risk, fully independent of business units.

In the process of the identification, measurement and risk management, the Bank applies techniques relevant to a given type of risk.

In the previous year, the main risk management objectives, policy and processes did not change. The Bank's exposure to credit risk, market risk and operating risk did not change as well. The overriding objectives of risk management policy concerning mainly the observance of internal and external limits and optimising and mitigating risk in the process of ongoing monitoring are being systematically implemented. The risk management process is strictly related to the capital management process. The main objective of capital management in the Bank is to optimise it and, at the same time, to meet external capital requirements. To achieve this goal, since 2007, the Bank has been implementing ICAAP (Internal Capital Adequacy Assessment Process). With regard to the Bank's application of the approach referred to in paragraph 14 of the Resolution of the Commission for Banking Supervision No. 1/2007 dated 13 March 2007, since 31.12.2007, the Bank has not been obliged to apply the regulations concerning the estimation and maintenance of the internal capital.

75.1. Credit risk

The Bank's credit risk is defined as the risk of non-payment of amounts due if a borrower, guarantors, reinsurer, contractor or an issuer loses its creditworthiness.

Credit risk is managed taking into account the credit risk aspect corresponding to individual transactions and from the portfolio perspective.

The process of risk management for individual transactions entails risk assessment for such a transaction and, depending on its level, application of an appropriate decision-making process.

The portfolio risk management is the responsibility of the Credit Risk Committee. In particular, the Credit Risk Committee is responsible for the following:

- acceptance and substantial supervision over the methods of credit risk measurement;
- recommending to the Bank's Management Board and the Supervisory Board an admissible level of credit risk in the Bank and subsidiaries;
- expressing opinions on the Bank's credit policy;
- expressing opinions on creation of write-downs and valuation of collateral;
- expressing opinions on internal credit limits;
- changing risk limits and approval of limit exceeds within the powers of the Bank's Management Board;
- substantial supervision over the program of the Bank's adjustment to the requirements of the New Capital Accord related to credit risk;
- approval of the new products in terms of credit risk.

The Bank manages the credit risk, applying different tools. Monitoring of the Bank's exposure concentration in customers or groups of related customers (in accordance with applicable banking law), and also monitoring of the utilization of the industry exposure concentration limits are among the basic ones.

As at 31.12.2007, the limits of the concentration were not exceeded.

Exposure towards 10 major corporate customers

To limit the risk of exposure concentration, the Bank tries to expand loan extending activities for SMEs and individual customers.

Except for standard loan collateral included in loan agreements which are in line with the practices in the industry (mortgages, transfers of ownership to secure a loan, registered pledges, sureties, guarantees and assignment of receivables), the Bank does not apply any other loan collateral, e.g. credit derivatives.

The Bank monitors established legal securities of loan transactions by evaluation of the value of approved collateral on the basis of documents lodged by the borrower and internal databases including historic data about the recoverability of collateral.

With regard to the Bank's application of the approach referred to in paragraph 14 of the Resolution of the Commission for Banking Supervision No. 1/2007 dated 13 March 2007, since 1 January 2008, the Bank has applied the standardized method to calculate risk weighted assets. The Bank deployed IT tools to calculate capital requirements according to the standardized method, and developed and implemented models which make it possible to determine the parameters necessary to calculate capital requirements according to the Foundation Internal Ratings Based (FIRB) approach. At the beginning of 2008, the Bank intends to submit a request to the Belgian and Polish banking supervision authorities for the consent to apply FIRB approach.

The coverage of balance sheet and off-balance sheet receivables with internal ratings as at 31.12.2007 (the table below contains data for rated receivables, i.e. 91.5% of total receivables):

31.12.2007

75.2. Operational risk

The Group defines the operational risk as a possibility of an unexpected influence upon the financial result, as a consequence of maladjustment or unreliability of internal processes, people, technical systems as well as a consequence of external incidents.

With regard to the Bank's application of the approach referred to in paragraph 14 of the Resolution of the Commission for Banking Supervision No. 1/2007 dated 13 March 2007, since 01.01.2008, the Bank has applied the standardized method to calculate the capital requirement related to the operational risk. As a result, the Bank:

- has implemented a documented operational risk assessment and management system closely related to the Bank's risk management process, and the result of the assessment forms an integral part of the operational risk profile monitoring and control process in Kredyt Bank;
- has specified roles and responsibilities of employees within this system;
- keeps a record of operational events and losses resulting from the operational risk;
- has its operational risk assessment and management system regularly reviewed by independent auditors.

Operational risk coordinators, directly supporting the management staff of business units, play a crucial role in applying operational risk management tools and techniques.

The infrastructure of management and methodology are coherent within the Bank and its subsidiaries. Identification and operational risk rating tools are identical. The whole process is supervised by the Operational Risk Committee which is managed by the President of the Management Board.

75.3. Market risk and ALM

Market risk is defined as a degree of the hazard to the Bank's financial standing resulting from adverse changes in market parameters (interest rates, exchange rates and prices of shares) and their market volatility.

The Bank does not trade on stock market (investments in shares are long-term investments or investments in strategic subsidiaries). The Bank does not trade on commodity markets. In the Bank, among all types of market risks, we deal with interest rate risk and currency risk.

The Bank's activity is divided into two parts: Trading Book and Banking Book. Due to different nature of opened positions, the risk is monitored in each book separately.

75.4. Trading Book

The Trading Book is a separated part of the Bank's portfolio, where the Bank intends to generate income resulting from short-term changes of prices, interest rates, exchange rates or other market parameters. The main activity of the Trading Book is associated with financial instruments in PLN, and, to a lesser extent, also in USD and EUR.

Value at Risk (VaR) is the basic metric of risk in the trading portfolio. Value at Risk means such a value that the probability of the Bank's loss exceeding this value amounts to 1% (with assumed 99% level of significance - such a level was assumed by the Bank). Value at Risk (VaR) in the Bank is calculated by historical method in the time horizon of 10 days, taking into account market figures for the previous 500 days. VaR limit for the Trading Book overlaps Global VaR, which includes both the currency risk and the interest rate risk.

VaR (for the whole Trading Book, entails both interest rate risk and currency risk) – in EUR '000

Limit		31.12.2007	Data for 2007		
			Average	Minimum	Maximum
VaR	3 000.0	1 100.42	508.06	175.86	1 212.45

Comparable data as at 31.12.2006

VaR (for the whole Trading Book, entails both interest rate risk and currency risk) – in EUR '000

Limit		31.12.2006	Data for 2006*		
			Average	Minimum	Maximum
VaR	3 000.0	237.78	359.85	135.53	1 237.61

* data for the period 09/02/2006 – 29/12/2006. Previous calculations (prior to 09/02/2006) were made separately for a position in currencies and an interest rate.

Interest rate risk

Interest rate risk reflects a degree of a hazard to the Bank's financial standing arising from adverse changes in market interest rates.

Additionally, the level of interest rate risk is monitored and limited (by establishment of limits) against BPV (basis point value – price sensitivity to parallel shifts in interest rates on the yield curve).

All above-mentioned limits concern the total Trading Book. The Trading Book Unit in the Cash Management Department managing the Trading Book is divided into two sections (with the primary term of instruments/transactions made at the interbank market as the basic division criterion): Short Term Desk and Long Term Desk. Internal VaR limits and stop-loss (maximum acceptable loss) restrict the activities of particular sections.

VaR for particular sections – in EUR '000

Limit		31.12.2007	Data for 2007		
			Average	Minimum	Maximum
Short term Desk	1 300.0	472.86	324.09	96.87	825.02
Long Term Desk	1 300.0	319.03	378.40	84.05	1 039.42

Comparable data as at 31.12.2006

VaR for particular sections – in EUR '000

		Limit	31.12.2006	Data for 2006		
				Average	Minimum	Maximum
Short term Desk	1 300.0		255.72	290.83	58.92	746.86
Long Term Desk	1 300.0		149.50	236.62	72.88	872.50

In addition, the analysis of the sensitivity of the total Trading Book position to interest rate risk is performed through the calculation of interest rate risk VaR (with the same parameters as Global VaR, i.e. the significance range of 99%, 10-day time horizon and 500-day observation horizon). Interest rate VaR values are as follows:

VaR for the Trading Book – interest rate risk – in EUR '000

	31.12.2007	Data for 2007		
		Average	Minimum	Maximum
Trading	514.91	495.95	137.07	1 263.95

Comparable data as at 31.12.2006

VaR for the Trading Book – interest rate risk – in EUR '000

	31.12.2006	Data for 2006		
		Average	Minimum	Maximum
Trading	306.95	338.08	130.69	1 201.74

The interest rate risk analysis is supplemented by stress-testing which is the amount of possible loss due to extremely adverse (critical) changes in interest rates.

Interest rate options

The Bank also offers interest rate options. The Bank does not maintain options portfolio for its own account, i.e. it does not pursue speculative activities. Options on the inter-bank market are options hedging the position resulting from transactions with customers. Therefore, the market risk in the portfolio of interest rate options does not exist.

Currency risk

Position in currencies

Exchange rate risk is a degree of the risk for the Bank's financial standing resulting from adverse changes in exchange rates on the market. This risk covers income on currency exchange operations and measurement of open position in currencies resulting from the difference between the value of

assets and liabilities in a given currency. The Bank's position in currencies is managed for the Trading Book and the Banking Book jointly. The Bank's position in currencies is managed in the Trading Book.

The daily analysis of the sensitivity of the total Trading Book position to currency risk is performed through the calculation of currency risk VaR (with the same parameters as Global VaR, i.e. the significance range of 99%, 10-day time horizon and 500-day observation horizon). Currency risk VaR values are as follows:

VaR for the Trading Book – currency risk – in EUR '000

	31.12.2007	Data for 2007		
		Average	Minimum	Maximum
Trading	810.23	118.93	2.57	864.57

Comparable data as at 31.12.2006

VaR for the Trading Book – currency risk – in EUR '000

	31.12.2006	Data for 2006		
		Average	Minimum	Maximum
Trading	103.03	102.99	25.33	352.65

In the event of the currency risk, 'value at risk' method is supplemented daily by stress-testing which is the amount of possible loss due to extremely adverse (critical) changes in exchange rates.

Currency options

The Bank also offers currency options. The Bank does not maintain options portfolio for its own account, i.e. it does not pursue speculative activities. Options on the inter-bank market are the options hedging the position resulting from transactions with customers. Therefore, the market risk in the portfolio of currency option transactions does not exist.

Below, we present the breakdown of balance sheet and off-balance sheet items by main currencies.

Consolidated Balance Sheet (as at 31.12.2007)

Capital market risk

The Bank does not operate on the stock market within the Trading Book.

Commodity price risk

The Bank is not active on the commodity market within the Trading Book.

Capital requirements

The capital requirements for the Trading Book as of 31.12.2006 and 31.12.2007 are as follows:

Capital requirements for the Trading Book (data in PLN '000')

		Comparable data
	31.12.2007	31.12.2006
Equity securities price risk	0	0
Specific risk of debt instruments	22	49
General interest rate risk	46 748	14 429
Settlement risk and counterparty risk	15 622	10 651
Currency risk (total for the Trading Book and the Banking Book)	4 476	0
Total capital requirement in the Trading Book	66 868	25 129

The increase in the value of capital requirements for the Trading Book results from the increase in the trading activity on interest rate derivatives in 1-2 years.

75.5. Banking Book

The Banking Book covers operations not covered by the trading portfolio, i.e. commercial activities of branches, credit intermediaries and the portfolios of securities hedging the liquidity and constant interest income.

Interest rate risk

The Bank actively manages the interest rate risk for 5 main currencies of the balance sheet: PLN, EUR, USD, CHF, GBP.

An interest rate gap prepared separately for each currency is the basic measurement and risk-limiting tool in the banking portfolio. The following risk metrics are calculated on that basis:

- sensitivity of the measurement of assets and liabilities (BPV);
- duration;
- accumulated gap ratios.

An analysis of the interest rate gap applied in the interest rate risk management of the Banking Book is based on information on particular items of the Bank's balance sheet as well as off-balance items sensitive to changes of interest rates. In the case of financial instruments without defined maturity date

(according to a stability analysis for each type of product), the Bank implemented the model of periodic deposits rollover. This approach towards products allows for effective management of risk associated with this type of instruments and for the generation of constant income from investments of these assets.

Stress-testing and VaR calculations are additional interest rate risk monitoring tools in the Banking Book.

Interest rate risk analysis

The interest rate risk analysis was conducted upon the following assumptions:

- a stable part of current accounts in PLN and of accounts in foreign currencies (EUR and USD) is cyclically invested for the period of:
 1. 8 years for PLN;
 2. 5 years for EUR;
 3. 2 years for USD.
- two stable portions are separated from savings accounts; the first portion is invested cyclically (monthly) for 6 months, and the second part is invested for 5 years (also monthly);
- unstable parts of current accounts in PLN, EUR and USD, and current accounts in other currencies are classified in the shortest term horizon;
- unstable parts of savings accounts are classified in the shortest term horizon;
- the methodology of including free capital has changed - although free capital approved for the whole year is still invested cyclically for the period of 10 years (with 1/120th of the free capital invested monthly), an excess or shortage compared to an actual amount of free capital is classified in the shortest term horizon, and the passive portion of the free capital portfolio is deemed as insensitive to changes in interest rates;
- benchmark is applied to non-working loans (40% - ON, 30% - 1M, 30% - 3M);
- loans are recognised in net terms;
- loans are presented according to repayment schedules;
- the gap report, apart from for nominal flows, also presents known future interest flows;
- each flow is divided proportionally into two parts which are classified in adjoining nodes of the curve;
- a cumulative gap is calculated from the longest to the shortest term periods.

The interest rate gaps diagrams for the position resulting from the operation of branches (including derivatives used as hedging instruments) based on an internal system of transfer rates are presented below.

Data as at 31.12.2007:

- PLN

The non-stable portion of current deposits and savings accounts as well as short-term customer deposits and received short-term interbank deposits create a gap in ON term range. A negative mismatch in TN-1W term ranges is generated by short-term fixed interest rate customer deposits and OIS's (SN and 1W term ranges). The positive gap in term ranges from 2W to 2M is a result of variable interest rate loans with 1- and 3-month repricing periods, and the positive gap in 8M term range is associated with granted FRA's. The gaps in term ranges from 10M to 10Y result from the mismatch between fixed interest rate bonds and financing deposits in benchmark portfolios of saving and current accounts.

- EUR

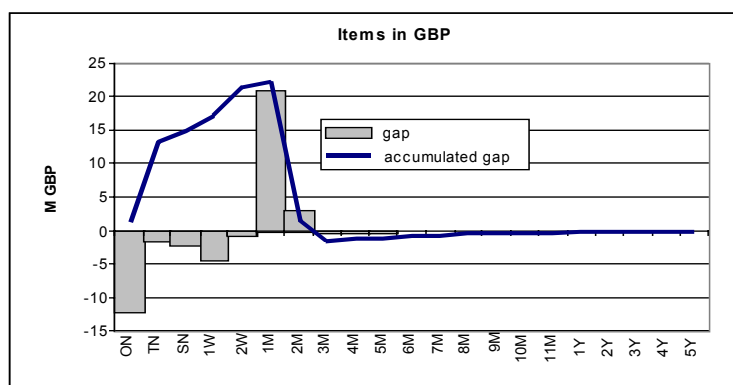

For EUR items, customer loans which generate a positive mismatch in 2W-2M term ranges and floating interest rate cash loans received from KBC Dublin matched to loans in terms of interest rate risk hedge, play a major role; the negative gap in 3M term range is related to them. The positive gap in SN term range is the result of granted swaps. The negative mismatch in TN and 1W term ranges is generated by fixed interest rate term customer deposits, and in ON term range – by a deposit taken over from the Trading Book and the unstable part of current and savings accounts.

- USD

As regards USD, fixed interest rate customer deposits are key items. In the diagram, they are shown as the negative mismatch in TN to 1Y term ranges. Positive gaps in ON, 2M and 4M term ranges result from swaps (2M) and deposits granted to the Trading Book (ON and 4M).

- CHF

Floating interest rate customer loans with 1- and 3-month repricing period constitute the main item in this currency. The positive mismatch in 1W to 4M term ranges is determined by the above-mentioned loans. This mismatch is closed by long-term cash loans from KBC (1W – 3M ranges), CIRS (TN – 3M ranges) and deposits received from the Trading Book (ON range).

-GBP

The negative gap in ON term range reflects current deposits and savings accounts which form the major item in this currency.

The negative mismatch in ON to 1M term ranges is created mainly by fixed interest rate customer term deposits. The positive gap in 1M and 2M term ranges results from granted swaps.

Comparable data as at 31.12.2006:

As 30.12.2006 fell on Sunday, the gaps for working days were presented, i.e. from the day directly preceding and the day directly following the last day of the year. Visible differences in the shapes of gaps between these days result from the repricing of the floating interest rate part of the item, which, for the major part of financial instruments, is performed on the first day of each month. The description of diagrams below presents data as at 2.01.2007:

- PLN

A gap for items in PLN shows the following mismatches: 5Y, 4Y and 7Y term ranges result from the mismatch in benchmark portfolios of saving and current accounts between bonds and financing deposits. The positive gap in term ranges from 2W to 3M is a result of the mismatch of volumes of floating interest rate loans and deposits. The gap is closed with OIS's, which is presented in the diagram as the negative gap in 1W term range. The negative mismatch in ON and SN term ranges is generated by the non-stable portion of current deposits and savings accounts as well as short-term customer deposits.

- EUR

The negative gap in 3M term range is characteristic for EUR; it results from floating interest rate cash loans received from KBC Dublin, which form a major item in this currency. The mismatch resulting from cash loans is balanced with floating interest rate customer loans and CIRS's, which is

demonstrated as the positive gap in SN-2M term ranges. And, the negative mismatch in TN-ON term ranges results from CIRS (TN range), and current accounts and savings accounts (ON range).

- USD

As regards USD, fixed interest rate customer deposits are key items; they determine the balance sheet and the shape of the gap in this currency, creating the negative mismatch in 2W to 1Y term ranges. Positive gaps in 2M and 5M term ranges result from swaps (2M range) and a deposit granted to the Trading Book (5M range). The gap resulting from deposits is closed with OIS's (the positive mismatch in ON term range).

- CHF

The positive gap in 1W and 1M-3M term ranges is the result of floating interest rate customer loans. The change of the gap from positive to negative in SN term range results from CIRS and from the receipt of a deposit from the Trading Book in TN term range.

The closing of the exposure in ON term range is affected by overdraft facilities and a deposit extended to the Trading Book.

-GBP

The negative mismatch is created by customer deposits, mainly with fixed interest rate, and current deposits in ON term range.

The gap in 1M-2M term ranges is positive due to CIRS.

The tables below illustrate the Bank's basis point value (BPV) accompanied with the parallel shift in interest rates by 10 b.p. up for particular currencies.

Data as at 31.12.2007

The total BPV for the Banking Book is presented below. It is calculated as total BPV for particular currencies and portfolios; contrary to the Bank's basis point value in breakdown into particular term ranges presented above, the 'liabilities' portion of the Free Capital portfolio is not taken into account. It results from the new BPV calculation methodology for limits and the assumption of the insensitivity of the 'liabilities' side of the Free Capital to changes in interest rates. (The rule is effective from 1 May

2007. Previously, global BPV for the Banking Book was calculated as the total value of absolute BPVs for particular portfolios, including the 'liabilities' side of the Free Capital).

75.6. Hedge accounting

Fair value hedging accounting

As at 31.12.2007, the Bank continued to apply hedge accounting for fair value hedge for asset swaps. The purpose of hedge accounting is to hedge fixed interest rate bonds with IRS, on which the Bank pays a fixed interest rate and receives a floating interest rate.

Hedge accounting of cash flows

As at 31.12.2007, the Bank continued to apply hedge accounting of cash flows for asset swaps which consists in hedging cash flows resulting from floating interest rate bonds (which involves the conclusion of IRS in which the Bank receives fixed and pays floating interest flows).

As at 31.12.2007, the Bank continued to apply hedge accounting also as regards the part of the loans portfolio based on O/N rate. The hedge consists in creating swap structure composed of a revolving OIS (the Bank pays cash flow based on O/N rate) and a standard IRS in which the Bank pays cash flow based on a floating interest rate adjusted to OIS maturity date and receives fixed interest flows. The hedged risk in this case is an interest rate risk resulting from a change of short-term interest rates.

In the second half of 2007, the Bank began to apply hedge accounting for the portion of mortgage loans based on 3M WIBOR, which involves the conclusion of IRS in which the Bank receives fixed and pays floating interest flows. Interest rate risk resulting from a change of 3-month interest rate is the hedged risk in this case.

75.7. Currency risk

As mentioned above, the position in currencies is managed in the Trading Book. The positions related to the Bank's customers' transactions arising during the day are transferred, via internal transactions, to the Trading Book.

It should be noted here that the currency risk at Kredyt Bank is perceived not only as the risk occurring for an open position in currencies, but also as the risk of a change in the value of certain products as a result of changes in exchange rates. In particular, this risk occurs in the case of loans extended in foreign currencies. In order to mitigate credit risk, increasing in the case of the growth in the exchange rate of the loan currency (this also refers to loans granted in PLN, with its value indexed to the foreign currency exchange rate), the loans agreements for institutional customers contain clauses on the

establishment of additional collateral or permit to translate the loan, when the customer does not generate income in the loan currency. Additionally, in order to hedge the exchange rate risk the customer is exposed to, derivatives (forwards, options) are offered to him.

In order to mitigate the currency risk on granting mortgages in a foreign currency to individual customers, the Bank, analysing the creditworthiness:

- a) determines the value of the highest monthly interest and principal repayment instalment for the applied loan with the assumption that the principal of the applied loan is 20% higher,
- b) the Bank calculates the maximum level of LtV (Loan To Value) ratio on a lower level than for loans in PLN (LtV ratio should be understood as the loan value/collateral value ratio);
- c) additionally, the applicant is informed about the foreign exchange risk.

75.8. Liquidity risk

The liquidity risk is strictly associated with activities of any bank. It results, among other things, from the mismatch of assets and liabilities in terms of maturity dates what is a natural effect of varied customers' requirements as regards deposits and loans. Maintenance of financial liquidity, understood as the ability to timely meet financial liabilities, is the crucial element of the policy on assets and liabilities management applied by the Bank. The current liquidity is maintained through correcting the surplus or shortage of liquid cash by operations conducted on the interbank money market. The Bank's safety calls for the maintenance of liquid reserves as well as the term and quality structure of the whole balance sheet. Decisions related to liquidity risk management are made by the Bank's Assets and Liabilities Management Committee. The Risk Management Department measures and monitors strategic (long-term) liquidity.

The Bank hedges the liquidity risk by:

- maintenance of an appropriate level of cash, taking into account volume of statutory provisions;
- possession of a proper volume of portfolios of liquid securities (governmental bonds);
- performing transactions on derivatives;
- maintenance of a diversified portfolio of deposits as regards terms and customers;
- access to the interbank market and open market transactions;
- access to the lombard loan.

Support of KBC Group, the strategic investor, is a crucial factor affecting the safety of the Bank operations.

An analysis of the Bank's liquidity is performed mainly on the basis of the liquidity gap report and the assessment of the deposit base stability by, among others, monitoring the mismatch of the maturity dates of assets and liabilities, what makes it possible to forecast the demand for liquid assets and avoid excessive concentration of cash disbursements on a close date.

Amounts due to customers as at 31.12.2007 – contractual flows (interest flows according to FSA methodology are recognized up to 6 months); the stable part of savings and current accounts is recognized according to benchmark method.

In 2007, as compared to 2006, changes occurred in the structure of the Bank's financial liabilities. The major changes in the liabilities structure are as follows:

- an increase in the balance of deposits and interbank deposits with maturity dates up to one month (by PLN 1476 million and PLN 1271 million respectively);
- the total amount of perpetual bonds and cash loans with maturity dates over 2 years increased by PLN 1774 million;
- in 2007, the Bank also increased its activeness on the interest rate derivatives market.

To facilitate the liquidity monitoring risk, the Bank applies the following liquidity limits:

- Stock Liquidity Ratio (SLR) – short-term liquidity ratio (up to 5 working days);
- Liquidity Mismatch Ratio (LMR) – liquidity ratio (up to 1 month);
- Coverage Ratio (CR) – strategic liquidity ratio which informs about a degree of financing long-term assets with long-term liabilities (2, 3 and 5 years).

The Bank continues works on the methodology of making a liquidity gap report real. The process of making the gap real is aimed at presenting a true picture of liquidity; the Bank models customers' behaviour (the quantity of revolving term deposits, amounts of extended but still undrawn loans) and takes into account results of those analyses in the picture of the Bank's liquidity.

The stability of the deposits base

A stable deposit base, not affected by seasonal phenomena, is the basic source of the Bank's financing.

The diversification of the deposit base allows for the Bank's clear independence of any specific market segment, customer group or specific deposit type.

	31.12.2007	Comparable data 31.12.2006
- individual customers	51.5%	55.1%

1 Factors affecting the results of Kredyt Bank S.A. Capital Group in 2007

In 2007, Kredyt Bank S.A. Capital Group generated its record high profit before tax of PLN 501,957 thousand. It was higher by 9.0% than profit before tax generated in the previous year. Net profit amounted to PLN 390,539 thousand. The result allowed for generating ROE of 17.9% and ROA of 1.6%.

The deduction of income tax of PLN 111,418 thousand from the result for 2007 (contrary to the addition of PLN 7,495 thousand to the net result for 2006) was the most vital event which affected the comparison of this year's financial result with the previous year's figures. The absence in 2007 of single transactions comparable to the sale of receivables from Kredyt Bank S.A. portfolio and Żagiel S.A. portfolio in June 2006 was another significant difference. The profit from the transaction affecting consolidated net profit amounted to PLN 135,019 thousand (and PLN 149,662 thousand in the case of profit before tax).

Selected factors and financial figures	31.12.2007	31.12.2006	31.12.2005	31.12.2004
Profit before tax	501 957	460 595	321 368	178 774
Net profit	390 539	468 090	415 878	156 840
ROE	17.9%	24.8%	26.0%	14.5%
ROA	1.6%	2.2%	2.0%	0.7%
CIR	67.4%	67.9%	73.0%	76.5%
Capital adequacy ratio	9.7%	13.7%	16.4%	14.7%
Loans and advances with individual evidence for impairment/total gross loans and advances	6.6%	13.5%	28.9%	30.2%

The most essential factors which affected the financial result for 2007 include:

- An increase in the sale of loan products, particularly mortgages, consumer loans and corporate customer loans. As compared to the end of 2006, net loans and advances to customers increased by 43.8%, i.e. by PLN 5,065.5 million, and by 71.3%, i.e. by PLN 6,919.8 million as compared to the end of 2005.
- Improved acquisition of customers' financial resources. Total amounts due to customers increased as compared to the end of 2006 by 8.1%, and by 17.6% as compared to the end of 2005.
- A significantly higher net profit from banking activities (understood as total operating income less net income from sale of receivables and other operating income) as compared to 2006. The increase by 13.3% was possible due to an increase in net interest income, an increase in net fee and commission income and an increase in net trading income.

- Strict spending discipline regarding the Group's operating expenses combined with the implementation of the plan regarding the expansion of the network of outlets of Kredyt Bank S.A. and Żagiel S.A.
- Restructuring and debt recovery measures which in 2007 allowed the Group to achieve a positive balance of net impairment losses on financial assets, other assets and provisions of PLN 30,069 thousand. Measures aimed at the reduction of non-performing loans portfolio allowed for further improvement of the quality of the loan portfolio measured with the share of loans and advances with individual evidence for impairment in total gross loan and advances. At the end of 2007, the ratio amounted to 6.6%, as compared to 13.5% as at the end of 2006 and 28.9% as at the end of 2005.

The year 2007 was a period of the augmentation of positive trends observed for sales in 2006, both in the 'assets' and 'liabilities' parts of the balance sheet. It made it possible to stabilize and, in certain cases, increase the market shares.

Cost/income ratio (CIR) in 2007 was equal to 67.4% - 0.5 p.p. less than in 2006 and 5.6 p.p. less than in 2005. Further improvement of the effectiveness of the Group's operation will become one of the most crucial financial goals in 2008 and further on.

Organic growth is the basic method of the implementation of the strategic objectives of Kredyt Bank S.A. Capital Group. In this context, the most important factors and events affecting the operation of the Group in 2007 include:

- Organisational separation and further development of the consumer finance segment, including, particularly, the reorganisation and expansion of the distribution network of Żagiel S.A.
- Closer cooperation within KBC Group in Poland, primarily in the area of bancassurance in collaboration with WARTA S.A., and in the area of the sale of shares in investment funds in cooperation with KBC TFI.
- Further expansion of the sale network of Kredyt Bank S.A. ("Programme 120"). As at the end of 2007, the Bank operated 62 outlets launched under this programme.
- Ensuring the financing of the further development of lending activities through the access to the resources of KBC Bank NV, i.e. the major shareholder of Kredyt Bank S.A.

2 Business conditions in Poland and banking sector in 2007

Overall economic conditions in Poland in 2007

In many respects, we witnessed an extremely good year in Polish economy. In 2007, Polish economy recorded the fastest economic growth in ten years which was driven by increasing, at a record pace, investments and the permanent recovery of consumer demand. The fast growth resulted in stable demand for labour reflected in the fast-growing number of new jobs and ensuing fast-growing employment despite increasing difficulty in recruiting and retaining employees. In this context, one

should not be surprised by a record-fast decline in the unemployment rate which, at the end of the year, decreased to 11.2% that was the lowest level since the onset of the economic transformation period, and the fact that the shortage of labour force in the year became one of the most critical problems faced by Polish companies on a daily basis. Nevertheless, following the period of continuous acceleration of an economic growth rate since the beginning of 2005, in the most recent three quarters of the previous year, the growth in the Polish economy slowed down slightly. Available data show that, in the last quarter, the economic growth rate declined to ca. 6.1% y/y and, although it was still higher than the potential level, i.e. which does not generate the inflationary pressures, it was substantially lower than record-breaking 7.2% y/y recorded in the first three months of the year. However, the growth structure remains relatively secure. The increasing share of investments in GDP and only moderate contribution of private consumption to the growth are the main issues we can be satisfied with. At the same time, increased demand for import (both consumer and investment import) results in the situation when, for a year now, we have continued to observe the negative contribution of net exports to the growth. However, in the last months of the year, trade deficit grew slower than expected, mainly due to the sustained and a relatively high growth rate for export. As a result, the negative contribution of net export to the growth was more limited in the last quarter than expected.

The increase in the GDP annual growth rate in the previous year was affected mainly by a surprisingly strong increase in capital expenditure, supported by ever-increasing aid from the European Union, a relatively non-restrictive monetary policy of the central bank and lenient lending policy of commercial banks. The continued recovery of the investment activities was also positively affected by a high level of the use of the production capacities of Polish companies and the stable and good financial standing of Polish enterprises.

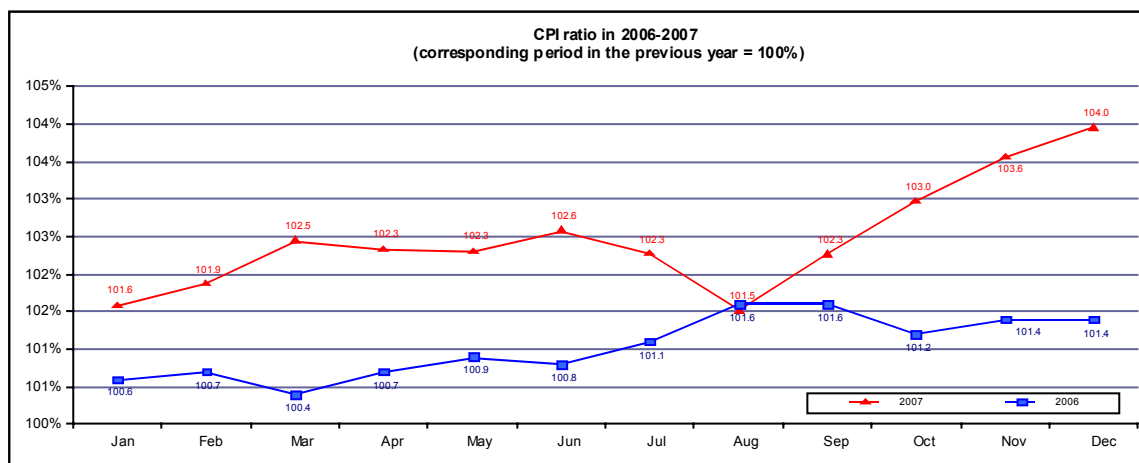

From the point of view of perspectives for inflation and, as a result, in the context of the monetary policy pursued by the NBP, only a moderate increase in domestic consumption was a positive surprise. Throughout the year, its growth was slower than the GDP growth. The decline of the consumption growth rate to 3.6% y/y in the fourth quarter of the previous year proved to be surprisingly serious, however, we believe that a further decrease in the consumption growth rate is not very probable. It is evidenced mainly by an extremely good labour market situation, advantageous changes in personal income tax, the planned indexation of pensions and disability allowances and substantial financial resources coming in, on a regular basis, from Poles working abroad.

The major factors having positive impact upon the macroeconomic environment are as follows:

- a fast increase in internal demand;
- an increasing share of investments in GDP;
- further improvement of the labour market;
- growing absorption of EU funds;
- steady and high financial profitability of enterprises;
- exceptionally successful implementation of the State and local governments' budgets (the deficit on the level almost doubly lower than assumed for 2007 and a significant surplus of resources in the budgets of local government units);
- the continuing and relatively stable international investment position of Poland, achieved due to the substantial growth of export and the inflow of financial aid from the EU as well as the

increasing inflow of direct foreign investments and financial resources coming in from Poles working abroad;

Throughout 2007 consumer prices growth was stronger than in previous years (on a year-to-year basis), which resulted directly from the increase in prices on the global fuels market and in food prices. The increase in the inflation rate, although quite substantial towards the end of the year, was a result,

first of all, of all demand-related factors, and the substantial economic growth throughout the year did not result in greater pressure on the price increase. The inflation rate calculated on a year-to-year basis since November is over the upper limit of the approved fluctuations scale around the inflation target determined by the National Bank of Poland (2.5% y/y; +/- 1 p.p.). At the end of 2007, the inflation rate measured with CPI ratio amounted to 4.0% y/y and was the highest within three years.

The following factors are listed among the worrying macroeconomic tendencies and negative phenomena:

uncertain fate of the long-promised public finances reform, increasing inflation and possible second-round effects (price/wage spiral), and the risk of worse prospects for the fiscal policy (particularly in the case of local government units).

The increased share of investments in GDP is the key problem and, at the same time, the main threat for the fast medium-term economic growth. Effective use of the EU financial aid, both under the already closed allocation for the years 2004-2006 and the new budget perspective for the years 2007-2013, will be of particular importance in this respect. In the context of the deteriorating situation on the labour market, the issue of the persistent record-low level of Poles' working activeness, which has been unsolved for years, seems to be equally vital.

Monetary policy of the National Bank of Poland (NBP) in 2007

In 2007, the Monetary Policy Council increased basic interest rates four times (by the total of 100 b.p.) and, by doing this, for the first time in almost three years, launched the cycle of tightening monetary policy. This was an anticipating measure and, in its first phase, was a response to the balance of risks for future inflation deteriorating mainly due to the permanent improvement of the situation on the labour market and the ensuing faster growth rate of unit labour costs in the economy. The unexpectedly strong growth of current inflation did not result directly in the continuation of the cycle in recent months, however, in the context of the increasing price pressure and the escalation of wages-

related demand (also in the governmental sector), mitigating the risk of second-round effects was the goal of the increases in the last phase of the cycle.

At the end of 2007, the basic interest rates of the central bank were as follows:

- reference rate - 5.0% p.a.;
- lombard rate - 6.5% p.a.;
- rediscount rate - 5.25% p.a.;
- NBP deposit rate - 3.5% p.a.

Despite the confusion on global financial markets resulting from the crisis on the American mortgage market, throughout the major part of the year, the Polish zloty appreciated both against euro and the US dollar which depreciated against major currencies. The fact that the limitation of the global appetite for risk did not result in the greater sale on the internal foreign exchange market implies that Poland is no longer treated by investors as an emerging market, but as a relatively safe place for investments of financial resources. Over the year, the Polish currency was supported by solid macro-economic foundations, including the safe current account deficit and the exceptionally strong and sustainable economic growth as well as increasing interest rates. At the end of December 2007, the exchange rates were as follows: PLN 3.5820 per 1 EUR and PLN 2.4350 per 1 USD.

The outlook for the Polish economy in 2008

The internal demand, both domestic consumption and increasing investments will remain the main drivers of the economic growth in 2008. In this situation and also in view of the risk of more substantial slowdown of the economic growth of Poland's main trading partners, the negative contribution of net export to the growth will gradually increase in the quarters to come.

The solid, although less dynamic than in the record 2007, growth in internal demand will result both from good individual consumption levels and the maintenance of large-scale investment activeness in the economy. Favourable trends on the labour market, including a further (although slower than in 2007) increase in employment and persisting wage pressure, both in the sector of enterprises and in the governmental sector, will be the main drivers for the maintenance of high consumption levels. On the other hand, the sound double-digit investment growth rate should be supported by both solid consumption demand (at home and abroad), a record high level of free financial resources of Polish enterprises and relatively low costs of loans as well as more effective use of the EU's aid pledged by subsequent governments.

The substantial increase in salaries and wages, both in the sector of enterprises and outside of it, has not been accompanied for a long time by a sufficiently strong increase in labour productivity. It seems that the pressure on the growth of salaries and wages on a similar scale will continue also in further quarters, which, having regard for slightly worse economic conditions, will translate into a further increase in inflationary pressure. Assuming the stabilisation of the situation on the food and fuels markets, the inflation rate towards the end of the year should, however, return to the limits of the approved fluctuations scale around the inflation target of the NBP, i.e. 2.5% y/y +/- 1 p.p. The wage pressure will be reflected in the increase in the base inflation.

In 2008, the PLN exchange rate should remain strong due to fundamental factors. The current account deficit, although may increase along with the greater instability of commodities trade, will be more than compensated for by the inflow of direct foreign investments. The increase in GDP will be slightly halted, however the economy will continue to grow at a solid rate, and the inflation rate, despite the periodical increase in the first half of the year, will remain under control. Furthermore, the external environment will positively affect the stable, although less rapid, appreciation of the Polish zloty. Further expected decreases in interest rates in the USA and probable cuts in the cost of money in the Eurozone will result not only in increased spread between interest rates in Poland and on the underlying markets, but also, on a long-term basis, should translate into a gradual return of risk appetite to global markets, which will positively affect the inflow of foreign speculative capital to Poland.

Banking sector in 2007

In terms of generated financial results¹, the year 2007 was a record period for the banking market. Upward trends shaped by the strong internal demand (both consumption and investment demand) and positive changes on the labour market (increased employment and greater purchasing power of

¹ According to the preliminary data of the Polish Financial Supervision Authority (KNF), in 2007, the commercial banks sector generated net profit of PLN 13.1 billion. It was higher than net profit in the previous year by 28.1%. ROE at the end of 2007 amounted to 25.7% against 23.1% recorded in the previous year. The share of non-performing loans in the loans portfolio decreased to 5.4% from 7.6% recorded in December 2006.

wages) affected the fast increase in total money resources², deposits and receivables. At the same time, they made it possible to generate results which placed the banking sector among the most profitable industries of the Polish economy. Unfavourable trends have also been disclosed in banks' results, which are visible on a quarter-by-quarter basis. Data for the fourth quarter clearly demonstrated a slowdown in net operating income (especially of the flow of commissions depending on the exposure to equity markets) combined with the increase in operating expenses which rose faster than income³.

As in the previous year, the expansion to the household loans market was the main sign of very good business conditions. In the first half of 2007, an average monthly increase in volumes of receivables amounted to 2.8% (against 2.3% in the previous year). It was generated mainly due to record-high results of the sale of mortgages (152 thousand loan agreements for the total amount of ca. PLN 27 billion). In the second half of the year, loan volumes continued to grow, yet this growth rate was

slower⁴. An average monthly increase in receivables volumes added up to 2.6%. At the end of the year, mortgages accounted for over 45% of household debts in banks. In 2007, the banks also recorded a strong increase in the activeness on the consumer finance market which depends on steady demand for durable goods and improved economic situation of customers. At the end of 2007, the annual growth rate for consumer loans exceeded 29%.

Favourable conditions in the real-term area affected the development of the market of loans for institutional customers. In 2007, companies' demand for the financing of operations increased substantially. As compared to the end of 2006, the debt of business entities in the banking sector increased by 24%. The more lenient lending policy towards enterprises contributed to the increase in the value of loans extended by banks.

A very good business situation and highly optimistic forecasts stimulated consumer demand and tendency to take risks. The bull market at the Warsaw Stock Exchange in the first half of the year attracted capitals to investment funds. As a result, it contributed to the material increase in financial assets of households. Despite the crash of the upward trend in the fourth quarter, the significance of investment funds societies for the process of determining the level and structure of customers' savings is on the rise. Net assets in funds increased during the year by almost 35%, while the value of financial resources deposited in bank accounts by only 14%. However, the situation in the last months of the year remembered both customers and banks about negative aspects of the disparity of both dynamics, continuing for yet another year. The first of them is the growing sensitivity of financial assets of households to the fluctuations of prices on financial markets. The other one, important for banks, is their assets financing structure. The fast increase in loans made it possible to improve current net profit from core business and the quality of loan portfolios. At the same time, an increase in the exposure to credit risk combined with the growth rate of lending activities exceeding the growth rate for equity and deposits, contributed to the decrease in capital adequacy ratios and liquidity ratios.

² M3 money supply at the end of 2007 was higher by 13.1% than the level recorded at the end of 2006. Receivables from households and business entities increased in this period by nearly 30%.

³ As a result, in 2007, the cost/income ratio improved on a year-to-year basis (CIR '07 = 54.6% vs CIR '06 = 57.4%), but deteriorated on a quarter-to-quarter basis.

⁴ The effects of the disturbances on the global financial markets were visible in Poland in 2007 only as price declines at the Warsaw Stock Exchange. Declining indices and banks' valuations did not result from the loss of trust towards the banking sector in Poland, but from the fear of depreciation of equity invested in shares and investment funds.

Due to the good financial situation of banks, no systemic risk of disturbing the financial stability of the sector was recorded in the period.

Despite the growing demand for the financing of companies' investments, deposits of corporate customers were an important source of external funds for the banking sector in 2007. At the end of the year, the growth rate for amounts due from banks to business entities reached 16% (y/y). It was a derivative of very good business conditions and of very good results of the sector of enterprises.

The favourable macro-economic situation in 2007 positively affected the banks' strategies of proactive customer canvassing processes (mainly from the retail sector) as well as the diversification of income sources through the intermediation in the sale of non-banking financial services. Apart from products of investment funds societies, the scale of and return on sale of insurance products through banking distribution channels grew. Mortgage loans insurance was the main growth-driving factor.

In response to the growing demand in the context of advantageous business conditions, the leading banks in the sector proceeded to further expand their distribution networks. First of all, the banks expanded the networks of own branches, but, in a few cases, they also developed networks of partner outlets (franchises). The network of external financial intermediaries specializing in the sale of consumer finance products was another fast-growing distribution channel. The increase in the significance of financial intermediaries was mainly recorded for the loan market⁵.

The business conditions on the market of financial services in 2007 had a positive impact on the operations of Kredyt Bank S.A. Capital Group. Advantageous conditions were created to implement bancassurance development plans and network expansion programmes. As a result, the selling potential of the Bank and the opportunities of reconstructing its market shares increased. The successive increase in business volumes and the improvement of the quality of the loans portfolio were reflected in increased recurrent income generated in successive quarters.

3 The strategy of Kredyt Bank S.A. Capital Group

The Group's main strategic objective is to increase the number of its customers and the share in the banking services market in Poland. The chief assumption is to improve the effectiveness of operations and generated returns without an increase in the operating risk. Having regard for the high cost of the external growth in Poland, Kredyt Bank S.A. Capital Group prefers the business model which involves organic growth. However, it does not mean that the internal growth will not be supplemented by acquisitions of entities from the financial sector.

The Group's strategic goals:

In Retail Segment:

- cross-sale of banking and insurance products addressed to the present customers of Kredyt Bank S.A. Group and WARTA S.A. Group;
- focusing on mass and upper mass customers;
- increased share in the market, including consumer loans market.

⁵ According to the Gdańsk Institute for Market Economics (IBnGR), financial brokers intermediate in the sale of 30-35% of loans.

In Corporate Segment:

- focus on services to medium-sized companies, including customers of other KBC Group members operating in Poland;
- focus on the increase in customer relations efficiency.

In terms of financial standing (objectives for the whole KBC Group):

- a medium-term goal entails the achievement of ROE at the level of 18.5%;
- a medium-term goal entails the achievement of cost/income ratio at the level of 55%.

Methods of the goals accomplishment:

- close cooperation with entities of KBC Group in Poland to provide the customers with complete, professional and modern offer of financial services with limited costs of its development;
- further implementation of the bancassurance model in cooperation with WARTA S.A. Group on the basis of the major shareholder's experience, and cooperation regarding the distribution of banking and insurance products;
- in terms of retail loan products, focusing on the sale of mortgages, consumer loans and credit cards;
- in terms of the acquisition of financial resources of retail customers, a change from the product-oriented approach to the portfolio-oriented approach which will facilitate easy and flexible customers' access to various investment options;
- separation and development of the business line dedicated to lower-income customers;
- in the corporate segment, focusing on the development of the sale of products supplementing the traditional loan and deposit offer, such as: cash management, trade financing, market risk management instruments and leasing;
- increasing network effectiveness and its expansion (the final implementation of the plan to create 120 new outlets that was launched in 2006), opening alternative distribution channels, high quality of services and customer satisfaction;
- improving the effectiveness of the main customer service processes and the implementation of integrated IT solutions in this area.

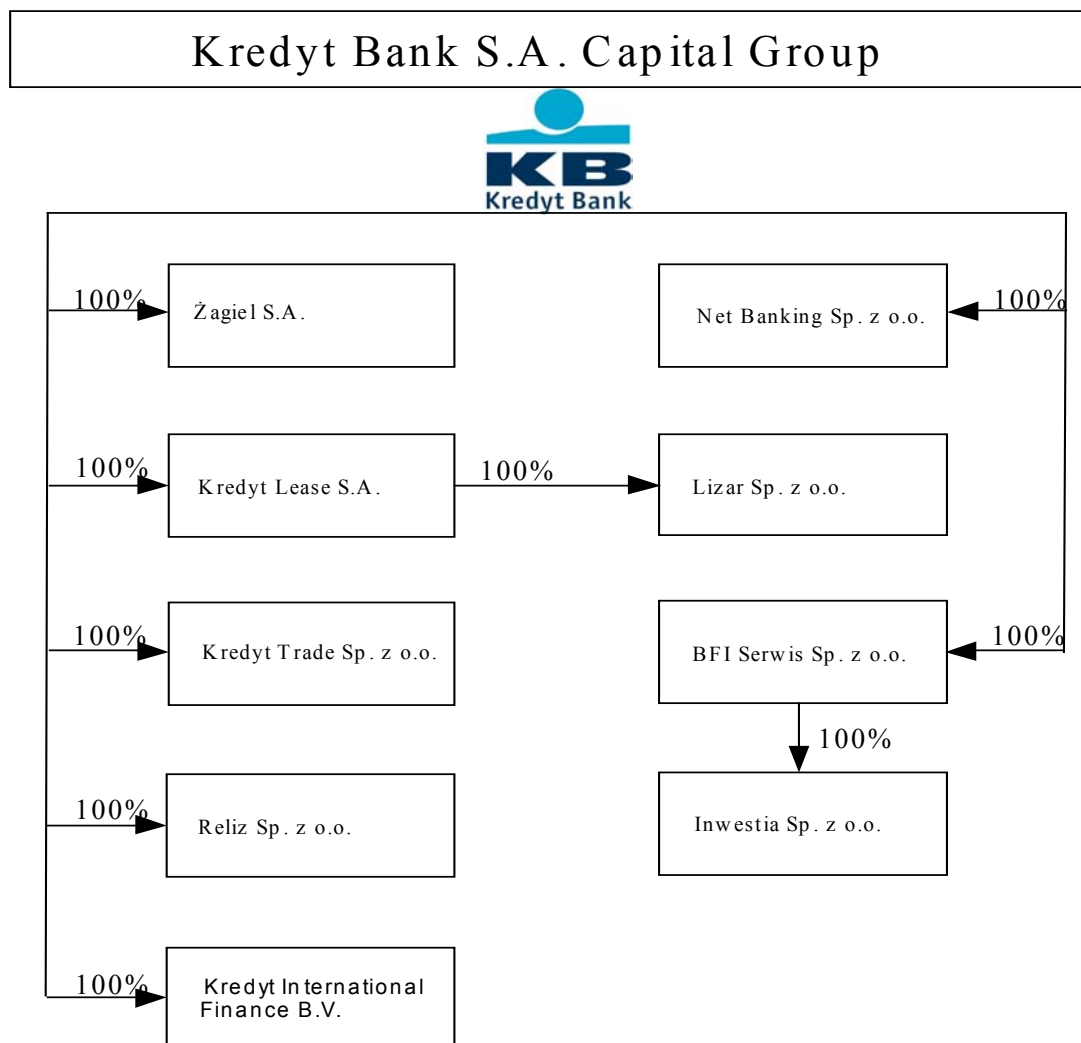

4 The structure and description of Kredyt Bank S.A. Capital Group

4.1 The Group structure, investment plans, related party transactions

Kredyt Bank S.A. Capital Group is composed of legally separated business entities, whose operations are closely coordinated. The capital relations linking the Group, defining the nature of the relationship,

are strengthened by business relations, contracts, the joint product offer, controlling functions performed by the Bank over the companies' operating and financial policies as well as the transfer of management staff and know-how.

The Group's companies and ownership structure as at 31.12.2007 was as follows:

Due to the immaterial impact of financial statements of BFI Serwis Sp. z o.o., Net Banking Sp. z o.o., Lizar Sp. z o.o. and Inwestia Sp. z o.o. on the consolidated financial statements, shares in these companies are presented as available-for-sale financial assets. No changes occurred in the Group's organization as compared to the situation as of 31.12.2006.

Investment plans, including equity investments

One of the basic objectives of the Group's strategy is to increase its share in the Polish financial services market. Equity investments in entities of the financial sector create hypothetical opportunities for the accomplishment of such goals. In each such potential case, undertaken measures are lawful and analysed in terms of economic and organizational conditions. According to the Group's

development strategy which provides for the development of a universal banking and insurance group, the Bank will focus on operations other than investment banking.

As at 31.12.2007, equity investments made outside the Group were mainly investments in shares of such companies as KIR S.A., BIK S.A., G.P.W. S.A., SWIFT and of companies acquired in the course of debt recovery and restructuring processes. As at 31.12.2006, their share in the Group's balance sheet was immaterial. A detailed list of equity investments in subsidiaries, associates and entities valued with the equity method is presented in item 6 and Note 37 to the consolidated financial statements of Kredyt Bank Capital Group for 2007.

Related party transactions

On 05.09.2007 and 28.09.2007, Kredyt Bank S.A. entered into two multicurrency loan agreements with KBC Bank NV Dublin Branch, up to the amount equivalent to EUR 250 million each. Both loan agreements were concluded on market terms with the 5-year maturity. In 2007, no other significant transactions had place with related parties whose total value, in the period from the beginning of the financial year, would be equal to or exceed PLN equivalent of EUR 500 thousand, and whose nature and terms were not related to current operations.

Related parties with which the Group concludes transactions are the Group's associates, the companies of KBC Group, persons managing the Group and other related parties.

Related party transactions are standard banking operations, provided at arm's length: granting loans, issuing bank guarantees, issuing own securities, accepting deposits, borrowing loans, currency transactions, transactions in derivatives. Transactions volumes and related income and expenses are presented in Note 59 to the consolidated financial statements of Kredyt Bank Capital Group for 2007.

4.2 Shareholding structure of the Group's parent company

As at 31.12.2007, the Bank's share capital totalled PLN 1,358,294,400 and was divided into 271,658,880 shares with the nominal value of PLN 5.00 each. The Bank's shares are registered shares and bearer shares; they are not preference shares and each share entitles its holder to one vote at the Bank's General Meeting of Shareholders. All Bank's shares are admitted to public trading. In comparison with share capital as at 31.12.2006, the Bank's share capital did not change.

The Bank's Management Board is not aware of any contracts under which the proportion of shares held by existing shareholders and bondholders may change in the future.

The table below presents Shareholders of Kredyt Bank S.A. holding over 5% of total votes at the General Meeting of Shareholders of Kredyt Bank S.A. as at 31.12.2007.

Shareholder	Line of business	Number of shares and votes at GMS	Share in votes and in share capital (in %)
KBC Bank N.V.	Banking	217 327 103	80.00
Sofina S.A.	Investment company	15 014 772	5.53

The shareholding structure has changed as compared to the structure as at 31.12.2006 presented in the Group's annual financial report for 2006.

On 27.04.2007, Kredyt Bank S.A. was informed by KBC Bank NV that, on 24.04.2007, KBC Securities NV, a wholly-owned subsidiary of KBC Bank NV, had purchased 7,690,966 shares of Kredyt Bank S.A. in a block transaction.

As the Bank was informed by KBC Bank NV, both companies jointly, i.e. KBC Bank NV and KBC Securities NV, are entitled to exercise up to 75% of votes at the General Meeting of Shareholders of Kredyt Bank S.A., i.e. KBC Bank NV and KBC Securities NV jointly may exercise 203,744,160 votes at the General Meeting of Shareholders of Kredyt Bank S.A.

On 18 December 2007, the Management Board of Kredyt Bank S.A. was informed by Pioneer Pekao Investment Management S.A. ('PPIM' based in Warsaw) that, on 17 December 2007, PPIM held over 5% of total votes at the General Meeting of Shareholders of Kredyt Bank S.A. concerning the financial instruments included in the portfolios managed within the services of managing broker-traded financial instruments upon order provided by PPIM and in performance of the agreement on the management of broker-traded financial instruments upon order, concluded between Pioneer Pekao Towarzystwo Funduszy Inwestycyjnych SA and PPIM.

PPIM notified, on behalf of the funds it managed, of the increase in the share of the said funds to 5.001% of total votes at the General Meeting of Shareholders of Kredyt Bank S.A. (the said investment funds are shareholders which jointly hold the above-mentioned number of votes at the General Meeting of Shareholders. Portfolios of investment funds are a sub-group of all portfolios of PPIM's Customers.)

Total share of PPIM amounts to 13,674,064 shares of Kredyt Bank S.A. which account for 5.03% of total votes and share capital of Kredyt Bank S.A. (All Customers of Pioneer Pekao Investment Management S.A., related to portfolios managed by PPIM, are shareholders who jointly hold the above-mentioned number of votes at the General Meeting of Shareholders).

Share prices of Kredyt Bank S.A. at the Warsaw Stock Exchange

In 2007, the share price of KB S.A. increased by 17%. The securities were valued relatively higher than the market price. WIG annual change amounted to +10.4%, +5.2% for WIG-20, and +12.2% for WIG-Banks sector index. From the perspective of 2007, it can be noticed that, apart from the improved financial standing of Kredyt Bank S.A. and an overall increase in the interest in the financial services industry, the business conditions and trends affecting investment decisions were key factors for the valuation of KB S.A.'s shares. Last year, we witnessed a crisis following a few-years' period of excellent business conditions. In the first half of the year, we faced fast growth of share prices driven by the good situation on emerging markets and the inflow of resources to investment funds societies. High demand resulted in a significant revaluation of securities. In the second half of the year, a downward trend for all stock exchange indices was predominant. The crisis on the US sub-prime mortgages market which resulted in decreased credit ratings and liquidity of multiple global financial institutions was a hint to reduce prices at the Warsaw Stock Exchange.

The Bank's market value at the closing price of the last stock exchange session in 2007 amounted to PLN 6,383.98 million (3% of the market value of the Banks sector⁶), and P/BV ratio was at the level of 2.80. For comparison purposes, at the first session in 2007, the Bank's shares were valued at the total of PLN 5,759.17 million, at P/BV of 2.75. The annual maximum for 2007 for the closing price amounted to PLN 28, and the annual minimum – to PLN 19.65.

	29.12.2006	28.12.2007	Change (%)
KB S.A. share price (PLN)	20.09	23.50	17.0%
Dividend rate	1.1%	1.6%	0.5 p.p.
WIG 20	3 285	3 456	5.2%
WIG	50 412	55 649	10.4%
Earnings per share* (in PLN)	1.72	1.44	-16.3%
Book value per share* (in PLN)	7.70	8.38	8.8%

4.3 The authorities of the Group's parent company

The Bank's Management Board manages the Bank's affairs and represents it vis-a-vis third parties. The Management Board's President is appointed and dismissed by the Supervisory Board. The Management Board's Vice Presidents and Members are appointed and dismissed by the Supervisory Board upon the request or with the consent of the Management Board's President, having regard for the requirements stipulated in the Banking Law.

On 6 April 2007, Mr. Konrad Kozik, the Vice President of the Management Board of Kredyt Bank S.A., resigned from his position of the Vice President of the Management Board of Kredyt Bank S.A. and from the membership in the Management Board of Kredyt Bank S.A. as of 27 April 2007.

⁶ Excluding the market value of shares of 2 foreign banks – BACA and Unicredit – listed on the Warsaw Stock Exchange, which do not operate directly on the Polish market.

On 18 April 2007, at the session of the Bank's Supervisory Board, Mr. Bohdan Mierzwiński, the Vice President of the Management Board of Kredyt Bank S.A., was dismissed from his position of the Vice President of the Management Board of Kredyt Bank S.A. and from the membership in the Management Board of Kredyt Bank S.A. as of 18 April 2007.

At the meeting on 5 June 2007, the Supervisory Board of Kredyt Bank S.A. appointed, as of 1 July 2007, Mr. Andrzej Witkowski, the Chairman of the Supervisory Board, to be a temporary member of the Management Board of Kredyt Bank S.A.

The period for which Mr. Andrzej Witkowski, the Chairman of the Supervisory Board of Kredyt Bank S.A. was delegated to perform the function of a Member of the Management Board of Kredyt Bank S.A. expired on 30 September 2007. As a result, the Supervisory Board of Kredyt Bank S.A., during its session on 26 September 2007, pursuant to its powers under § 25 item 2 of the Articles of Association of Kredyt Bank S.A., decided that, since 1 October 2007, the Management Board of Kredyt Bank, by the time of the appointment of the new Member of the Bank's Management Board, would be composed of 4 members.

As at 31.12.2007, the Management Board of Kredyt Bank S.A. was composed of:

Mr. Ronald Richardson	- President of the Management Board
Mr. Umberto Arts	- Vice-President of the Management Board
Mr. Krzysztof Kokot	- Vice-President of the Management Board
Mr. Michał Oziębło	- Vice-President of the Management Board

On 18 December 2007, Mr. Ronald Richardson, the President of the Bank's Management Board, resigned from his position of the President of the Bank's Management Board, and from the membership in the Bank's Management Board as of 29 February 2008. On 18 December 2007, at the session of the Bank's Supervisory Board, Mr. Maciej Bardan was appointed the President of the Management Board of Kredyt Bank S.A. as of 1 March 2008.

The Supervisory Board supervises the Bank's operations in all areas of its business on an ongoing basis. The particular duties of the Supervisory Board include the examination of all requests and matters which must be approved by virtue of a resolution of the General Meeting of Shareholders; selection, upon the request of the Management Board, of an independent auditor; supervising the implementation of the internal audit system; determining the policy of borrowing and extending loans; and approving Bank's long-term development plans and annual financial plans. The Supervisory Board is elected by the General Meeting of Shareholders.

On 27 March 2007, Mr. Józef Toczek, a Member of the Supervisory Board of Kredyt Bank S.A. resigned from his position of a Member of the Supervisory Board of Kredyt Bank S.A. as of 27 March 2007.

At the session on 18 April 2007, the Supervisory Board appointed Mr. Krzysztof Trębaczewicz as a Member of the Supervisory Board as of 18 April 2007.

On 5 June 2007, the General Meeting of Shareholders of Kredyt Bank S.A., under its Resolution No. 27/2007 concerning the approval of Members of the Bank's Supervisory Board, appointed, during the

term of office, and approved the following newly appointed Members of the Supervisory Board: Mr. Francois Gillet and Mr. Krzysztof Trębaczewicz.

As at 31.12.2007, the Supervisory Board of Kredyt Bank S.A. was composed of:

Mr. Andrzej Witkowski	- Chairman of the Supervisory Board
Mr. Adam Noga	- Vice-Chairman of the Supervisory Board
Mr. Jan Vanhevel	- Member of the Supervisory Board
Mr. John Hollows	- Member of the Supervisory Board
Mr. Philips Luc	- Member of the Supervisory Board
Mr. Francois Gillet	- Member of the Supervisory Board
Mr. Feliks Kulikowski	- Member of the Supervisory Board
Mr. Marek Michałowski	- Member of the Supervisory Board
Mr. Krzysztof Trębaczewicz	- Member of the Supervisory Board

The Bank's shares and the shares in the Group's subsidiaries held by the Management Board and the Supervisory Board Members

As at the date of the publication of this report, i.e. 29.02.2008, as compared to the situation as at the publication date of the annual consolidated financial report for 2006, the number of the Bank's shares held by Members of the Bank's Management Board and Members of the Bank's Supervisory Board did not change. The number and value of shares in the Group's parent company and shares in subsidiaries and associates held by Members of the Management Board and Members of the Supervisory Board of Kredyt Bank S.A. is presented below.

	Shares of Kredyt Bank S.A.		Shares of subsidiaries and associates	
	Number of shares	Nominal value (in PLN '000')	Number of shares	Nominal value (in PLN '000')
Management Board Members	5 000	25	0	0
Ronald Richardson	5 000	25	0	0
Supervisory Board Members	1 000	5	0	0
Marek Michałowski	1 000	5	0	0

Remunerations of persons managing and supervising the Group's parent company

Detailed information on the remunerations of persons managing and supervising the Group's parent company are presented in Note 60 to the Group's consolidated financial statements for 2007.

The contract of employment entered into with one of the Members of the Bank's Management Board provides for the payment of a compensation in the case of termination of the contract of employment due to the dismissal from the Management Board which will amount to:

- 24 times the average monthly remuneration, if the time by the end of the term of office of the Bank's Management Board is 24 months and more;
- the product of average monthly remuneration and of the number of months remaining by the termination of the term of office of the Bank's Management Board, however not less than 12 times the average monthly remuneration, if the time by the end of the term of office of the Bank's Management Board is less than 24 months.

The above-mentioned contract contains a clause stipulating that the compensation shall not be paid if the cause of dismissal from the Management Board is as follows:

- acting to the Bank's detriment;
- committing a felony which is obvious or is confirmed by a valid court judgment;
- causing a material damage to the Bank's assets;
- infringing the non-competition agreement;
- disclosing a business secret;
- serious violation of the Bank's internal regulations or resolutions of the Bank's authorities.

In addition, in the case of not entering into a new agreement due to the failure to appoint a new Employee as a Member of the Management Board for the next term of office, he will be entitled to obtain 12 times the average monthly remuneration.

Furthermore, it should be noted that according to § 27 of the Bank's Articles of Association, a Member of the Bank's Management Board may only be dismissed for important reasons.

4.4 Events and contracts material for the Group activity in 2007

The following events and contracts were material for the Group's operations in 2007:

- On 23.02.2007, due to the implementation of a new ratings calculation methodology, Moody's Investors Service changed the financial strength rating of Kredyt Bank S.A. from 'D-' to 'D'.
- On 28.02.2007, Fitch Ratings published the following ratings for Kredyt Bank S.A.: rating for the business - "A+", short-term rating - "F1", individual rating - "D", support rating - "1". The outlook for the above rating remains stable.
- On 18 April 2007, the Supervisory Board of Kredyt Bank S.A., under § 24 Clause 1 item 3 of the Bank's Memorandum and Articles of Association, upon the request of the Bank's Management Board, appointed the certified auditor, Ernst & Young Audit Sp. z o.o., to perform an independent review and audit of financial statements of Kredyt Bank S.A. and of consolidated financial statements of Kredyt Bank S.A. Capital Group as of 30.06.2007 and 31.12.2007. Kredyt Bank S.A. used services of Ernst & Young Audit Sp. z o.o. related to the audit and review of the Bank's financial statement for 2002, 2003, 2004, 2005 and 2006.

- On 27.04.2007, Kredyt Bank S.A. was informed by KBC Bank NV that, on 24.04.2007, KBC Securities NV, a wholly-owned subsidiary of KBC Bank NV, had purchased 7,690,966 shares of Kredyt Bank S.A. in a block transaction. As we were informed by KBC Bank NV, prior to the purchase, KBC Bank NV had held 217,327,103 shares of Kredyt Bank S.A., i.e. 80.00% of share capital of Kredyt Bank S.A. Following the transaction, KBC Bank NV holds 217,327,103 shares in their investment portfolio, i.e. 80-percent share in the share capital of Kredyt Bank S.A., and KBC Securities NV holds 7,690,966 shares of Kredyt Bank S.A. in their trading portfolio, i.e. 2.83-percent share in the share capital of Kredyt Bank S.A. As we were informed by KBC Bank NV, both companies jointly, i.e. KBC Bank NV and KBC Securities NV, were entitled to exercise up to 75% of votes at the General Meeting of Shareholders of Kredyt Bank S.A., i.e. 203,744,160 votes.
- On 05.06.2007, the General Meeting of the Shareholders of Kredyt Bank S.A. adopted a resolution on the payment of gross dividend for the financial year 2006 amounting to PLN 0.37 per share, i.e. the total amount of PLN 100,513,785.60. Holders of 271,658,880 Bank's series A to W shares are entitled to dividend from such stocks. The right to dividend was established on 02.07.2007. The payment of dividend was effected on 18.07.2007.
- On 15.06.2007, a company named "Kredyt Bank Spółka Akcyjna i Towarzystwo Ubezpieczeń i Reasekuracji Warta Spółka Akcyjna" Spółka Jawna was entered into the National Court Register - Register of Entrepreneurs in the District Court for the capital city of Warsaw in Warsaw, 12th Economic Division of the National Court Register. The company was established by Kredyt Bank S.A. and TUIR Warta S.A., which, at the end of 2007, held equal contributions of PLN 50,000.00. The main objective of the company is to perform activities auxiliary to banking and insurance business, including financial intermediation and back office services.
- On 03.08.2007, Kredyt Bank S.A. concluded a revolving loan agreement with a borrower amounting to PLN 300,000,000 thousand to finance the borrower's current operations. The loan interest rate was WIBOR O/N plus the Bank's margin. The loan drawing period is 36 months since the execution of the loan agreement. The claim under the above-mentioned agreement is secured with blank promissory note issued by the borrower.
- On 20.08.2007, the Bank signed loan agreements with a company from the electro-machines industry for the total amount of PLN 475,000,000. The above-mentioned amount comprises a syndicated loan with Kredyt Bank S.A.'s share of PLN 435,000,000 and a bilateral loan of PLN 40,000,000. The loan drawing period for the syndicated loan is 7 years, the interest rate is based on WIBOR plus the Bank's margin which, as agreed by the parties, depends on the Borrower's selected financial ratios. The loan amount was secured by the Borrower.
- On 05.09.2007 and 28.09.2007, Kredyt Bank S.A. entered into two multicurrency loan agreements with KBC Bank NV, branch in Dublin, up to the amount equivalent to EUR 250 million each. Both loan agreements were concluded on market terms with the 5-year repayment time limit. The loan can be drawn in EUR, CHF or PLN. The interest rate is based on EURIBOR/LIBOR/WIBOR rates + margin. Cash obtained under the above loans is used to finance the Bank's current operations.
- On 30.09.2007, Kredyt Bank S.A. executed, with a client being a non-banking financial institution, an annex to the loan agreement which provides for the increase of the permitted

revolving loan limit to PLN 460,000,000. The agreement terms are standard for such a type of transactions concluded by Kredyt Bank S.A. The interest rate of the above-mentioned revolving loan is based, depending on the financing period, on WIBOR O/N, 1M, 3M and 6M rates plus the margin. The receivable under the said loan is not secured.

- On 05.10.2007, Kredyt Bank S.A. signed, with a customer from the ship-building industry, an annex to the guarantee line agreement of 24 September 2004, increasing the amount of guarantee facilities by PLN 156,000,000 to PLN 290,500,000, with the validity period by 30 April 2011. Furthermore, the Bank entered into an agreement with the same customer concerning the line to open import letters of credit without financing of EUR 12,660,000, with the validity period of opened letters of credit by 30 August 2010. Under the above-mentioned agreements, the Bank collects commissions at market rates for similar types of transactions. The receivable under the said loans is secured by the global transfer of receivables under contracts concluded by the principal in the validity period of the agreements, a power of attorney to use the principal's bank accounts managed in Kredyt Bank S.A. and the alienation of the objects of financing.

In 2007, the Bank did not enter into any material agreements with the central bank or the regulatory authorities.

Major post-balance sheet events

On 7 February 2008, Kredyt Bank S.A. executed with Kredietbank S.A. Luxembourgeoise, a multicurrency loan agreement up to the amount equivalent to EUR 200 million (i.e. PLN 719.580.000 at the average exchange rate of NBP of 7 February 2008). The agreement was concluded on market terms with the maturity date of 2 years and one day. The loan can be drawn in CHF or PLN. The interest rate is based on LIBOR/WIBOR rates + margin. The amount of cash received under the above-mentioned agreement exceeds 10% of the Bank's equity. Cash obtained under the above-mentioned loan are used to finance the Bank's current operations.

Contracts entered into by the Issuer with an entity authorized to audit financial statements

On 10.05.2007, the Bank entered into an agreement with an entity authorized to audit financial statements, Ernst&Young Audit Sp. z o.o. in Warsaw, on the review of the half-year standalone individual and consolidated financial statements of the Bank and of the Group for the first half of 2007 and the audit of the individual and consolidated financial statements of the Bank and of the Group for 2007. The total net remuneration under this agreement amounted to PLN 1,416 thousand (as compared to PLN 1,416 thousand in 2006 under the agreement of 27.04.2006). Furthermore, the Bank entered into an agreement with an entity authorized to audit financial statements concerning the performance of agreed procedures related to the quarterly consolidated financial statements for the first and the third quarters of 2007 with net remuneration under this agreement amounting to PLN 520 thousand (cf. PLN 520 thousand in 2006) and an agreement concerning the performance of agreed procedures related to the financial result and net assets of the Bank's subsidiary, Reliz Sp.z o.o., whose value amounted to PLN 75 thousand (cf. PLN 61 thousand in 2006).

5 Kredyt Bank S.A. Group's products, services and areas of operation

5.1 Retail banking

5.1.1 Business area, distribution channels and results of the retail banking segment

The Retail Segment in Kredyt Bank S.A. Group provides services to individual customers as well as Small and Medium-size Enterprises (SME) with annual income not exceeding PLN 16 million.

The traditional network of the Bank's branches is the main channel of distribution. As at 31.12.2007, it comprised 380 branches, sub-branches, banking outlets and agencies located all over Poland. KB24 network is yet another primary distribution channel for products targeted at retail customers.

Due to their specific nature, services for the Private Banking customers are provided separately within the retail banking segment, by 11 branches reporting directly to the Private Banking Department in the Bank's Head Office.

Small and Medium-sized Enterprises (SMEs) are served by mobile customer service teams. It allows for a direct and fast contact with customers, particularly as regards loan products. A chain of retail branches provides cash payment service.

The Bank's network is supplemented by the distribution network of Żagiel S.A. composed of two distribution channels. The first channel utilized mainly to sell instalment loans, is composed of affiliates, representatives and cooperating shops. The second channel dedicated to the sale of cash loans, credit cards and selected services from the Bank's and WARTA S.A.'s offers is composed of a network of small outlets called "Kredyt Punkt" ('Credit Point') and a network of multiagents.

Measures aimed at enabling the sale of banking facilities through the distribution network of WARTA S.A. Group are continued. This project is a pivotal measure concerning the implementation of the cross-sale of banking and insurance products.

As at the end of December 2007, Kredyt Bank S.A. provided services to 951,000 individual customers and SMEs.

in '000'	As at 31.12.2007	As at 30.09.2007	As at 30.06.2007	As at 31.03.2007	As at 31.12.2006
Individual customers	869	863	849	856	849
SMEs	82	82	81	85	87
Total customers	951	945	930	941	936

At the end of 2007, the number of KB 24 users amounted to 278,000 as compared to 228,000 at the end of 2006 (an increase by 21.9%).

in '000'	As at 31.12.2007	As at 30.09.2007	As at 30.06.2007	As at 31.03.2007	As at 31.12.2006
Number of KB24 users	278	265	252	240	228
Number of transfers via KB24 in the quarter	3 340	2 994	2 892	2 774	2 614

The retail segment's profit before tax in 2007 amounted to PLN 130,581 thousand as compared to PLN 26,881 thousand in 2006. The result comprises respectively: – PLN 36,616 thousand and – PLN 62,484 thousand of net impairment losses on financial assets, other assets and provisions.

5.1.2 Product strategy in retail banking area

Kredyt Bank S.A. Capital Group offers a full range of financial services, due to close cooperation of the Bank, the Group's companies and entities of KBC Group in Poland. The offer entails:

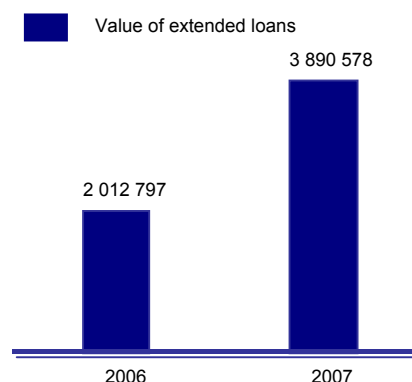

- traditional banking facilities;
- consumer finance products developed and distributed in cooperation with Żagiel S.A.;
- insurance products offered in cooperation with WARTA S.A. Group;
- KBC TFI products (shares in investment funds);
- leasing products of Kredyt Lease company.

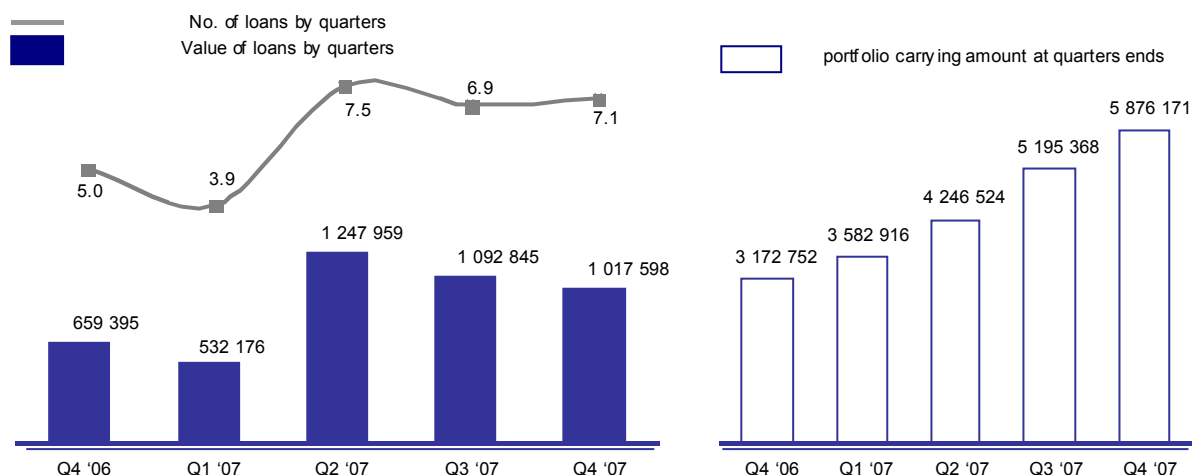

In 2007, Kredyt Bank Group continued its action aiming at the development of the retail banking, pursuant to the strategy adopted in autumn 2005. The basic elements of the product strategy are as follows:

- the sale of mortgages;
- the sale of instalment loans and cash loans;
- credit cards;
- traditional deposit products - personal accounts and savings accounts,
- products dedicated to SMEs;
- the launch of new bancassurance products in cooperation with WARTA Group and the development of cross-selling banking and insurance products;
- the sale of shares in KBC TFI investment funds, mainly capital guaranteed funds.

Mortgages

In 2007, the Bank granted over 25.4 thousand mortgages for the total amount of PLN 3,890.6 million. As compared to 2006, the sale of loans increased, in value terms, by 93.3%. The debt resulting from mortgages amounted to PLN 5,876.2 million (an increase by 85.2% as compared to last year's figures). The figures below present mortgages portfolio volume and sale in PLN '000' and in thousands of facilities.

The figures below present the value of the mortgages portfolio in breakdown into PLN loans and foreign currency loans in PLN '000' and the portfolio structure as at the end of 2006 and 2007.

Retail and cash loans – cooperation with Żagiel S.A.

In 2007, Kredyt Bank S.A. Capital Group undertook measures to create a separate Consumer Finance business line. The measures aimed at the reorganisation of the management model, to accelerate the development of the distribution network and the product offer and to create a dedicated IT platform. The works were carried out on the basis of Żagiel S.A. and the organisational structure of Kredyt Bank S.A. In order to optimise the effects, the nationwide level management was centralized by appointing the same person as the President of the Management Board of Żagiel S.A. and as the Vice-President of the Management Board of Kredyt Bank S.A.

The sales network in Żagiel S.A. was reorganised by separating two independent distribution channels dedicated to the sale of instalment loans as well as cash loans, credit cards and selected products of Kredyt Bank S.A. Capital Group and of Warta S.A.

In 2007, total sales of loan products via Żagiel S.A. amounted to PLN 2,178.7 million, i.e. it increased by 29.3% as compared to 2006. The figures below present loans portfolio volume and sales in 2007 in PLN '000' and in thousands of facilities.

Cash loans are also sold via the network of outlets of Kredyt Bank S.A. In 2007, the sales amounted to PLN 368.8 million, i.e. over six times as much as in 2006. As at 31.12.2007, the portfolio of cash loans sold by the Bank's branches amounted to PLN 392.6 million (an increase by 85%).

Credit cards

At the end of 2007, the number of active credit cards sold by Kredyt Bank S.A. Group amounted to 213 thousand (an increase by 72.7% as compared to figures recorded at the end of 2006). Over 39% of all those credit cards were sold by Żagiel. The figure below presents active credit cards at the end of the period in thousands of cards.

Traditional deposit products

As at 31.12.2007, the number of current accounts was higher by 1.6% as compared to figures at 31.12.2006. The value of deposits on these accounts was higher by 19.4% as compared to the end of 2006 (see the figure, period end values, in PLN '000')

The volumes on the Savings Account, which is one of the basic depositary products, are growing on a continuous basis; at the end of 2007, the value of deposited cash was almost PLN 4.4 billion, i.e. increased by 13.5% as compared to figures at the end of 2006. The figure below presents cash deposited on saving accounts in PLN and foreign currencies at the end of period in PLN '000'.

SMEs

At the end of 2007, the value of loans granted to small and medium-sized enterprises increased by almost 40% as compared to figures at the end of 2006. The cash on current accounts of SME customers after four quarters of 2007 was higher than the cash at the end of 2006 by 19.8%.

Cash deposited in current accounts of SMEs and indebtedness related to loans, in PLN '000', at the end of the period are presented on the diagram below.

Bancassurance – cooperation with TUIR WARTA Group

The extension of bancassurance products offer and of the sale of insurance products through the Bank's chain are the basic assumptions of Kredyt Bank S.A. Group's strategy. In 2007, the value of gross written premium under life and property insurance agreements of WARTA S.A. Group sold by the Group increased, as compared to 2006, by 45.5% and amounted to PLN 736,573 thousand (diagram in PLN '000').

Basic groups of products sold through the chain of Kredyt Bank S.A. Group are as follows:

- investment and insurance products – deposit products connected with life insurance, open-end and close-end investment funds with life insurance;
- insurance agreements connected with loans – insurance agreements for borrowers of Żagiel loans,
- embedded insurance – life insurance within mortgages and cash loans, insurance for credit cards holders, owners of personal accounts and current accounts for SMEs;
- insurance – standalone products (house or car insurance, personal insurance, property insurance for SMEs).

Investment funds – cooperation with KBC TFI

As at 31.12.2007, the total value of net assets of investment funds and insurance and capital funds sold via the Group's distribution network and managed by KBC TFI S.A. amounted to PLN 3,629.5 million (including non-registered funds). As compared to figures at 31.12.2006, net assets rose by 18.5%. The figure below demonstrates funds' net assets as at the end of of the period in PLN '000'.

At the end of 2007, KBC TFI managed assets of the total value of PLN 8.1 billion. The value of assets in investment funds managed by KBC TFI amounted to PLN 4.7 billion, which, as at the end of 2007, accounted for the Society's market share of 3.5%. The Society was ranked ninth among all investment funds societies in Poland. At the end of 2007, KBC TFI S.A. managed the total of 30 investment funds.

5.2 Corporate banking

5.2.1 Business area, distribution channels and results of the corporate banking segment

The Corporate Segment entails transactions with large companies (with annual income exceeding PLN 16 million) as well as state budgetary units at central and local levels.

Corporate customers are served (except for payments) in 12 Corporate Banking Centers located in Białystok, Bydgoszcz, Gdańsk, Katowice, Kraków, Lublin, Łódź, Poznań, Rzeszów, Szczecin, Warsaw and Wrocław. An additional centre in Warsaw was established for the strategic customers sub-segment. There are 10 additional agencies reporting to the Corporate Banking Centres covering the largest operating area. Account Managers maintain direct customer relations. In the case of specialized products, they are supported by the employees of organizational units of the Head Office.

As far as leasing products are concerned, customers are served by units and employees of Kredyt Lease, which offers a complete range of services for companies in respect of the leasing of fixed assets and real estates. In the case of corporate finance, customers are served in cooperation with KBC Securities.

In 2007, Kredyt Bank S.A. Group focused on the development of the leasing, cash management, trade finance and risk management instruments offer. The undertaken measures aimed at the improvement of the Bank's reputation as an institution offering the highest level of services, which provides all-inclusive services to large companies. As a result, the Bank increased sales which enabled it to increase the loans and deposits portfolio. The figures below present deposits and corporate customers' loans at period end in PLN millions, according to the segmentation applied by the Bank for management purposes.

Customers' loans

Customers' deposits

The corporate segment's profit before tax in 2007 amounted to PLN 228,317 thousand as compared to PLN 257,487 thousand in 2006. The result comprises the net impairment losses on financial assets

and other assets, and provisions, which amounted to, respectively: + PLN 64,443 thousand and + PLN 115,200 thousand.

5.2.2 Product strategy in corporate banking segment

In 2007, Kredyt Bank S.A. Group took measures to better align the existing offer to customers' needs and improve sales organization and customer service quality. The basic assumptions of the product strategy are as follows:

- developing a complete cash and payment management offer;
- developing products and Trade Finance services applying best practices and experiences of the main shareholder, i.e. KBC Group;
- providing financial risk hedging solutions;
- developing leasing services in cooperation with Kredyt Lease in KB S.A. network.

The Bank offers complete range of services for corporate customers, both traditional banking products and treasury products, trade finance and corporate finance products. The offer is tailored both to the specific character resulting from the customer's size and the nature of its operations: large corporations, medium-sized enterprises, state-owned entities, social associations and organizations.

The Bank offers a complete range of traditional loan facilities, e.g. investment loans, working capital loans in credit or current account, revolving and non-revolving loans, payment and foreign currency facilities. At the same time, customers may also take advantage of other credit-related services, such as factoring, leasing, bank guarantees and sureties, organization of and services related to the issue of debt securities.

Traditional deposit products, such as term deposits, current accounts, payment cards, consolidated current accounts (which make it possible to serve multi-branch companies and adjust liquidity management strategy to the specific nature of a company) are supplemented by transaction banking products such as Bulk Payment System (which makes it possible to identify details of payments, their assignment and settlement against respective settlement accounts of debtors in the customer's accounting system) and cash management products, such as closed payments, disbursements in Bank's Branches, other payments to accounts.

All-inclusive services for foreign trade companies form a separate group of services. The Bank offers, e.g. export financing loans, payments under own letters of credits, guarantees in foreign trade, encashment and documentary letters of credit, transfers and cheques in foreign trade, purchase and sale of foreign currencies and forfeiting.

The Bank offers risk insurance products, including products related to the strategy for options hedging currency risk.

In addition, via KBC Securities, the Group's customers have access to corporate finance products, such as consulting on mergers and acquisitions, privatisation of state-owned enterprises, capital restructuring and seeking new investors for companies.

5.3 Treasury Segment and cooperation with international financial institutions

The Bank performs transactions on the inter-bank market, both domestic and international, on own account and on behalf of customers. Active participation in the inter-bank market makes it possible to obtain competitive quotations, which is the basis of stabilization and development of existing corporate customers base. The Bank is the Treasury Securities Dealer and Money Market Dealer.

The treasury products offer is being expanded and ensures appropriate services both to Private Banking customers and medium-sized and large companies. In 2007, further growth in the number of options hedging the market risk for customers was recorded.

Kredyt Bank S.A. established active relations with domestic and foreign banks providing FX/MM, Custody, Trade Finance and payments services. They are supplemented by cooperation agreements with global foreign institutions, e.g. European Investment Bank, European Reconstruction and Development Bank, Visa International. Due to the base of 35,000 SWIFT keys exchanged with other institutions, the Bank is able to exchange correspondence with banks and serve foreign trade in the majority of countries worldwide.

As at 31.12.2007, Kredyt Bank managed 8 LORO accounts in foreign currencies and 34 LORO accounts in PLN for 36 correspondent banks (33 foreign banks and 3 national banks). The network of NOSTRO accounts included 19 accounts in 17 banks and it fully satisfied the clearing needs of Kredyt Bank.

5.4 Custodian services and investments

Kredyt Bank S.A. holds an authorization of the Polish Securities and Exchange Commission to manage securities accounts; it is also a direct participant of the National Depository for Securities (KDPW) as a Custodian Bank and the participant of the Securities Register (RPW) managed by the National Bank of Poland (NBP).

The Bank's custodian services entail managing accounts of securities, kept in National Depository for Securities (KDPW) or the Securities Register (RPW), for domestic and foreign, both institutional and private customers. For the special group of customers, i.e. investment funds, the Bank also plays a role of a custodian bank, transfer agent and issue sponsor.

The Bank also deposits securities not traded on organized market, registered in securities registers and on sub-fiduciary accounts in domestic and foreign financial institutions.

5.5 Operations of the Group companies

Żagiel S.A.

As at 31.12.2007, the share capital of Żagiel S.A. amounted to PLN 23,964 thousand. The Bank launched cooperation with Żagiel in 1995. Żagiel S.A. intermediates in the sale of instalment loans as well as in the distribution of selected services offered by the Bank and WARTA S.A. Group. The company offers instalment loans, cash loans, mortgages and mortgage loans for natural persons, leasing, EKSTRABIZNES and EKSTRAKONTO accounts and the issue and service of VISA Electron

Żagiel credit card. The company also distributes insurance products of WARTA S.A. Group. At the end of 2007, Żagiel S.A. was ranked fourth in terms of the share in consumer finance market in Poland. In 2007, on the basis of the distribution network of Żagiel S.A., Kredyt Bank S.A. Group created a separate consumer finance business line.

Kredyt Lease S.A.

As at 31.12.2007, the company's share capital amounted to PLN 27,501 thousand. Kredyt Lease is engaged in leasing services, rental and lease of rights and assets, trade in real estate and intermediation in the sale of goods and services. The company focuses mainly on services provided to the Bank's customers, but also offers its services on the market. Kredyt Lease's offer is supplementary to the Bank's offer and provides a complete range of services for corporate customers and SMEs.

As compared to 2006, Kredyt Lease S.A. doubled sales of its products. In 2007, the sales amounted to PLN 262.3 million, i.e. it was higher as compared to 2006 by 102%.

Kredyt Trade Sp. z o.o.

As at 31.12.2007, the share capital of the company amounted to PLN 64,179 thousand. Kredyt Trade provides services complementary to the Bank's administrative services.

Kredyt International Finance B.V. (KIF)

As at 31.12.2007, the share capital of KIF amounted to EUR 18 thousand. The company was registered on 14 February 2001 to perform and handle the issue of bonds in EUR on foreign markets. KIF B.V. is also involved in sourcing of financial resources for Kredyt Bank S.A. Capital Group on foreign markets. As at 31.12.2007, the company did not have any material commitments related to the issue of securities or loan agreements.

Reliz

As at 31.12.2007, the share capital of Reliz amounted to PLN 50 thousand. ALTUS multi-purpose building in Katowice is the company's main asset. The company is involved in the lease and administration of this real estate.

6 Financial results of Kredyt Bank S.A. Capital Group in 2007

6.1 Income statement structure

The Group's profit before tax in 2007 amounted to PLN 501,957 thousand as compared to PLN 460,595 thousand in 2006 (an increase by 9.0%). The Group's net profit in 2007 amounted to PLN 390,539 thousand and was lower by 16.6% in comparison with 2006. The most important factors which affected the differences in financial results for 2007 and 2006:

- income tax expense of PLN 111,418 thousand deducted from profit for 2007 (contrary to the addition of PLN 7,495 thousand to net profit for 2006);

- a material single transaction completed in the first half of 2006, which involved the sale of a portion of the non-performing loans portfolio; its impact upon consolidated profit before tax amounted to PLN 149,662 thousand and PLN 135,019 thousand upon net profit.

Despite the absence in 2007 of a single transaction comparable to the above-mentioned sale of receivables, profit before tax was higher than in 2006. The result on core business improved mainly due to:

- a substantial increase in the scale of the sale of mortgage loans and consumer loans in 2007, which enabled the Bank to significantly expand the retail loans portfolio;
- an increase in the scale of the sale and in corporate customers' loans portfolio;
- effective restructuring and debt recovery measures alongside strict control and a low level of credit risk;
- effective management of the Group' functioning costs.
- an increase in the sale of shares of investment funds in the first half of 2007.

The main items of the Group's income statement are presented below.

in PLN '000'	01.01.2007 - 31.12.2007	01.01.2006 - 31.12.2006	Change
Net interest income	871 473	780 039	11.7%
Net fee and commission income	309 501	270 111	14.6%
Net trading income and investments (including dividend income and net result on derivatives used as hedging instruments and hedged items)	181 485	152 693	18.9%
Net income from sale of receivables	54 893	149 662	-63.3%
Net income from other operating income/expenses	27 645	17 524	57.8%
Total income	1 444 997	1 370 029	5.5%
General and administrative expenses, and depreciation	-974 622	-930 242	4.8%
Net impairment losses on financial assets, other assets and provisions	30 069	19 077	57.6%
Share of profit (loss) of subordinated companies	1 513	1 731	-12.59%
Profit before tax	501 957	460 595	9.0%
Income tax expense	-111 418	7 495	
Net profit (attributable to the shareholders of the Bank)	390 539	468 090	-16.57%

Net interest income and net fee and commission income generated by the Group in 2007 amounted to PLN 1,180,974 thousand and was higher by 12.5% than the figure for 2006 (PLN 1,050,150 thousand). The increase resulted from an expanded scale of transactions with customers, including the sale of products strategic for the Group, such as mortgages, the sale of shares in investment funds and insurance products offered in cooperation with TUIR WARTA S.A.

Net interest income was higher as compared to figures recorded 2006 by 11.7%. The main reason for the improvement of net interest income was an increase in the sale of loans and the expansion of loans portfolio. The process entailed mainly mortgages, consumer loans and loans for corporate customers. An increase in deposit margin in the second half of 2007 also positively affected net interest income. Net interest income in 2006-2007 is presented in the figures below (in millions of PLN):

Net fee and commission income was higher as compared to figures recorded in 2006 by 14.6%. Net commission income in 2006-2007 is presented in the figures below (in millions of PLN):

The highest increase was recorded for income from commission on the sale of combined investment and insurance products resulting from high demand for shares in investment funds related to the bull market on the Warsaw Stock Exchange in the first half of 2007 and an ensuing increase in the sale of insurance products of WARTA S.A. Group. Commission income on loans soared as a result of a material increase in the sale of loan products, including loans for corporate customers. Also, commission income related to the servicing of payment and credit cards and deposit transactions with customers increased substantially. As a result, the increase in the share of above-mentioned categories in total commission income was noticeable, which is presented in the diagrams below.

The structure of commission income in 2007:

Net trading income and investments (including dividend income and net result on derivatives used as hedging instruments and hedged items) in 2007 amounted to PLN 181,485 thousand, i.e. was higher by 18.9% than in 2006. Net trading income of PLN 179,243 thousand was higher than net trading income in 2006 of PLN 138,545 thousand (an increase by 29.4%). The result comprises the results

from the valuation and sale of held-for-trading assets carried at fair value through profit or loss, the result for derivatives and result on foreign exchange transactions. Improvement of the result, as compared to 2006, was recorded particularly for the foreign exchange item.

Net income from sale of receivables in 2007 amounted to PLN 54,893 thousand and was lower by 63.3% in comparison with 2006. A large sale of a portion of the non-performing receivables portfolio was completed in the second quarter of 2006. The impact of the transaction upon the consolidated profit before tax amounted to PLN 149,662 thousand. The transaction, due to its scale, was a one-off event. In 2007, the Bank concluded smaller transactions in the ordinary course of business of the debt recovery and restructuring function. The largest one of the above-mentioned transactions was performed in the fourth quarter and involved the sale of receivables related to consumer loans. The income from the transaction of PLN 24,069 thousand was charged to profit before tax.

In 2007, the Group's general expenses amounted to PLN 974,622 thousand and were up by 4.8% in comparison with 2006. It resulted from the increase in staff costs (by 12.3%) following the restructuring of the payroll system. The increase was, to a large extent, related to the so called 'variable' portion of the salaries fund, i.e. the systems of bonuses associated with sales performance, awards for the accomplishment of sales targets and the costs of employee trainings.

The increase in staff costs was, to a large extent, compensated for by a decrease in material costs (by 2.1%) and in depreciation costs (by 1.5%). The savings were related mainly to Kredyt Bank S.A. The following items decreased in the first place: taxes and fees, promotion and advertising costs, balance sheet audit costs, consulting and advisory costs and the property protection costs. Closer cooperation with WARTA S.A. Group and other companies of KBC Group was of importance. General and administrative expenses, and depreciation costs, in particular quarters of 2006 and 2007, are presented in the figures below (in millions of PLN):

Cost/income ratio (CIR) in 2007 was equal to 67.4%, which denotes improvement as compared to 2006 level by 0.5 p.p. It should be noted here that the improvement resulted from the increase in realised recurrent income and was possible despite the absence of single transactions comparable to those effected in 2006.

In 2007, net result on net impairment losses on financial assets, other assets and provisions was positive and amounted to PLN 30,069 thousand as compared to the positive impact upon the result in 2006 of PLN 19,077 thousand.

Contrary to 2006, in 2007, income tax expense deducted from the Group's result amounted to – PLN 111,418 thousand. In 2006, total income tax was positive and amounted to PLN 7,495 thousand. It resulted from the recognition by the Group of the surplus of deferred tax assets over deferred tax liability in the income statement.

6.2 Assets structure

The Group's total assets as at 31.12.2007 amounted to PLN 27,128,180 thousand against PLN 22,232,028 thousand as at 31.12.2006 and were up by 22.0%.

Net loans and advances to customers and investment securities generated the greatest shares in assets structure; they accounted for 81.5% of total assets as at the end of 2007.

The major changes in assets structure as compared to figures as of the end of 2006 are as follows:

- an increase in the share of net loans and advances to customers from 52.0% to 61.3%; it results from a significant increase in lending activities, mainly in the case of the mortgages portfolio and corporate customer loans, which enabled Kredyt Bank S.A. Capital Group to enhance its market position;
- decreased share of investment securities in total assets from 26.6% to 20.2%.

The value of particular assets is presented in the table below (in PLN '000'):

	31.12.2007	31.12.2006	Change
Cash and balances with Central Bank	611 690	640 743	-4.5%
Gross loans and advances to banks	2 456 352	2 206 403	11.3%
Impairment losses on loans and advances to banks	-2 260	-2 753	-17.9%
Financial assets at fair value through profit or loss, including financial assets held for trading	465 027	628 748	-26.0%
Derivatives, including:	495 095	297 427	66.5%
- derivatives used as hedging instruments	34 025	3 403	899.9%
Gross loans and advances to customers	17 456 184	12 643 843	38.1%
Impairment losses on loans and advances to customers	-834 327	-1 087 462	-23.3%
Investment securities	5 482 335	5 906 680	-7.2%
- available-for-sale	3 437 169	3 457 907	-0.6%
- held-to-maturity	2 045 166	2 448 773	-16.5%
Investments in associates measured with the equity method	12 174	10 661	14.2%

Property, plant and equipment	396 446	385 657	2.8%
Intangible assets	67 212	85 608	-21.5%
Goodwill	36 052	36 052	0.0%
Deferred tax asset	150 658	153 729	-2.0%
Current tax receivable	1 309	15 582	-91.6%
Non-current assets classified as held for sale	767	194 771	-99.6%
Investment real estates	219 509		
Other assets	113 957	116 339	-2.0%
Total assets	27 128 180	22 232 028	22.0%

The increase in the balance sheet total of Kredyt Bank S.A. in 2007 resulted chiefly from increased lending activities. At the end of 2007, net loans and advances to customers amounted to PLN 16,621,857 thousand as compared to PLN 11,556,381 thousand at the end of 2006 (an increase by 43.8%). The increase resulted mainly from good results on the sale of mortgages, consumer loans and corporate customer loans. The figure below presents loan and advances to customers at period end in PLN '000'.

Credit portfolio quality

In 2007, the Group continued the process of reducing non-performing loans portfolio through effective restructuring and debt recovery measures as well as the sale of receivables.

As a result of the said transaction and the improvement of retail and corporate loans sale, the share of loans and advances with individual evidence for impairment in total gross loans and advances to customers decreased almost twice. At the end of 2007, the ratio was at the level of 6.6% against 13.5% at the end of 2006. As compared to the end of 2006, the value of non-performing receivables for which evidence for impairment was identified decreased by 33.2%.

The Group, when estimating credit risk for individual credit exposures and loan portfolios, follows the prudence concept. As at 31.12.2007, the ratio of covering loans and advances for which individual evidence for impairment was identified with impairment losses remained high – 69.3%.

<i>in PLN '000'</i>	31.12.2007	31.12.2006	Change
Loans and advances with no individual evidence for impairment, including interest	16 312 565	10 932 092	49.2%
Loans and advances with individual evidence for impairment, including interest	1 143 619	1 711 751	-33.2%
Total gross loan and advances to customers (including interest)	17 456 184	12 643 843	38.1%
Impairment losses on loans and advances to customers	834 327	1 087 462	-23.3%
including: impairment losses on doubtful loans and advances with individual evidence for impairment	792 087	1 030 165	-23.1%
Total net loans and advances to customers	16 621 857	11 556 381	43.8%
The share of loans and advances with individual evidence for impairment in total gross loans and advances	6.6%	13.5%	-6.9 p.p.
Coverage of loans and advances with individual evidence for impairment with impairment losses	69.3%	60.2%	9.1 p.p.

Number and value of executory titles and the value of collateral established on customers' accounts and assets.

In 2007, in the course of debt collection measures aimed at recovering debts from non-paying customers, the Bank issued 37,234 banking executory titles for the total amount of PLN 161.1 million. In 2006, there were issued 24,194 banking executory titles for the total amount of PLN 97.5 million.

In the case of receivables for which impairment was identified, as at 31.12.2007, the total value of collateral approved by the Bank included in the calculations of estimated future cash flows amounted to PLN 339,899 thousand. As at 31.12.2006, this value was equal to PLN 567,341 thousand.

Gross loans and advances to customers – item-by-item structure

The further increase in the share of loans and advances to natural persons in total loans and advances to customer is, as assumed in the strategy, the most important change in the structure of the Group's loan portfolio. As of 31.12.2007, it was at the level of 55.2% (an increase by 6.1 p.p.).

	31.12.2007	31.12.2006	Change in p.p.
Natural persons*	55.2%	49.1%	6.1%
- overdraft facilities	6.2%	8.4%	-2.2%
- purchased debt	0.1%	0.3%	-0.2%
- term loans	11.2%	15.9%	-4.7%
- instalment and cash loans	21.4%	24.2%	-2.7%
- mortgages	61.0%	51.1%	9.9%

- realised guarantees	0.0%	0.0%	0.0%
- other receivables	0.1%	0.1%	0.0%
Corporate customers	42.5%	46.4%	-3.9%
- overdraft facilities	21.6%	18.3%	3.3%

* The item contains: amounts due from private persons, individual entrepreneurs, individual farmers, and non-commercial institutions providing services for households

6.3 The structure of liabilities and equity

At the end of 2007, as in the previous year, amounts due to customers were the main category of liabilities. Over 12 months of 2007, their value increased by 8.1%. At the end of 2007, the share of amounts due to customers in total liabilities and equity amounted to 63.0% (a decrease by 8.1 p.p.).

The share of amounts due to banks (including the central bank) in total liabilities and equity rose substantially. At the end of 2007, it was at the level of 23.6% against 9.7% at the end of 2006. It was a result, to a large extent, of borrowing by Kredyt Bank S.A. two loans from the main shareholder - KBC Bank NV – totalling the equivalent of EUR 500 million. The resources obtained from these loans are to be spent on the development of lending activities, including mainly mortgages.

The sale of shares in investment funds managed by KBC TFI increased significantly in the first half of 2007. The value of investment funds assets sold via the Group increased in 2007 by 36.2% to PLN 3,997.1 million. Taking into account the funds' assets and traditional deposits jointly, an increase in the value of customers' resources obtained by the Group in 2007 amounted to 11.7%. The diagram below illustrates values in PLN '000', at period end.

The value of particular liabilities and equity items is presented in the table below (in PLN '000'):

	31.12.2007	31.12.2006	Change
Amounts due to Central Bank	1 101 661	1 990	55259.8%
Amounts due to banks	5 301 449	2 164 826	144.9%
Derivatives, including:	474 370	296 474	60.0%
- derivatives used as hedging instruments	44 178	554	7874.4%
Amounts due to customers	17 088 638	15 807 263	8.1%
Securities sold under repurchase agreements	50 126	1 033 925	-95.2%
Current tax liability	7 228	961	652.1%
Provisions	161 034	169 226	-4.8%
Deferred tax liability	872	1 146	-23.9%
Other liabilities	272 263	242 340	12.3%
Subordinated liabilities	394 235	421 619	-6.5%
Total equity	2 276 304	2 092 258	8.8%
Total liabilities and equity	27 128 180	22 232 028	22.0%

Amounts due to customers – structure by items and types

No major changes had place in the structure of the Group customers' deposits at the end of 2007. The share of current deposits of natural persons continued to increase.

Amounts due to the Group's customers	31.12.2007	31.12.2006	Change in p.p.
Natural persons*	60.3%	62.1%	-1.8%
- in current account	68.4%	62.2%	6.2%
- term deposits	30.6%	37.5%	-6.9%
- other	1.0%	0.3%	0.7%
Corporate customers	27.7%	26.5%	1.2%
- in current account	52.5%	48.5%	4.0%
- term deposits	47.3%	46.2%	1.2%
- other	0.2%	5.3%	-5.1%
Budget	12.0%	11.4%	0.6%
- in current account	65.0%	76.6%	-11.5%
- term deposits	35.0%	23.4%	11.6%
- other	0.0%	0.0%	0.0
Total	100.0%	100.0%	0.0

* the item contains: amounts due from private persons, individual entrepreneurs, individual farmers, and non-commercial institutions providing services for households

Loans and advances borrowed by the Group

On 05.09.2007 and 28.09.2007, Kredyt Bank S.A. entered into two multicurrency loan agreements with KBC Bank NV, branch in Dublin, up to the amount equivalent to EUR 250 million each. Both loan agreements were concluded on market terms with the 5-year repayment time limit.

6.4 Off-balance sheet items

The value of particular off-balance sheet items is presented in the table below (in PLN '000'):

	31.12.2007	31.12.2006	Change
Contingent liabilities, granted and received	8 226 499	5 063 100	62.5%
1. Liabilities granted, including:	6 002 445	4 561 293	31.6%
a) financial	4 374 464	3 354 667	30.4%
b) guarantees	1 627 981	1 206 626	34.9%
2. Liabilities received	2 224 054	501 807	343.2%
a) financial	902 441	205 139	339.9%
b) guarantees	1 321 613	296 668	345.5%
Liabilities related to sale/purchase transactions	218 165 219	138 370 817	57.7%
Other	3 211 824	3 096 732	3.7%
- guarantees received	3 210 280	3 094 683	3.7%
- other	1 544	2 049	-24.6%

A noticeable increase in the value of off-balance sheet items, mainly amounts due received and related to sale/purchase transactions, is an effect of an increase in the business activity and larger numbers of transactions with customers.

Guarantees and sureties issued, including those granted to the Issuer's related parties

As at 31.12.2007, the Bank issued guarantees with the total value of at least 10% of the Bank's equity to one company and its subsidiaries. The guarantees were issued for the total amount of PLN 278,228 thousand. As at 31.12.2006, the Bank issued guarantees with the total value of at least 10% of the Bank's equity to one company and its subsidiaries. The guarantees were issued for the total amount of PLN 216,261 thousand. The above guarantees were granted on market terms. The Bank's fee for issuing the guarantees was also determined on market terms.

7 Business risks

Risk management at the Capital Group is centralized. Kredyt Bank S.A.'s chief authorities, explicitly the Management Board and the Supervisory Board, play the most important role in the risk management process. The Bank's Supervisory Board, through the Audit Committee, is informed about the most vital decisions and give opinions about the actions of the Management Board in this respect.

Particular risks are dealt with directly by specialised Committees:

- Assets and Liabilities Management Committee – responsible for management of the risk in the banking portfolio as well as management of the Bank's structural liquidity;
- Operating Risk Committee – supervising the management of the operating risk;
- Credit Risk Committee – supervises the credit risk management process.

Members of the Management Board supervise the works of the above committees; there are at least two Board Members in each committee. The Risk Management Department deals with the measurement and monitoring of all types of risks in the Bank. The unit reports all risk-related issues and is fully independent of business units. In the process of the identification, measurement and risk management, the Bank applies techniques relevant to a given type of risk.

In the previous year, the main risk management objectives, policy and processes did not change. The Bank's exposure to credit risk, market risk and operating risk did not change as well. The overriding objectives of the risk management policy concerning mainly the observance of internal and external limits and optimising and mitigating risk in the process of ongoing monitoring are being systematically implemented.

7.1 Credit risk

Credit policy

Kredyt Bank S.A. Capital Group follows a prudent credit risk policy. The main objective is to prevent impairment of loans portfolio and minimize the share of receivables for which individual premises of impairment were identified in total gross loan receivables. The primary assumptions of the credit policy are as follows:

- clear-cut division between sale and credit risk management functions;
- ongoing monitoring and early identification of hazards;
- centralization of decision-making powers in the credit process and in the process of the management of impaired loans portfolio;
- risk diversification;
- limited financing of higher-risk business activities.

Credit risk management

The Bank's credit risk is defined as the risk of non-payment of amounts due if a borrower, guarantors, reinsurer, contractor or an issuer loses its creditworthiness.

Credit risk is managed taking into account the credit risk aspect corresponding to individual transactions and from the portfolio perspective. The process of risk management for individual transactions entails risk assessment for such a transaction and, depending on its level, application of an appropriate decision-making process. The portfolio risk management is the responsibility of the Credit Risk Committee. In particular, the Credit Risk Committee is responsible for the following:

- acceptance and substantial supervision over the methods of credit risk measurement;
- recommending to the Bank's Management Board and the Supervisory Board an admissible level of credit risk in the Bank and subsidiaries;
- expressing opinions on the Bank's credit policy;
- expressing opinions on creation of write-downs and valuation of collateral;
- expressing opinions on internal credit limits;
- changing risk limits and approval of limit exceeds within the powers of the Bank's Management Board;
- substantial supervision over the program of the Bank's adjustment to the requirements of the New Capital Accord related to credit risk;
- approval of the new products in terms of credit risk.

The Bank manages the credit risk, applying different tools. Monitoring of the Bank's exposure concentration in customers or groups of related customers (in accordance with the applicable banking law), and also monitoring of the utilization of the industry exposure concentration limits are among the basic ones. As at 31.12.2007, the limits of the concentration were not exceeded.

To limit the risk of exposure concentration, the Bank tries to expand loan extending activities for SMEs and individual customers.

Except for standard loan collateral included in loan agreements which are in line with the practices in the industry (mortgages, transfers of ownership to secure a loan, registered pledges, sureties, guarantees and assignment of receivables), the Bank does not apply any other loan collateral, e.g. credit derivatives.

The Bank monitors established legal securities of loan transactions by evaluation of the value of approved collateral on the basis of documents lodged by the borrower and internal databases including historic data about the recoverability of collateral.

Since 01.01.2008, the Bank will use the standardized approach to calculate risk weighted assets. The Bank deployed IT tools to calculate capital requirements according to the standardized method, and developed and implemented models which make it possible to determine the parameters necessary to

calculate capital requirements according to the Foundation Internal Ratings Based (FIRB) approach. At the beginning of 2008, the Bank intends to submit a request to the Belgian and Polish banking supervision authorities for the consent to apply the FIRB approach.

The coverage of balance sheet and off-balance sheet receivables with internal ratings as at 31.12.2007 (the table below contains data for rated receivables, i.e. 91.5% of total receivables):

Internal PD rating	Standard & Poors	Total

PD 12		4%
Total		100%

7.2 Liquidity risk

The liquidity risk is strictly associated with activities of any bank. It results, among other things, from the mismatch of assets and liabilities in terms of maturity dates what is a natural effect of varied customers' requirements as regards deposits- and loans-related services. Maintenance of financial liquidity, understood as the ability to timely meet financial liabilities, is the crucial element of the policy on assets and liabilities management applied by the Bank. The current liquidity is maintained through correcting the surplus or shortage of liquid cash by operations conducted on the interbank money market. The Bank's safety calls for the maintenance of liquid reserves as well as the term and quality structure of the whole balance sheet. Decisions related to liquidity risk management are made by the Bank's Assets and Liabilities Management Committee. The Risk Management Department measures and monitors strategic (long-term) liquidity.

The Bank hedges the liquidity risk by:

- maintenance of an appropriate level of cash, taking into account the volume of statutory provisions;
- possession of a proper volume of portfolios of liquid securities (governmental bonds);
- performing transactions on derivatives;

- maintenance of a diversified portfolio of deposits as regards terms and customers;
- access to the interbank market and open market transactions;
- access to the lombard loan.

The support of KBC Group, the strategic investor, is a crucial factor affecting the safety of the Bank operations.

An analysis of the Bank's liquidity is performed mainly on the basis of the liquidity gap report and the assessment of the deposit base stability by, among others, monitoring the mismatch of the maturity dates of assets and liabilities, what makes it possible to forecast the demand for liquid assets and avoid excessive concentration of cash disbursements on a close date.

To facilitate the liquidity monitoring risk, the Bank applies the following liquidity limits:

- Stock Liquidity Ratio (SLR) – short-term liquidity ratio (up to 5 working days);
- Liquidity Mismatch Ratio (LMR) – liquidity ratio (up to 1 month);
- Coverage Ratio (CR) – strategic liquidity ratio which informs about a degree of financing long-term assets with long-term liabilities (2, 3 and 5 years).

The Bank continues works on the methodology of making of a liquidity gap report real. The process of making the gap real is aimed at presenting a more realistic picture of liquidity; the Bank models customers' behaviour (the quantity of revolving term deposits, amounts of extended but still undrawn loans) and takes into account results of those analyses in the picture of the Bank's liquidity.

The stability of the deposits base

A stable deposit base, not affected by seasonal phenomena, is the basic source of the Bank's financing. The diversification of the deposit base allows for the Bank's independence of any specific market segment, customer group or a specific deposit type. Except for Mazowieckie Province, the deposits base is also not concentrated in one specific region. Amounts due from the Group to customers by provinces are as follows:

Province	Deposits structure	Deposits structure
	in %	in %
	31.12.2007	31.12.2006
Mazowieckie	31.4	29.4
Dolnośląskie	8.3	8.8
Małopolskie	7.2	7.1
Pomorskie	6.8	6.7
Łódzkie	6.4	6.2
Wielkopolskie	6.3	6.8
Lubelskie	5.9	5.6
Podlaskie	5.9	5.8
Śląskie	5.8	7.1

Podkarpackie	4.1	4.5

7.3 Market risk

Market risk is defined as a degree of a hazard to the Bank's financial standing resulting from adverse changes in interest rates, exchange rates and prices of shares and their market volatility.

The Bank does not trade on the stock market (investments in shares are long-term investments or investments in strategic subsidiaries). The Bank does not trade on commodity markets. In the Bank, among all types of market risks, we deal with interest rate risk and currency risk. .

The Bank's activity is divided into two parts: Trading Book and Banking Book. Due to different nature of opened positions, the risk is monitored in each book separately.

Trading Book

The Trading Book is a separated part of the Bank's portfolio, where the Bank intends to generate income resulting from short-term changes of prices, interest rates, exchange rates or other market parameters. The main activity of the Trading Book is associated with financial instruments in PLN, and, to a lesser extent, also in USD and EUR.

Value at Risk (VaR) is the basic metric of risk in the trading portfolio. Value at Risk means such a value that the probability of the Bank's loss exceeding this value amounts to 1% (with assumed 99% level of significance - such a level was assumed by the Bank). Value at Risk (VaR) is calculated by historical method in the time horizon of 10 days, taking into account market figures for the previous 500 days. VaR limit for the Trading Book overlaps Global VaR, which includes both the currency risk and the interest rate risk.

VaR (for the whole Trading Book, entails both interest rate risk and currency risk) – data in EUR '000'

Limit		31.12.2007	Data for 2007		
			Average	Minimum	Maximum
VaR	3000.0	1100.42	508.06	175.86	1212.45

Comparable data as at 29.12.2006

VaR (for the whole Trading Book, entails both interest rate risk and currency risk) – data in EUR '000'

Limit		29.12.2006	Data for 2006		
			Average	Minimum	Maximum
VaR	3000.0	237.78	359.85	135.53	1237.61

Trading Book – interest rate risk

The interest rate risk reflects a degree of a hazard to the Bank's financial standing arising from adverse changes in market interest rates.

Additionally, the level of interest rate risk is monitored and limited (by establishment of limits) against BPV (basis point value – price sensitivity to parallel shifts in interest rates on the yield curve).

All above-mentioned limits concern the total Trading Book. The Trading Book Unit in the Cash Management Department managing the Trading Book is divided into two sections (with the primary term of instruments/transactions made at the interbank market as the basic division criterion): Short Term Desk and Long Term Desk. Internal VaR limits and stop-loss (maximum acceptable loss) restrict the activities of particular sections.

In addition, the analysis of the sensitivity of the total Trading Book position to interest rate risk is performed through the calculation of interest rate risk VaR (with the same parameters as Global VaR, i.e. the significance range of 99%, 10-day time horizon and 500-day observance horizon).

The interest rate risk analysis is supplemented by stress-testing which is the amount of possible loss due to extremely adverse (critical) changes in interest rates.

Detailed information about the values of particular risk metrics in the periods covered by the financial statements is included in Note 75 to the consolidated financial statements of Kredyt Bank S.A. Capital Group for 2007.

Interest rate options

The Bank also offers interest rate options. The Bank does not maintain options portfolio for its own account, i.e. it does not pursue speculative activities. Options on the inter-bank market are the options hedging the position resulting from transactions with customers. Therefore, the market risk in the portfolio of interest rate options does not exist.

Trading Book – currency risk

The exchange rate risk is a degree of the risk for the Bank's financial standing resulting from adverse changes in exchange rates on the market. This risk covers income on currency exchange operations and measurement of open foreign exchange items resulting from the difference between the value of assets and liabilities in a given currency. The Bank's foreign exchange item is managed for the Trading Book and the Banking Book jointly. The Bank's foreign exchange item is managed in the Trading Book.

The daily analysis of the sensitivity of the total Trading Book position to currency risk is performed through the calculation of currency risk VaR (with the same parameters as Global VaR, i.e. the significance range of 99%, 10-day time horizon and 500-day observation horizon).

In the event of currency risk, the 'value at risk' method is supplemented daily by stress-testing which is the amount of a possible loss due to extremely adverse (critical) changes in exchange rates. Detailed information about the values of particular risk metrics is included in Note 75 to the consolidated financial statements of Kredyt Bank S.A. Capital Group for 2007.

The Bank also offers foreign exchange options. The Bank does not maintain options portfolio for its own account, i.e. it does not pursue speculative activities. Options on the inter-bank market are the options hedging the position resulting from transactions with customers. Therefore, the market risk in the portfolio of foreign exchange option transactions does not exist.

Banking Book

The Banking Book covers operations not covered by the trading portfolio, i.e. commercial activities of branches, credit intermediaries and the portfolios of securities hedging the liquidity and constant interest income.

Banking Book – interest rate risk

The Bank actively manages the interest rate risk for 5 main currencies of the balance sheet: PLN, EUR, USD, CHF, GBP. An interest rate gap prepared separately for each currency is the basic measurement and risk-limiting tool in the banking portfolio. The following risk metrics are calculated on that basis:

- sensitivity of the measurement of assets and liabilities (BPV);
- duration;
- accumulated gap ratios.

An analysis of the interest rate gap applied in the interest rate risk management of the Banking Book is based on information on particular items of the Bank's balance sheet as well as off-balance items sensitive to changes of interest rates. In the case of financial instruments without a defined maturity date (according to a stability analysis for each type of product), the Bank implemented the model of periodic deposits rollover. This approach towards products allows for effective management of risk associated with this type of instruments and for the generation of constant income from investments of these assets.

Stress-testing and VaR calculations are additional interest rate risk monitoring tools in the Banking Book.

Detailed information about the interest rate risk management methodology and values of particular risk metrics is included in Note 75 to the consolidated financial statements of Kredyt Bank S.A. Capital Group for 2007.

Hedge accounting

As at 31.12.2007, the Bank continued to apply hedge accounting for fair value hedge for asset swaps. The purpose of hedge accounting is to hedge fixed interest rate bonds with IRS, on which the Bank pays a fixed interest rate and receives a floating interest rate.

As at 31.12.2007, the Bank continued to apply hedge accounting of cash flows for asset swaps which consists in the hedging of cash flows resulting from floating interest rate bonds (which involved the conclusion of IRS transaction in which the Bank receives fixed and pays floating interest cash flows).

As at 31.12.2007, the Bank continued to apply hedge accounting also as regards the part of the loans portfolio based on O/N rate. The hedge consists in creating a swap structure composed of a revolving OIS (the Bank pays cash flow based on O/N rate) and a standard IRS transaction in which the Bank pays cash flow based on a floating interest rate adjusted to OIS maturity date and receives fixed interest flows. The hedged risk in this case is an interest rate risk resulting from a change of short-term interest rates.

In the second half of 2007, the Bank began to apply hedge accounting for the portion of mortgage loans based on 3M WIBOR, which involves the conclusion of IRS in which the Bank receives fixed and pays floating interest flows. The hedged risk in this case is the interest rate risk resulting from a change of 3-month interest rate.

Banking Book – currency risk

As mentioned above, the foreign exchange item is managed in the Trading Book. The positions related to the Bank's customers' transactions arising during the day are transferred, via internal transactions, to the Trading Book.

It should be noted here that the currency risk at Kredyt Bank is perceived not only as the risk occurring for an open foreign exchange item, but also as the risk of a change in the value of certain products as a result of changes in exchange rates. In particular, this risk occurs in the case of loans extended in foreign currencies. In order to mitigate credit risk, increasing in the case of the growth in the exchange rate of the loan currency (this also refers to loans granted in PLN, with their value indexed to the foreign currency exchange rate), the loans agreements for institutional customers contain clauses on the establishment of additional collateral or permit to translate the loan, when the customer does not generate income in the loan currency. Additionally, in order to hedge the exchange rate risk the customer is exposed to, derivatives (forwards, options) are offered to him.

In order to mitigate the currency risk on granting mortgages in a foreign currency to individual customers, the Bank, analysing the creditworthiness:

- determines the value of the highest monthly interest and principal repayment instalment for the applied loan with the assumption that the principal of the applied loan is 20% higher,
- the Bank calculates the maximum level of LtV (Loan To Value) ratio on a lower level than for loans in PLN (LtV ratio should be understood as the loan value/collateral value ratio);
- additionally, the applicant is informed about the foreign exchange risk.

Average interest rates in Kredyt Bank S.A. in 2007

Average interest rates of customer deposits calculated as the ratio of interest expense to average annual deposits volume, for the main currencies, were as follows:

	31.12.2007	31.12.2006
PLN	2.9	2.8
EUR	2.3	1.6
USD	3.4	2.6
CHF	0.4	0.2

Average interest rates of customer loans calculated as the ratio of interest income from working loans to average annual loan receivables volume, for the main currencies, were as follows:

	31.12.2007	31.12.2006
PLN	6.5	6.2
EUR	5.5	4.6
USD	6.7	6.8
CHF	4.2	3.8

7.4 Operating risk

The Group defines the operating risk as a possibility of an unexpected influence upon the financial result, as a consequence of maladjustment or unreliability of internal processes, people, technical systems as well as a consequence of external incidents.

Since 01.01.2008, the Group intends to use the standardized approach to calculate operating risk-related capital requirement. As a result, the Bank:

- has implemented a documented operating risk assessment and management system closely related to the Bank's risk management process, and the result of the assessment forms an integral part of the operating risk profile monitoring and control process in Kredyt Bank;
- has specified roles and responsibilities of employees within this system;
- keeps a record of operating events and losses resulting from the operating risk;

- has its operating risk assessment and management system regularly reviewed by independent auditors.

Operating risk coordinators, directly supporting the management staff of business units, play a crucial role in applying operating risk management tools and techniques.

The infrastructure of management and methodology are coherent within the Bank and its subsidiaries. Identification and operating risk rating tools are identical. The whole process is supervised by the Operating Risk Committee which is managed by the President of the Management Board.

8 Financial ratings for the Group's parent company

As at 31.12.2007, Kredyt Bank S.A. obtained the following financial ratings:

Moody's Investors Service

Long-term deposits rating	<u>A2</u>
Short-term deposits rating	<u>P1</u>
Financial strength	<u>D</u>
Outlook rating	<u>Stable</u>

On 23 February 2007, due to the implementation of a new ratings calculations methodology, Moody's Investors Service changed the financial strength rating of Kredyt Bank S.A. from 'D-' to 'D'. Long- and short-term ratings for deposits remained unchanged at the level of A2/P-1 respectively with stable outlook.

A2 rating denotes good capacity to pay liabilities and P-1 rating means perfect ability to pay current liabilities.

Fitch Ratings

Long-term ranking	<u>A+</u>
Short-term ranking	<u>F1</u>
Support ranking	<u>1</u>
Individual ranking	<u>D</u>
Outlook for long-term ranking	<u>Stable</u>

On 28.02.2007, Fitch Ratings confirmed the above ratings for Kredyt Bank S.A. The outlook for the above rating remains stable.

Fitch Ratings underlined that company rating (scale: AAA to D) and short-term rating (scale: F1 to D) indicated high creditworthiness of the Bank, entailed the support from the strategic investor, i.e. KBC Bank NV, which is rated by Fitch Ratings at 'AA-' with a stable outlook.

The individual rating 'D' (scale: A to D) signifies a potential possibility of the occurrence of such a situation in the future which might require the external support for the Bank. And the support rating '1' (scale: 1 to 5) denotes a very high probability of obtaining external support by the Bank.

Fitch Ratings stressed that the Bank's focus on the increase in sales was reflected in slowing down the decrease in the market share, while the Bank's demand for risk remained at a conservative level.

9 Corporate governance

The Management Board of Kredyt Bank S.A. treats the application of Corporate Governance rules in the management process as important. Corporate Governance is to be as a set of regulations necessary to maintain proper relations between interests of all entities and natural persons involved in running the company's operation.

According to the Management Board, a proper distribution of proportions between executives, shareholders, customers and employees is an essential factor leading to stable development of the Bank in the long term and, accordingly, to an increase in its value as a stable and effective partner.

Corporate Governance rules

In 2007, Kredyt Bank S.A. applied corporate governance rules, developed by the Good Practices Committee and recommended by the Warsaw Stock Exchange, concerning joint stock companies admitted to stock exchange trading set forth in the document "The 2005 Best Practices in Public Companies". On 27.06.2007, the Management Board of Kredyt Bank S.A submitted, in the form of a current report, a statement on the application of corporate governance rules in Kredyt Bank S.A., set forth in the Resolution of the General Meeting of Shareholders of Kredyt Bank S.A. of 25 April 2005, having regard for amendments in the application of Rules 42 and 43. The Bank pledged to fully observe 47 out of 48 Rules. In the case of Rule No. 20 which specifies the role of independent members of the Supervisory Board, the Bank respects provisions with reference to the number of independent members in the Supervisory Board. As many as five of nine members of the Supervisory Board are not connected with the Bank's strategic shareholder, with the Bank or with its employees. The bank, in its statement, informed about the present works on the definition of detailed independence criteria.

Since 1 January 2008, the Warsaw Stock Exchange has introduced new corporate governance rules in the document entitled "Good Practices of Companies Listed on the Warsaw Stock Exchange". The document was approved on 4 July 2007 by virtue of Resolution No. 12/1170/2007 of the Supervisory Board of the Warsaw Stock Exchange. In the „Good Practices", the independence criterion is defined according to Annex II to the European Commission Recommendation of 15 February 2005. According to this definition, as at 01.01.2008, the Bank observes Rule No. 20.

Under the corporate governance rules, the Bank adopted the By-laws of the Management Board, of the Supervisory Board and of the General Meeting of Shareholders.

The Supervisory Board function comprises the Audit Committee and the Remunerations Committee. If needed, the Supervisory Board can also appoint other Committees, determine their powers and

procedures. The Audit Committee supervises the activities of the Bank's organizational units responsible for internal audit, risk management and compliance function. The Remunerations Committee supervises employees issues and salaries, especially salaries of the Bank's Managements Board Members.

The By-laws of the Bank's General Meeting of Shareholders determine detailed rules of conducting the meeting and adopting the resolutions. The By-laws determine, among other things, rules of shareholders' participation in the General Meeting and detailed regulations concerning the appointment of the Supervisory Board by voting in separate groups.

The Bank, observing the corporate governance rules, also presents on its website, in investor relations section, periodical and current stock exchange reports, current reports, basic internal regulations and other information which make it possible to reliably evaluate the company's operations.

Compliance function

The Bank, as a public trust institution, is specially obligated to run business in ethical way and to comply with applicable laws and social standards.

The compliance function in Kredyt Bank S.A. involves the control of the compliance of the Bank's operations with the present law and internal regulations. The Compliance Department established in November 2003 supports the Bank's Management Board in the process of implementing new standards and procedures stipulated in the EU and Polish law (the Banking Law and Resolutions of the Commission for Banking Supervision) as well as the assumptions of the policy of KBC – the Belgian banking and insurance group which comprises Kredyt Bank S.A.

The Compliance Department runs activities aimed at monitoring and promotion of the Bank's observance of regulations governing fair and ethical banking activities. The main document for employees is titled "The Ethical Code for Kredyt Bank's Employees" which contains ethical principles arising from generally accepted moral norms and specifying integrity, loyalty, professionalism, reliability and care as the basic principles for the Bank's employees, regardless of their positions or functions.

The Bank implements the compliance function by managing the risk of non-compliance in the following areas:

- counteracting money laundering and terrorism financing;
- professional ethics;
- banking-related offences;
- the protection of banking and professional secrets;
- personal data protection;
- employees' own transactions;
- market abuse, i.e. insider trading and price manipulation;
- tax-related fraud;
- performing functions in authorities of third party companies (incompatibility of mandates).

The management of the non-compliance risk in the above areas is ongoing and covers the whole operations of the Bank and its subsidiaries.

Corporate Social Responsibility

Sponsoring and charitable campaigns play a major role in the communication strategy of Kredyt Bank Group and Warta Group. Both companies approved and have implemented a common policy in this area.

Social measures are implemented in the areas recognised by the society as important, consistent with the values represented by Kredyt Bank and Warta brands and the profiles of the business carried by both companies.

The campaigns are realised independently or jointly within "Razem możemy więcej" ("Together we can more") Foundation of Kredyt Bank and Warta. The foundation is a NGO involved in public interest activities in the area of education, culture, charity and other similar purposes. The foundation, established in 1999 by Towarzystwo Ubezpieczeń i Reasekuracji WARTA, was transformed in January 2007 into a joint corporate foundation of Warta and Kredyt Bank.

In 2007, Kredyt Bank and Warta were involved in sponsoring a concert of Genesis, a legendary rock group. Disabled persons were invited to participate in the event; a special sector and platform were assigned to them. The project was supplemented by the publication of a collection of Genesis' albums. With the support of the companies, we also organized two concerts of the New Chamber Orchestra conducted by Christopher Hogwood.

In 2007, the companies initiated an employee voluntary programme under which employees' ideas and initiatives in this area are supported financially. It was created to support projects of local institutions and organisations in which the Bank's employees are engaged.

To support talented students and PhD students as well as the development of scientific research in the field of banking and insurance, we organise an annual nationwide contest for the best MA and PhD thesis concerning insurance, banking and bancassurance.

Campaigns for children are of special interest within the social activities of Kredyt Bank and Warta Group. In 2007, in cooperation with Stowarzyszenie Laboratorium Troski, the companies implemented a social and educational project for pupils from grades 1-3 of primary schools with a view to prevent accidents involving children and to protect children's health. The campaign called "Akademia Misia Ratownika" ("The Academy of Teddy Bear-Rescuer") engaged over 6,000 children from Małopolskie Province.

For a few years now, KB and Warta have been organising, under the motto "Moje wymarzone Boże Narodzenie" ("My perfect Christmas"), a contest for children from 25 children's homes from Poland to design a Christmas card, which is supported, to a great extent, by employees of both companies. The best postcard becomes the official Christmas postcard of Kredyt Bank and Warta Group. Both companies backed the campaign of *Dziennik* daily called "Listy do Św. Mikołaja" ("Letters to Santa Clause"). For many years now, Kredyt Bank S.A., in cooperation with ZET Radio, has also been organising a Christmas contest – "Wymarzony prezent" ("A Present of your Dreams").

Kredyt Bank is also involved in the promotion of Belgian culture. The Bank has been a member of the Belgian Business Chamber for years now and sponsors "Belgian Days". Our company has also been supporting the organisation of the Polish Ball in Brussels.

10 The outlook and growth drivers for Kredyt Bank S.A. Capital Group

External drivers

In 2007, the banking sector recorded a high growth rate due to household loans. In 2008 and further years, it will depend more on corporate loans⁷.

The present good situation of banks is a natural effect of the high economic growth rate and may deteriorate in the case of less advantageous macro-economic conditions. In the past 2 years, the financial sector has developed in the context of stable risk resulting from a decrease in unemployment, low interest rates and high liquidity. The present crisis of trust towards global institutions will result in the situation in Poland when banks, although their financial standing was not damaged, will operate in the context of greater uncertainty. Changing presumptions concerning the direction in which interest rates are going to change are a sign of such uncertainty, which will limit the possibility of valuing assets to a great extent. A strong flow of negative signs on an international level should be highlighted here.

An increase in income of households and very good conditions on stock markets in the first half of 2007 resulted in the shift of household savings to higher-risk investments: shares, investment funds and unit funds in unit-linked insurance plans. The downturn of stock exchange vibes in response to the disturbances of global financial markets made the banks face a new situation, i.e. the slowdown of commissions growth rates and price-based competition to take over and manage cash flows withdrawn by customers from the equity market. These trends will probably persist throughout 2008.

In the next year, the trend of increasing income from core business should continue, mainly due to customers' interest in retail loans still being observed now. The present situation on the loans market shows that, in view of the expected decrease in the effective demand on the housing market (as a result of a more limited loan availability of houses and flats for households), banks forecast a decrease in demand for such loans. Consumer loans, along with mortgages, are a priority for the development of the majority of banks in Poland. The banks forecast a further strong increase in the demand in this market segment. We should presume that lending institutions will more often offer their products to less wealthy customers. In a longer-term period of price-related competition, it means that customer bases will also expand to include higher-risk groups. Banks will have to take account of this risk in their operations.

The banks' liquidity ratios, which measure the capability of paying short-term liabilities and medium-term conditions of business financing, deteriorated in 2007. The loans/deposits ratio for the non-financial sector exceeded 100%. The fast growth rate of the lending activities will probably contribute to the continuation of the observed trends in the future. It seems that the banks' growing demand for external financing and the growing cost of such financing will become structural features of the development of the banking market in the years to come.

⁷ The inflow of financial resources of over EUR 80 million from the European Union will be a vital structural driver.

Internal drivers

Internal drivers material for the development of the Group include more wide-spread and in-depth cooperation with WARTA S.A., aimed to develop bancassurance services, establish a banking and insurance group and optimise the synergy effect. Apart from the cooperation in terms of sales and customer service, the Bank continued organizational changes in Kredyt Bank S.A. Group and WARTA S.A. Group to better adjust the management model to the needs resulting from the implemented bancassurance business model. The changes aim at the maximum use of synergy effects both in the sales network and support function.

Reorganization of consumer finance function in cooperation with Żagiel and on the basis of the experience and know-how of KBC Group, the main shareholder of Kredyt Bank S.A., that was implemented in 2007 is another key growth driver for Kredyt Bank S.A. Capital Group.

One of the financial objectives of Kredyt Bank S.A. Capital Group is to accomplish better effectiveness as measured with the costs/income ratio. The implementation of the adopted strategy of income growth depends, among other factors, on termination of the outlets chain development programme. The following issues will affect strategic objectives: the continuation of effective credit risk management and ongoing control and adjustment of operating costs to the scale of operations.

11 Statements of the Management Board

Under art. 96.1.5 and art. 96.1.6 of the Ordinance by the Minister of Finance of 19 October 2005 on current and interim information provided by issuers of securities (Journal of Laws of No. 209, item 1744), the Management Board of Kredyt Bank S.A. hereby makes the following statements:

11.1 True and fair view presented in the financial statements

According to the best knowledge of the Management Board of Kredyt Bank S.A., the annual consolidated financial statements of Kredyt Bank S.A. Capital Group for the period 01.01.2007-31.12.2007 along with the comparable data, were prepared according to the accounting principles effective in the Group and present a true and fair view of the financial standing and assets of Kredyt Bank S.A. Capital Group as well as of its financial result. In addition, the Management Board of Kredyt Bank S.A. hereby declares that the annual Management Board's report presents a true picture of the development and accomplishments, as well as the situation (including the description of basic risks and threats) of Kredyt Bank S.A. Capital Group in 2007.

11.2 Appointment of the certified auditor for financial statements

The Management Board of Kredyt Bank S.A. hereby declares that the certified auditor to audit the annual consolidated financial statements of Kredyt Bank S.A. Capital Group as at 31.12.2007 was appointed as required by law. This entity and certified auditors performing the audit complied with the conditions on the issue of impartial and independent audit report, as required by the Polish law.

Signatures of all Management Board Members

date	29.02.2008	Ronald Richardson	President of the Management Board
date	29.02.2008	Umberto Arts	Vice President of the Management Board
date	29.02.2008	Krzysztof Kokot	Vice President of the Management Board
date	29.02.2008	Michał Oziembło	Vice President of the Management Board

KREDYT BANK S.A. CAPITAL GROUP

**LONG-FORM AUDITORS' REPORT
SUPPLEMENTING THE INDEPENDENT AUDITORS' OPINION
ON THE CONSOLIDATED FINANCIAL STATEMENTS
FOR THE YEAR ENDED 31 DECEMBER 2007**

I. GENERAL NOTES

1. Background

The holding company of the Kredyt Bank S.A. Capital Group (hereinafter 'the Group' or 'the Capital Group') is Kredyt Bank S.A. ('the holding company', 'the Bank').

The holding company was incorporated on the basis of a Notarial Deed dated 4 September 1990. The holding company's registered office is located in Warsaw, Kasprzaka 2/8 Street.

The holding company is an issuer of securities as referred to in art. 4 of the Regulation (EC) No 1606/2002 of the European Parliament and of the Council of the European Union of 19 July 2002 on the application of international accounting standards (EC Official Journal L243 dated 11 September 2002, page 1, polish special edition chapter 13, title 29 page 609) and, based on the article 55.6a of the Accounting Act dated 29 September 1994 (uniform text: Journal of Laws of 2002, No. 76 with subsequent amendments – 'the Accounting Act'), prepares consolidated financial statements of the Group in accordance with International Financial Reporting Standards as adopted by the EU.

The holding company was entered in the Register of Entrepreneurs of the National Court Register under No KRS 0000019597 on 12 June 2001.

The holding company was issued with tax identification number (NIP) 527-02-04-057 on 14 June 1993 and statistical number (REGON) 006228968 on 15 December 1999.

The holding company is part of the KBC Bank N.V. capital group.

The principal activities of the holding company are as follows:

- accepting call (demand) or term deposits and keeping deposit accounts,
- keeping other types of bank accounts,
- extending loans,
- extending and confirming bank guaranties, letters of credit and sureties,
- issuing bank securities, including in non material form,
- performing bank settlements,
- operations including cheques and bills of exchange, as well as operations with warrants,
- issuing payment cards and performing operations using such cards,
- performing forward financial operations,
- purchasing and disposing of debt,
- storing valuable items and securities and renting safe deposit box,
- purchasing and selling of foreign exchange,
- intermediation in money transfers and settlements in foreign exchange trade,
- performing commissioned services relating to issuance of securities,
- extending cash loans,
- issuing electronic money instruments,
- acting as a bank - representative of bond holders,
- taking over or purchasing shares and rights arising from banks' shares and other rights from shares from other legal entities or participation units in investment funds,

- purchasing securities on own account or third parties, dealing with those securities, keeping securities accounts and intermediation in the conclusion and execution of securities accounts agreements.
- performing brokerage activities,
- incurring liabilities relating to the issuance of securities,
- acting as a trustee in dealing with securities, realizing commissioned services relating to the management of securities and other financial instruments, exercising rights arising from these securities on behalf of Banks' clients and on their request,
- performing lease operations, factoring, underwriting and forfaiting, as well as acting as an intermediary in this areas,
- managing investments and pension funds, serving as intermediary for investment funds, acting as depositary for investment and pension funds, keeping accounting books and members registers for funds, serving as payment agent for foreign investment funds,
- insurance agency activities for individuals and corporations,
- acquisition for open pension funds,
- performing, in accordance with the agreement with debtors, conversion of liabilities to parts of debtor assets in line with the Banking Law,
- acquiring and disposing of real estate,
- financial consulting and advisory services,
- intermediation in performing banking services for other banks and financial services for other banks, credit and financial institutions.

The operations of the Group's subsidiaries, jointly controlled entities and associates include the following activities:

- Żagiel S.A. – intermediary financial services including instalment sales of goods and services, renting properties and selling materials and goods,

- Reliz Sp. z o.o. – financial and developer advisory services, market research and valuations, managing of commercial real estates, an intermediation in renting of commercial areas and sale of flats on the primary market. Moreover, Reliz manages an office building called ALTUS.

As at 31 December 2007, the Bank's issued share capital amounted to 1,358,294 thousand zlotys and it comprised of 271,658,880 shares with a nominal amount of 5 zlotys each. Group's equity as at that date amounted to 2,276,304 thousand zlotys.

In accordance with the excerpt from the Shares Register of 12 February 2008, the ownership structure of the Bank's issued share capital, as at 31 December 2007, was as follows:

	Number of shares	Number of votes	Par value of shares	% of issued share capital
KBC Bank N.V. (Brussels)	217,327,103	217,327,103	1,086,635,515	80.00%
Sofina S.A.	15,014,772	15,014,772	75,073,860	5.53%
Other	39,317,005	39,317,005	196,585,025	14.47%
	-----	-----	-----	-----
Total	271,658,880	271,658,880	1,358,294,400	100.00%
	=====	=====	=====	=====

On 18 December 2007 the Management Board of Kredyt Bank S.A. was informed by Pioneer Pekao Investment Management S.A. ('PPIM' located in Warsaw) that on 17 December 2007 PPIM exceeded the 5% level of votes at the General Shareholders' Meeting of Kredyt Bank S.A. relating to financial instruments in comprising the portfolios managed by PPIM in relation to the brokerage commissioned services performed by PPIM, or services performed on the base of the agreement between Pioneer Pekao Towarzystwo Funduszy Inwestycyjnych S.A. and PIMM concerning the performance of brokerage services.

On behalf of funds managed by Pioneer Pekao Investment Management S.A., PPIM reported an increase of the engagement above 5.001% of votes at the General Shareholders' Meeting of Kredyt Bank S.A. The total of these votes belongs to the above mentioned investment funds, which portfolios are sub-group of all portfolios of PPIM Clients.

The total involvement amounts to 13,674,064 shares of Kredyt Bank S.A. and equals to 5.03% of votes at the General Shareholders' Meeting and share capital of Kredyt Bank S.A. The above mentioned number of votes belongs to all Clients of Pioneer Pekao Investment Management S.A – in relation to the portfolios managed by PPIM.

As at 29 February 2008, the Bank's Management Board was composed of:

Ronald Richardson	- President
Umberto Arts	- Vice-President
Krzysztof Kokot	- Vice-President
Michał Oziębło	- Vice-President

On 6 April 2007 Mr Konrad Kozik resigned from the position of Vice-President of the Management Board of Kredyt Bank S.A. as well as from the membership in the Bank's Management Board effective from 27 April 2007.

During the meeting held on 18 April 2007 the Bank's Supervisory Board dismissed Mr Bohdan Mierzwiński from the position of Vice-President of the Management Board of

Kredyt Bank S.A. as well as from the membership in the Bank's Management Board effective from 18 April 2007.

On 5 June 2007 the Supervisory Board of Kredyt Bank S.A. temporary delegated Mr Andrzej Witkowski, the President of Supervisory Board to the function of the member of the Management Board of Kredyt Bank S.A. starting from 1 July 2007. 30 September 2007 was the last day of the temporary delegation of Mr Andrzej Witkowski to the function of the member of the Management Board of Kredyt Bank S.A. Due to the above, during the meeting of 26 September 2007 the Bank's Supervisory Board, in accordance with its rights resulting from § 25 point 2 of the Bank's Statutes, decided that from 1st of October 2007 the Management Board of Kredyt Bank S.A. would consist of four members till the appointment of a new member of the Bank's Management Board.

On 18 December 2007, during the Supervisory Board meeting Mr Ronald Richardson resigned from the function of President of the Bank's Management Board as well as from the membership in the Bank's Management Board effective from 29 February 2008.

During the meeting of 18 December 2007 the Bank's Supervisory Board appointed Mr Maciej Bardan for the position of the Management Board's President starting from 1 March 2008. At the same time the Supervisory Board applied to the Commission for Banking Supervision for the approval of taking the position of Management Board's President by Mr Maciej Bardan.

2. Group structure

As at 31 December 2007, the Kredyt Bank S.A. Capital Group consisted of the following subsidiaries (direct or indirect) and jointly controlled entities (not commercial entities):

Entity name	Consolidation method	Type of opinion	Name of authorised entity that audited financial statements	Balance sheet date
Żagiel S.A.	full	audit in progress	Ernst & Young Audit Sp. z o.o.	31.12.2007
Kredyt Lease S.A.	full	audit in progress	Ernst & Young Audit Sp. z o.o.	31.12.2007
Kredyt Trade Sp. z o.o.	full	audit in progress	Ernst & Young Audit Sp. z o.o.	31.12.2007
Kredyt International Finance B.V.	full	not audited	not audited	31.12.2007
Reliz Sp. z o.o.	full	audit in progress	A. M. Jesiółowscy – Finanse Sp. z o.o.	31.12.2007

As at 31 December 2007 shares in the following associates (direct and indirect) were recognised in the Group's consolidated financial statements using the equity method:

Name and registered office

Type of activity

KBC Towarzystwo Funduszy Inwestycyjnych S.A. Investment funds management

Details of the type and impact of changes in entities included in the consolidation as compared to the prior year may be found in Note 6 of the summary of additional notes and explanations to the consolidated financial statements of the Group for the year ended 31 December 2007.

3. Consolidated Financial Statements

3.1 Auditors' opinion and audit of consolidated financial statements

Ernst & Young Audit sp. z o.o. with its registered office in Warsaw, at Rondo ONZ 1, is registered on the list of entities authorised to audit financial statements under No 130.

Ernst & Young Audit sp. z o.o. was appointed by Supervisory Board on 18 April 2007 to audit the Group's consolidated financial statements.

Ernst & Young Audit sp. z o.o. and the certified auditor in charge of the audit meet the conditions required to express an impartial and independent opinion on the consolidated financial statements, as defined in Art. 66, clause 2 and 3 of the Accounting Act.

Under the contract executed on 10 May 2007 with the holding company's Management Board, we have audited the consolidated financial statements for the year ended 31 December 2007.

Our responsibility was to express an opinion on the consolidated financial statements based on our audit. The auditing procedures applied to the consolidated financial statements were designed to enable us to express an opinion on the consolidated financial statements taken as a whole. Our procedures did not extend to supplementary information that does not have an impact on the consolidated financial statements taken as a whole.

Based on our audit, we issued an auditors' unqualified opinion dated 29 February 2008, stating the following:

“To the Supervisory Board of Kredyt Bank S.A.

1. We have audited the attached consolidated financial statements of Kredyt Bank S.A Capital Group ('the Group'), for which the holding company is Kredyt Bank S.A. ('the Bank') located in Warsaw, Kasprzaka 2/8 Street, for the year ended 31 December 2007 containing:
 - the consolidated income statement for the period from 1 January 2007 to 31 December 2007 with a net profit amounting to 390,539 thousand zlotys,
 - the consolidated balance sheet as at 31 December 2007 with total assets amounting to 27,128,180 thousand zlotys,
 - the consolidated statement of changes in equity for the period from 1 January 2007 to 31 December 2007 with a net increase in equity amounting to 184,046 thousand zlotys,

- the consolidated cash flow statement for the period from 1 January 2007 to 31 December 2007 with a net cash inflow amounting to 420,044 thousand zlotys and
 - the summary of significant accounting policies and other explanatory notes ('the attached consolidated financial statements').
2. The truth and fairness¹ of the attached consolidated financial statements and the proper maintenance of consolidation documentation are the responsibility of the Bank's Management Board. Our responsibility was to audit the attached consolidated financial statements and to express an opinion whether, based on our audit, these financial statements are, in all material respects, true and fair².
3. We conducted our audit of the attached consolidated financial statements in accordance with the following regulations being in force in Poland:
- chapter 7 of the Accounting Act, dated 29 September 1994 ('the Accounting Act'),
 - the auditing standards issued by the National Chamber of Auditors,
- in order to obtain reasonable assurance whether these financial statements are free of material misstatement. In particular, the audit included examining, to a large extent on a test basis, documentation supporting the amounts and disclosures in the attached consolidated financial statements. The audit also included assessing the accounting principles adopted and used by the Group and significant estimates made by the Bank's Management Board, as well as evaluating the overall presentation of the attached consolidated financial statements. We believe our audit has provided a reasonable basis to express our opinion on the attached consolidated financial statements treated as a whole.
4. In our opinion, the attached consolidated financial statements, in all material respects:
- present truly and fairly all information material for the assessment of the results of the audited Group's operations for the period from 1 January 2007 to 31 December 2007, as well as its financial position³ as at 31 December 2007;
 - have been prepared in all material aspects correctly, i.e. in accordance with International Financial Reporting Standards as adopted by the European Union;
 - are in respect of the form and content, in accordance with the legal regulations governing the preparation of financial statements.
5. We have read the Directors' Report on the Group's operations for the period from 1 January 2007 to 31 December 2007 and the rules of preparation of annual consolidated financial statements ('the Directors' Report') and concluded that the information derived from the attached consolidated financial statements reconciles with these financial statements. The information included in the Directors' Report corresponds with the relevant regulations of the Decree of the Minister of Finance of 19 October 2005, on current and periodic information published by issuers of securities (Journal of Law No 209, item 1744)."

We conducted the audit of the consolidated financial statements during the period from 5 November 2007 to 29 February 2008. We were present at the Bank's head office from 12 November 2007 to 7 December 2007 and from 2 January 2008 to 29 January 2008.

3.2 Representations provided and data availability

The Management Board of the holding company confirmed its responsibility for the truth and fairness⁴ of the consolidated financial statements and the correctness of consolidation documentation. The Management Board stated that it provided us with all financial statements of the Group companies included in the consolidated financial statements, consolidation documentation and other required documents as well as all necessary explanations. We also obtained a written representation dated 29 February 2008, from the Management Board of the holding company confirming that:

- the information included in the consolidation documentation was complete,
- all contingent liabilities had been disclosed in the consolidated financial statements, and
- all material events from the balance sheet date to the date of the representation letter had been disclosed in the consolidated financial statements,

and confirmed that the information provided to us was true and fair to the best of the holding company Management Board's knowledge and belief, and included all events that could have had an effect on the consolidated financial statements.

3.3 Consolidated financial statements for prior financial year

The consolidated financial statements of the Group for the year ended 31 December 2006 were audited by Dorota Snarska-Kuman, Certified Auditor No 9667/7232, acting on behalf of Ernst & Young Audit sp. z o.o. located in Warsaw, Rondo ONZ 1, No 130 in the auditors' register. The certified auditor issued an unqualified opinion on the consolidated financial statements for the year ended 31 December 2006. The consolidated financial statements for the year ended 31 December 2006 were approved by the General Shareholders' Meeting on 5 June 2007.

The consolidated financial statements of the Group for the financial year ended 31 December 2006, together with the auditors' opinion, a copy of the resolution approving the consolidated financial statements and the Directors' Report, were filed on 15 June 2006 with the National Court Register.

The introduction to the consolidated financial statements, the consolidated balance sheet as at 31 December 2006, the consolidated profit and loss account, the statement of changes in consolidated equity and the consolidated cash flow statement for the year ended 31 December 2006, together with the auditors' opinion and a copy of the resolution approving the financial statements were published in Monitor Polski B No 1602 on 2 October 2007.

4. Analytical review

4.1 Basic data and financial ratios

Presented below are selected financial ratios indicating the economic or financial performance of the Group for the years 2005 – 2007. The ratios were calculated on the basis of financial information included in the financial statements for the years ended 31 December 2006 and 31 December 2007.

	2007	2006	2005
Total assets	27,128,180	22,232,028	20,841,344
Shareholders' equity	2,276,304	2,092,258	1,681,595
Net profit	390,539	468,090	415,878
Capital adequacy ratio according to NBP methodology	9.71%	13.69%	16.42%
Profitability ratio	51.50%	49.51%	36.07%
<div>Profit before taxation</div> <div>Total costs</div>			
Costs to income ratio	67.45%	67.90%	73.01%
<div>Total costs</div> <div>Operating income</div>			
Return on equity (ROE)	17.88%	24.81%	26.00%
<div>Net profit</div> <div>Average shareholders' equity</div>			
Return on assets (ROA)	1.58%	2.17%	1.99%*
<div>Net profit</div> <div>Average assets</div>			
Rate of inflation			
Yearly average	2.5%	1.0%	2.1%
December to December	4.0%	1.4%	0.7%

*Average assets for 2005 were calculated on basis of the total assets as at 31 December 2004 presented in consolidated financial statement for the year ended 31 December 2005 prepared in accordance with International Accounting Standards.

4.2 Comments

The following trends may be observed based on the above financial ratios:

- Net profit for 2007 amounted to 390,539 thousand zlotys in comparison to the net profit of 468,090 thousand zlotys in 2006 and 415,878 thousand zlotys in 2005.
- Compared to 2006 and 2005, there was an increase in the Group's total assets. The total assets as at 31 December 2007 amounted to 27,128,180 thousand zlotys.
- The profitability ratio increased from 36.07% in 2005 to 49.51% in 2006 and 51.50% in 2007.
- Cost to income ratio decreased to 67.45% in 2007 as compared with 67.90% in 2006 and 73.01% in 2005.
- In 2007 return on equity ratio decreased to 17.88% as compared with 24.81% in 2006 and 26.00% in 2005.
- Return on asset ratio increased from 1.99% in 2005 to 2.17% in 2006 and decreased to 1.58% in 2007.
- The Group's solvency ratio amounted to 9.71% as at 31 December 2007 as compared with 13.69% at the end of 2006 and 16.42% at the end of 2005.

4.3 Going concern

Nothing came to our attention during the audit that caused us to believe that the holding company is unable to continue as a going concern for at least twelve months subsequent to 31 December 2007 as a result of an intended or compulsory withdrawal from or a substantial limitation in its current operations.

In Note 7.2 of the additional notes and explanations to the audited consolidated financial statements for the year ended 31 December 2007, the Management Board of the holding company has stated that the financial statements of the Group entities included in the consolidated financial statements were prepared on the assumption that these entities will continue as a going concern for a period of at least twelve months subsequent to 31 December 2007 and that there are no circumstances that would indicate a threat to its continued activity.

4.4 Application of regulations mitigating banking risk

As at 31 December 2007, the regulations of the Banking Law, the Resolutions of the Management Board of the National Bank of Poland and Resolutions of the Commission for Banking Supervision envisaged banking regulatory norms in relation to the following items:

- level of currency positions,
- concentration of credit risk,
- concentration of investments in shares,
- classification of loans and issued guarantees and suretyships to risk categories, recognition of provisions related to banking operations,
- solvency,
- level of obligatory reserve,

- capital adequacy.

During our audit we have not identified any facts indicating that during the period from 1 January to 31 December 2007 the Bank did not comply with the above regulations. In addition, we have received written representation from the Bank's Management Board that during the year the banking regulatory norms were not breached.

4.5 Correctness of calculation of solvency ratio

During our audit we have not identified any irregularities in relation to the calculation of the capital adequacy ratio as at 31 December 2007 in accordance with Resolution no 1/2007 of the Commission for Banking Supervision dated 13 March 2007 on the scope of the capital requirements against particular risks and the detailed principles to be applied in determining those requirements, including but not limited to the scope and conditions of applying statistical methods and the scope of information attached to an application for authorization to apply them, principles and conditions of taking account of contracts on debt assignment, subparticipation, credit derivative and contracts other than those on debt assignment, subparticipation, in calculating the capital requirements, terms and conditions, scope and manner of making use of the ratings assigned by external credit assessment institutions and the export credit agencies, manner and specific principles of calculating the solvency ratio of a bank, the scope and manner of taking account of banks conducting their activities in groups in calculating their capital requirements as well as establishing additional items of bank balance sheets presented jointly with bank regulatory own funds in the calculation of capital adequacy, the amount thereof and the conditions of setting them (Official Journal of the National Bank of Poland No 2, item 3, dated 30 March 2007).

II. DETAILED REPORT

1. Completeness and accuracy of consolidation documentation

During the audit no material irregularities were noted in the consolidation documentation which could have a material effect on the audited consolidated financial statements, and which were not subsequently adjusted. These would include matters related to the requirements applicable to the consolidation documentation (and in particular eliminations relating to consolidation adjustments).

2. Accounting policies for the valuation of assets and liabilities

The Group's accounting policies and rules for the presentation of data are detailed in note 7 of the additional notes and explanations to the Group's consolidated financial statements for the year ended 31 December 2007.

3. Structure of assets, liabilities and equity

The structure of the Group's assets and equity and liabilities is presented in the audited consolidated financial statements for the year ended 31 December 2007.

The data disclosed in the consolidated financial statements reconciles with the consolidation documentation.

3.1 Goodwill on consolidation and amortisation

The method of determining goodwill on consolidation, the method on determining impairment of goodwill, the impairment charged in the financial year and up to the balance sheet date were presented in notes 7.14 and 41 of the additional notes and explanations to the consolidated financial statements.

3.2 Shareholders' funds including minority interest

The amount of shareholders' funds is consistent with the amount stated in the consolidation documentation and appropriate legal documentation. As at 31 December 2007, there was no minority shareholders' interest.

Information about shareholders' funds was presented in note 52 of the additional notes and explanations to the consolidated financial statements.

3.3 Financial year

The financial statements of all Group companies forming the basis for the preparation of the consolidated financial statements were prepared as at 31 December 2007 and include the financial data for the period from 1 January 2007 to 31 December 2007.

4. Consolidation adjustments

4.1 Elimination of inter-company balances (receivables and liabilities) and inter-company transactions (revenues and expenses) of consolidated entities.

All eliminations of inter-company balances (receivables and liabilities) and inter-company transactions (revenues and expenses) of the consolidated companies reconcile with the consolidation documentation.

4.2 Elimination of unrealised gains/losses of the consolidated companies, included in the value of assets, as well as relating to dividends

All eliminations of unrealised gains/losses of the consolidated companies, included in the value of assets, as well as relating to dividends reconcile with the consolidation documentation.

5. Disposal of all or part of shares in subordinated entity

During the financial year the Group did not sell any shares in subordinated entities.

6. Items which have an impact on the group's result for the year

Details of the items which have an impact on the Group's result for the year have been included in the audited consolidated financial statements for the year ended 31 December 2007.

7. The appropriateness of the departures from the consolidation methods and application of the equity accounting as defined in International Financial Reporting Standards as adopted by the EU

During the process of preparation of the consolidated financial statements there were no departures from the consolidation methods or application of the equity accounting

8. Issues specific for the audit of banks

We have addressed the issue of complying by the Bank with the obligatory norms mitigating banking risks and the issue of correctness of calculation of capital adequacy ratio in our report dated 29 February 2008, supplementing the independent auditors' opinion on the financial statements of the Bank for the year ended 31 December 2007.

9. Additional notes and explanations to the consolidated financial statements

The additional notes and explanations to the consolidated financial statements for the year ended 31 December 2007 were prepared, in all material respects, in accordance with International Financial Reporting Standards as adopted by the EU.

10. Directors' Report

We have read the 'Directors' Report for the period from 1 January 2007 to 31 December 2007 and the rules of preparation of annual consolidated financial statements ('the Directors' Report') and concluded that the information derived from the attached consolidated financial statements reconciles with these financial statements. The information included in the Directors' Report corresponds with the relevant regulations of the Decree of the Minister of Finance of 19 October 2005, on current and periodic information published by issuers of securities (Journal of Law No 209, item 1744).

11. Conformity with Law and Regulations

We have obtained a letter of representations from the Management Board of the holding company confirming that no laws, regulations or provisions of the Group entities' Articles of Association were breached during the financial year.

12. Work of Experts

During our audit we have taken into account the results of the work of the following independent experts:

- real estate experts – in calculations regarding the level of loan impairment we took into consideration the valuations of collateral, prepared by property appraisers, that were engaged by the Bank;
- actuary – actuarial calculation of provision for retirement benefits performed on the Bank's request.

Warsaw, 29 February 2008

Corporate Governance Report - 2007

1. Corporate governance principles

The Management Board of Kredyt Bank S.A. attaches a great importance to the application of Corporate Governance principles in the management process, understood as a set of regulations indispensable in maintaining proper relations between the interests of all entities and individuals involved in the functioning of a company.

The Management Board is of the view that proper proportions between executives, shareholders, customers and employees constitute an essential factor leading to stable development of the Bank in the long term, and, accordingly, to an increase in its value as a stable and effective partner.

In 2007 the corporate governance principles concerning the joint stock companies admitted to WSE-trading, elaborated by the Committee of Good Practices and recommended by the Warsaw Stock Exchange, included in the document "Best practices in the public companies 2005", were in force at Kredyt Bank S.A.

On June 27, 2007 the Management Board of Kredyt Bank S.A. submitted a statement in a form of a current report on application of corporate governance principles in Kredyt Bank S.A. defined in the resolution of the General Assembly of Kredyt Bank S.A. of April 25, 2005 with the changes introduced to principles 42 and 43.

The Bank declared its full compliance with 47 out of 48 Principles. In the case of Principle no. 20 specifying the role of independent supervisory board members the Bank respects the regulations regarding a number of independent members of the Supervisory Board. Five out of nine members of the Supervisory Board are not related to the Bank's strategic shareholder, the Bank or its employees. The Bank informed in its statement about the work underway aimed to define the detailed criteria of independence.

Starting January 1, 2008 the Warsaw Stock Exchange introduced new corporate governance principles set out in the document titled "Good Practices of the Companies Listed at the WSE". This document was approved on July 4, 2007 by the Resolution 12/1170/2007 of the Warsaw Stock Exchange Supervisory Board.

Independence criteria are defined by "New practices" in the Attachment II to the European Commission Recommendation of February 15, 2005. In accordance with this definition the Bank observes the Principle no. 20 as of January 1, 2008.

Pursuant to the corporate governance principles the Supervisory Board and the Management Board Regulations are in force at the Bank as well as the Bank's General Assembly Regulations.

The Audit Committee as well as the Remuneration Committee function in the Supervisory Board structure. In the case of a need the Supervisory Board may also establish other Committees, specifying their responsibilities and the manner of functioning. The Audit Committee supervises the activity of the Bank's organization units responsible for the internal audit, risk management and compliance. The responsibilities of the Remuneration Committee include the supervision over the employees' affairs as well as remunerations, in particular those of the Management Board members.

2. Activity of the General Assembly

The General Assembly of Kredyt Bank S.A. acts pursuant to:

- › The Regulations of the General Assembly – Resolution No. 3/2003 of the Extraordinary General Assembly of Kredyt Bank S.A. of April 25, 2003;

The Regulations of the Bank's General Assembly meeting determine the detailed principles of conducting the meeting and passing the resolutions. Among other things, the Regulations determine the principles of shareholders' participation in the General Assembly and detailed regulations providing for the Supervisory Board elections by separate groups voting.

The text of the Regulations is available at the website of Kredyt Bank S.A. in the Corporate Governance folder.

3. Composition of the Governing and Supervisory Bodies

3.1. The composition and principles of activity of Kredyt Bank S.A. managing bodies in 2007

The Management Board of Kredyt Bank acts pursuant to:

- › The Statutes of Kredyt Bank S.A. – a uniform wording, November 2006, comprising the amendments resolved by the Ordinary General Assembly of Kredyt Bank S.A. on May 31, 2006 and adopted by the Bank's Supervisory Board resolution on July 19, 2006, registered by the court on October 26, 2006 pursuant to the ruling of October 25, 2006;
- › The Regulations of Kredyt Bank S.A. Management Board – the Supervisory Board resolution of December 21, 2006;

As of January 1, 2007 the Management Board of Kredyt Bank was composed of six persons:

Mr Ronald Richardson	- President of the Management Board, General Director of the Bank,
Mr Umberto Arts	- Deputy President of the Management Board, Deputy General Director of the Bank
Mr Krzysztof Kokot	- Deputy President of the Management Board, Deputy General Director of the Bank
Mr Konrad Kozik	- Deputy President of the Management Board, Deputy General Director of the Bank
Mr Bohdan Mierzwiński	- Deputy President of the Management Board, Deputy General Director of the Bank
Mr Michał Oziembło	- Deputy President of the Management Board, Deputy General Director of the Bank.

On April 6, 2007 Mr Konrad Kozik, Deputy President of Kredyt Bank S.A. Management Board submitted his resignation from the function of the Deputy President of Kredyt Bank S.A. Management Board and the membership on the Management Board of Kredyt Bank SA as of April 27, 2007.

On April 18, 2007, at the meeting of the Bank's Supervisory Board, Mr Bohdan Mierzwiński, Deputy President of Kredyt Bank S.A. Management Board was dismissed from the function of Deputy President of Kredyt Bank SA Management Board and the membership on Kredyt Bank S.A. Management Board as of April 18, 2007.

Starting April 18, 2007 the Management Board of Kredyt Bank S.A. has been acting as a body composed of 5 members in accordance with the decision of the Supervisory Board of April 18, 2007.

On June 5, 2007 the Supervisory Board of Kredyt Bank SA delegated Mr Andrzej Witkowski, the Chairman of the Supervisory Board, to temporarily perform the duties of the Management Board member of Kredyt Bank SA. September 30, 2007 was the last day of performing the duties of the Management Board member.

The Supervisory Board resolved at the meeting of September 26, 2007 that starting October 1, 2007 the Management Board of Kredyt Bank S.A. shall act as a body composed of 4 members until a new member of the Bank's Management Board is appointed.

As of December 31, 2007 the composition of the Management Board of Kredyt Bank S.A. was as follows:

Mr Ronald Richardson	- President of the Management Board, General Director of the Bank,
Mr Umberto Arts	- Deputy President of the Management Board, Deputy General Director of the Bank
Mr Krzysztof Kokot	- Deputy President of the Management Board, Deputy General Director of the Bank
Mr Michał Oziębło	- Deputy President of the Management Board, Deputy General Director of the Bank.

On December 18, 2007, Mr Ronald Richardson, President of the Bank's Management Board submitted his resignation from the function of President of the Bank's Management Board and the membership on the Bank's Management Board as of February 29, 2008.

On December 18, 2007 the Supervisory Board appointed Mr Maciej Bardan the President of the Management Board of Kredyt Bank S.A. Mr Bardan will take up the position on March 1, 2008.

3.2. Composition and activity principles of Kredyt Bank S.A. supervising bodies of in 2007

The Supervisory Board of Kredyt Bank S.A. act on the basis of :

- › The Statutes of Kredyt Bank S.A. – uniform wording, Warsaw, November 2006 including changes passed by the General Assembly of Kredyt Bank S.A. on 31.05.2006 and approved by the resolution of the Bank's Supervisory Board on 19.07.2006, registered by the Court on 25.10.2006 basing on the ruling dated 25.10.2006;
- › Supervisory Board Regulations of Kredyt Bank S.A. – Resolution No. 24/2006 of the General Assembly of Kredyt Bank S.A. of 31.05.2006;

Appropriately to the Resolution No 4/2004 of the Kredyt Bank S.A. Extraordinary General Assembly of December 6, 2004 the Bank's Supervisory acts in a nine-man composition.

As of January 1, 2007 the Supervisory Board of Kredyt Bank S.A. is composed of:

Mr Andrzej Witkowski	- Chairman of the Supervisory Board,
Mr Adam Noga	- Deputy Chairman of the Supervisory Board,
Mr Francois Gillet	- Member of the Supervisory Board,
Mr John Hollows	- Member of the Supervisory Board,
Mr Feliks Kulikowski	- Member of the Supervisory Board,
Mr Marek Michałowski	- Member of the Supervisory Board,
Mr Luc Philips	- Member of the Supervisory Board,
Mr Jan Vanhevel	- Member of the Supervisory Board,
Mr Józef Toczek	- Member of the Supervisory Board,

On 27.03.2007 Mr Józef Toczek, a member of the Supervisory Board of Kredyt Bank S.A. handed in his resignation as a member of the Supervisory Board of Kredyt Bank S.A.

On 05.06.2007 the General Assembly of Kredyt Bank S.A. approved the co-opted the following persons to the Supervisory Board's composition:

- › Francois Gillet – co-opted at the Bank's Supervisory Board meeting on November 29, 2006 ;
- › Krzysztof Trębaczewicz – co-opted at the Bank's Supervisory Board meeting on April 18, 2007;

On June 5. 2007 the Supervisory Board of Kredyt Bank S.A. delegated temporarily Mr Andrzej Witkowski, Chairman of the Supervisory Board, to take on the responsibilities as a member of the Management Board of Kredyt Bank S.A. starting from 01.07.2007. The last day of his temporary work as a member of the Management Board was September 30, 2007.

As of 31.12.2007 the Supervisory Board of Kredyt Bank S.A. was composed of:

Mr Andrzej Witkowski	- Chairman of the Supervisory Board,
Mr Adam Noga	- Deputy Chairman of the Supervisory Board,
Mr Francois Gillet	- Member of the Supervisory Board,
Mr John Hollows	- Member of the Supervisory Board,
Mr Feliks Kulikowski	- Member of the Supervisory Board,
Mr Marek Michałowski	- Member of the Supervisory Board,
Mr Luc Philips	- Member of the Supervisory Board,
Mr Jan Vanhevel	- Member of the Supervisory Board,
Mr Krzysztof Trębaczewicz	- Member of the Supervisory Board,

3.2.1 Composition and activity principles of the Audit Committee of Kredyt Bank S.A. in 2007

4. Description of basic characteristics of internal audit and risk management systems applied at the company

The system of internal audit functioning in Kredyt Bank is crucial for the Bank's safe activity and is also an essential element of operating risk management. The Management Board as well as the higher level management supervise individual fields of activity, processes or products; they are responsible for preparing, implementing, acting and monitoring an effective and efficient internal audit system as well as responsible for identification and appropriate control of the born risk. Audit and Inspections Department carries out an independent assessment of the internal audit system as well as informs the Management Board and the Audit Committee about its reliability, effectiveness and efficiency.

5. Access to information

The Bank obeying the guidelines of the corporate governance presents on its website – section *Investor Relations* – current and periodic reports, basic internal regulations as well as other information allowing the reliable assessment of the company's operations.

6. Application of Best Practice

Pursuant to the Preamble of "Code of Best Practice for WSE Listed Companies" in force as of January 1, 2008 the principles comprised in parts from I to IV are a subject of annual reports concerning the activities in the scope of obeying these principles.

Not all principles of "Code of Best Practice for WSE Listed Companies" were included in the document "Best Practice in public companies 2005" which was in force in 2007, and the Bank made its statement on application of these principles basing on this document. Therefore, the Bank submits additional information below:
