Additional notes to consolidated financial statements

1. Basis of preparation of interim financial statements

In comparison with annual financial statements content of an interim financial report is condensed, therefore it should be read in conjunction with the financial statements of Bank Zachodni WBK Group for the year 2015.

The consolidated financial statements of the Group for the year 2015 are available at the Bank's official website: www.bzwbk.pl.

Statement of compliance

Condensed interim consolidated financial statements of Bank Zachodni WBK Group for the period from 1 January 2016 to 30 September 2016 were prepared in accordance with the International Accounting Standard 34 "Interim Financial Reporting" as adopted by the European Union and other applicable regulations.

In accordance with Decree of the Ministry of Finance dated 19 February 2009 on current and periodic information provided by issuers of securities and the conditions for recognition as equivalent information required by the law of a non-Member State (Official Journal from 2014 of 28.01.2014, No 133 as amended), the Bank is required to publish the financial results for the nine months ended 30 September 2016 which is deemed to be the current interim financial reporting period.

Accounting policies

The condensed interim consolidated financial statements are presented in PLN, rounded to the nearest thousand.

The consolidated financial statements of Bank Zachodni WBK Group have been prepared in accordance with the International Financial Reporting Standards adopted for application in the European Union (IFRS). The consolidated financial statements have been prepared using the historical cost convention, except for the financial assets and financial liabilities measured at fair value through profit and loss, including derivatives and available-for-sale financial assets, except for those whose fair value cannot be determined reliably. Other financial assets and financial liabilities (including loans and advances) are recognised at amortised cost using the effective interest rate less impairment or purchase price less impairment.

The accounting policies have been applied consistently by Group entities.

The Group has used the same accounting principles as those used in preparation of the Group's consolidated financial statements for 2015, except for the income tax charge, which was calculated in accordance with IAS 34.30c and the new standards described later in the section.

Comparability with results of previous periods

No major changes were introduced in respect of presentation of financial data for comparable periods of time.

During the current reporting period, in its Consolidated statement of financial position, the Bank separated the 'Buy-sell-back transactions/ Sell-buy-back transactions,' which were previously presented in the 'Loans and advances to customers,' 'Loans and advances to banks' and 'Deposits from banks' and 'Deposits from customers' lines.

The tax imposed under the act on tax on certain financial institutions that became effective on 1 February 2016 was disclosed in a separate item in the income statement as "Tax on financial institutions".

Changes in judgments and estimates

Compared with the consolidated financial statements for 2015, in Q3 2016 there were no material changes in Bank Zachodni WBK Group's accounting estimates or judgments.

Standards and interpretations or changes to existing standards or interpretations which were applied for the first time in 2016

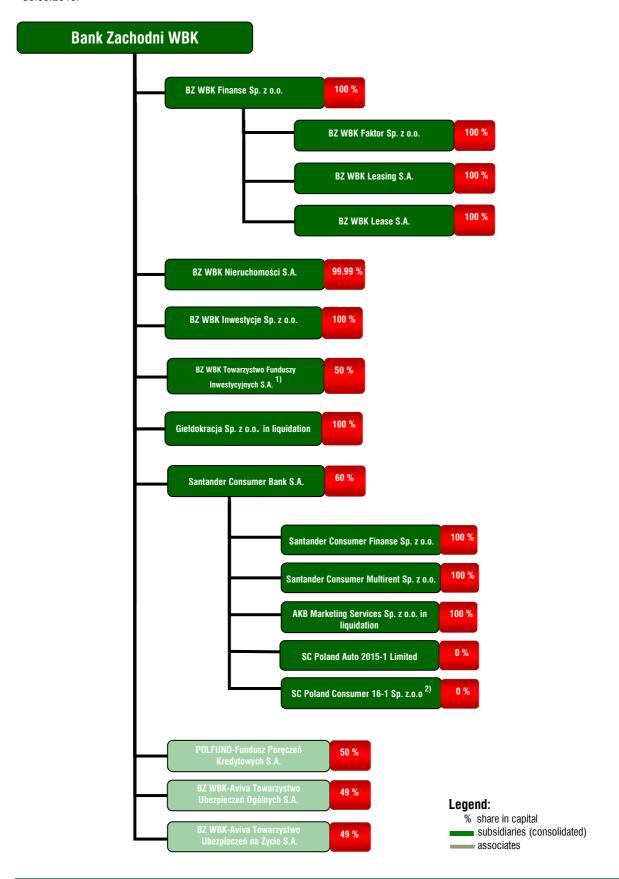

IFRS	Nature of changes	Effective in the European Union	Influence on BZ WBK Group
IFRS 14 Regulatory Deferral Accounts	The standard permits an entity which is a first-time adopter of International Financial Reporting Standards to continue to recognize amounts related to rate regulation in accordance with their previous accounting rules. To improve the comparability with entities that have already adopted IFRS and do not recognise such amounts, in line with the published IFRS 14 amounts from the rate-regulated activities are presented separately in the statement of financial position and income statement and statement of other comprehensive income.	1 January 2016	The change had no significant effect on financial statement.
AS 19 "EMBIOVER DEBENIS"	Change in determining the discount rate - it is applicable to post-employment obligations, in the currency of the obligation rather than the country of origin of the obligation.	1 February 2016	The change had no significant effect on financial statement.
Annual improvements to IFRS cycle 2010-2012	Improvements concern: • IFRS 2 definition of "vesting condition"; • IFRS 3 Contingent consideration in a business combination; • IFRS 8 Aggregation of operating segments, reconciliation of the total of the reportable segments' assets to the entity's assets; • IFRS 13 Short-term receivables and payables; • IAS16/IAS 38 Restatement – proportionate method; • IAS 24 Key management personnel.	1 February 2015	The change had no significant effect on financial statement.
nethod n separate financial tatements	Change in accounting for investments in subsidiaries in an entity's separate financial statements. • At purchase price; • In line with IFRS 9; • In line with IAS 28 (ownership rights); Refinement of the definition of separate financial statements.	1 January 2016	The change had no significant effect on financial statement.
Annual improvements to IFRS cycle 1012-2014	Improvements relate to: • IFRS 5 Changes of disposal method; • IFRS 7 Servicing contracts; • IAS 19 Discount rate: regional market issue; • IAS 34 Disclosure of information "elsewhere in the interim financial report."	1 January 2016	The change had no significant effect on financial statement.
	During acquisition of an interest in a joint operation by an investor (in line with the IFRS3: "an investment") the requirement for the investor to apply the accounting rules for joint operations and to perform a number of actions: • to remeasure the identifiable assets and liabilities to fair value, • to relate the acquisition cost to the financial results, • to recognised deferred income tax, • to recognise residual value as an entity's value.		The change had no significant effect on financial statement.
mendment to IAS 16 and IAS 38	In line with the amendment to IAS 16, the method of depreciation of tangible assets based on revenues under this measure is not considered to be appropriate. In line with the amendment to IAS 38, the method of amortization and depreciation of intangible assets based on revenues under this measure is not considered to be appropriate.	1 January 2016	The change had no significant effect on financial statement.
mendments to IAS 1	The change regards the presentation of the financial statements, taking into consideration their materiality and disaggregation. The amendment introduces changes on drafting notes to the financial statements, disclosing accounting standards and grouping of items presented in other comprehensive income from the investment.	1 January 2016	The change had no significant effect on financial statement.
mendments to IFRS 10, IFRS 12 nd IAS 28 Investment Entities: pplying the Consolidation	The amendments confirm that the exemption from preparing consolidated financial statements for an intermediate parent entity is available to a parent entity that is a subsidiary of an investment entity, even if the investment entity measures all of its subsidiaries at fair value according to IFRS 10. An investment entity measuring all of its subsidiaries at fair value provides the disclosures relating to investment entities required by IFRS 12.	26 September 2016	The change had no significant effect on financial statement

New standards and interpretations or changes to existing standards or interpretations which can be applicable to BZ WBK Group and are not yet effective or have neither been implemented earlier

IFRS	Nature of changes	Effective in the European Union	Influence on BZ WBK Group
Amendments to IAS 7 Statement of Cash Flows	The amendment requiring disclosure that enables to evaluate changes in liabilities, including both changes arising from cash flows and non-cash changes.	1 January 2017	The Group has not completed the analysis of changes.
Amendment to IAS 12 Income Taxes	The amendment clarifies the application of the standard for the recognition of a deferred tax asset in the case of losses on measurement of financial instruments classified as available for sale, e.g. debt instruments.	1 January 2017	The Group has not completed the analysis of changes.
Amendment to IFRS 15 - Revenue from Contracts with Customers	Changes relate to the following areas: • Transfer of control – recognition of revenue only when the customer gains control over a good or service. The amendment makes the definition of the transfer of control more precise. Introducing regulations allowing to define the legitimacy of recognising the revenue over time or at a point in time; • Variable consideration – the amendment takes into account variable consideration in prices of goods or services arising, for example, as a result of penalties or performance bonus; • Allocation of the transaction price on the basis of an adequate sales price per unit – introduction of the requirement to allocate the payment for goods or services in the case of sale under a single contract; • Licences – introduction of the requirement for entities to define the time for which a licence is transferred and specifying more precisely the revenue calculation in the case of transferring a licence at a point in time or over time; • Time value of money – the transaction price is adjusted for the time value of money. The entity may choose not to account for the time value of money when the interval between transfer of the promised goods or services and payment by the customer is expected to be less than 12 months; • Costs of obtaining a contract – introducing the conditions which determine if the given costs of obtaining a contract are subject to capitalization and can be amortised on a systematic basis that is consistent with recognizing revenues; • Disclosures – introduction of a requirement to disclose qualitative and quantitative information relating to judgements and changes in the judgements related with revenue recognition.	1 January 2018	The Group has not completed the analysis of changes.
IFRS 9 Financial Instruments	The changes refer to the following areas: Classification and measurement – introduction of three classification categories for debt instruments, i.e. measured at: amortised cost, fair value through other comprehensive income and fair value through profit or loss. Changes were made in the measurement of equity instruments by limiting the possibility of measurement at historical cost; Expected credit losses – introduction of a new model for recognition of impairment (ECL): loss allowance is required to be measured as lifetime expected credit losses rather than 12-month expected credit losses; Hedge effectiveness testing and eligibility for hedge accounting – replacement of the precise effectiveness range (80-125%) with a requirement that there is an economic relationship between the hedged item and the hedging instrument and that the hedge ratio is the same as the one used for risk management purposes. Ineffective hedges continue to be taken to a profit and loss account; Hedged items – introduction of new hedged items in relation to certain economically viable hedging strategies, which, to date, were not eligible under IAS 39; Hedging instruments – relaxation of requirements pertaining to certain hedging instruments listed in IAS 39 - including the time value of options purchased and implementing non-derivative financial instruments; Recognition of change in the fair value of financial liability arising from changes in the liability's credit risk in other comprehensive income (in principle).	1 January 2018	The Group has not completed the analysis of changes.
Amendments to IFRS 16 Leases	Changes relate to the following areas: Introduction of a new definition of lease as an agreement or part of an agreement; Recognition by lessee - the change will influence balance-sheet measurements; Recognition by lessor - in the case of book recognition of sales and leaseback and additional disclosures.	1 January 2019	The Group has not completed the analysis of changes
Amendments to IFRS 2: Classification and measurement share-based payment transactions	Changes relate to the following areas: • Effects of vesting conditions on the measurement of a cash-settled share-based payment; • Accounting for a modification to the terms and conditions of a share-based payment that changes the classification of the transaction from cash-settled to equity-settled; • Accounting for employees tax liabilities relating to share-based payment transactions.	1 January 2018	The amendment will not have a significant impact on financial statement.

2. Description of organization of Bank Zachodni WBK Group

Graphical representation of the Group's organization structure and information about types of connection within the Group as at 30.09.2016:

¹⁾ On 31.03.2016, a merger of BZ WBK Towarzystwo Funduszy Inwestycyjnych S.A. (BZ WBK TFI) and BZ WBK Asset Management S.A. (BZ WBK AM) was completed, as a result of which BZ WBK TFI has acquired AM.

The merger was executed by way of transfer of all assets of BZ WBK AM (the acquired company) to BZ WBK TFI (the acquiring company) in return for shares which BZ WBK TFI has allotted to the shareholders of the acquired company. The merger of the companies took effect on the date of entry of the merger into the register of businesses. Upon recording of the merger, BZ WBK AM has been deleted from the register of businesses. As of the merger date BZ WBK TFI has taken over all rights and obligations of its legal predecessor, i.e. BZ WBK AM. Business combinations under common control have no material impact on the financial statements.

As at 30.09.2016, Bank Zachodni WBK was a co-owner of BZ WBK Towarzystwo Funduszy Inwestycyjnych S.A., together with Banco Santander S.A. Both owners are members of Santander Group and each holds an equal stake of 50% in the company's share capital. In practice, Bank Zachodni WBK exercises control over its subsidiary, BZ WBK Towarzystwo Funduszy Inwestycyjnych S.A., because through it Banco Santander pursues its policy in Poland. Consequently, the company is treated as a subsidiary.

²⁾ SC Poland Consumer 16-1 Sp. z.o.o. set up for the purpose of securitisation of a part of the loan portfolio; its shareholder is polish legal entity who has no ties with the Group; the company is controlled by Santander Consumer Bank, in accordance with the control criteria set out in IFRS 10.7.

3. Operating segments reporting

Presentation of information about business segments in Bank Zachodni WBK Group bases on management information model which is used for preparing of reports for the Management Board, which are used to assess performance of results and allocate resources. Operational activity of Bank Zachodni WBK Group has been divided into five segments: Retail Banking, Business and Corporate Banking, Global Corporate Banking (In 3rd quarter of 2015 the name of Global Banking & Markets business segment was changed to Global Corporate Banking, the criteria of customers assignment to this business segment was maintained unchanged), ALM (Assets and Liabilities Management) and Centre, and Santander Consumer. They were identified based on customers and product types.

Income and costs assigned to a given segment are generated on sale and service of products or services in the segment, according to description presented below. Such income and costs are recognized in the profit and loss account for the Group and may be assigned to a given segment either directly or based on reasonable assumptions.

Settlements among business segments relate to rewarding for delivered services and include:

- sale and/or service of customers assigned to a given segment, via sale/service channels operated by another segment;
- sharing of income and costs on transactions in cases where a transaction is processed for a customer assigned to a different segment;
- sharing of income and cost of delivery of common projects.

Income and cost allocations are regulated by agreements between segments, which are based on single rates for specific services or breakdown of total income and/or cost.

Assets and liabilities of a given segment are used for the operational activity and may be assigned to the segment directly or on a reasonable basis.

In 2016 introduced the following changes:

- change of the methodology of capital and income from capital allocation between business segments;
- customer resegmentation between business segments; Once a year, BZWBK Group carry out the resegmentation/
 migration of customers between operating segments which results from the fact that customer meet the criteria of
 assignment for different operating segment than before. This change is intended to provide services at the highest level of
 quality and tailored to individual needs or the scale of customer operations;
- · share in net profits of entities accounted for by the equity method is presented in ALM and Centre segment;
- change in presentation of receivables and liabilities due to Repurchase Agreements. So far Repurchase Agreements were
 presented as Customers Receivables/ Customers Liabilities or if it concerned Financial Institutions, in Other Assets / Other
 Liabilities. Since second quarter of 2016, all receivables and liabilities from Repurchase Agreements have been presented
 in Other Assets / Other Liabilities;

 split of Other Income by two categories – Net fee and commission income and Other income since second quarter of 2016.

In all cases comparable data are adjusted accordingly.

The principles of income and cost identification, as well as assets and liabilities for segmental reporting purposes are consistent with the accounting policy applied in Bank Zachodni WBK Group.

Result on the sale by the Bank of a 17% equity stake in BZ WBK-AVIVA Towarzystwo Ubezpieczeń na Życie S.A. oraz BZ WBK-AVIVA Towarzystwo Ubezpieczeń Ogólnych S.A. to AVIVA International Insurance Limited is presented in comparable figures for 2015 in ALM and Centre segment.

The total result achieved by Bank Zachodni WBK SA from the transaction of acquisition of Visa Europe Limited by Visa Inc. (described in Note 7) is presented in ALM and Center Segment, whereas the result from described above transaction in Santander Consumer Bank is presented in Santander Consumer Segment.

Retail Banking

Retail Banking generates income from the sale of products and services to personal customers and small and medium companies. In the offer for customers of this segment there are a wide range of savings products, consumer and mortgage loans, credit and debit cards, insurance and investment products, clearing services, GSM phones top-ups, foreign payments and Western Union and private-banking services. For small and medium companies, the segment provides, among others, lending and deposit taking services, cash management services, leasing, factoring, letters of credit and guarantees. Furthermore, the Retail Banking segment generates income through offering asset management services within investment funds and private portfolios. It also covers insourcing services provided to retail customers based on mutual agreements with other banks and financial institutions.

Business and Corporate Banking

Business and Corporate Banking segment covers products and activities targeted at business entities, local governments and the public sector. In addition to banking services covering lending and deposit activities, the segment provides services in the areas of cash management, leasing, factoring, trade financing and guarantees.

Global Corporate Banking

In the Global Corporate Banking segment, the Group derives income from the sale of products and services to the largest international and local corporations, including:

- transactional banking with such products as cash management, deposits, leasing, factoring, letters of credit, guarantees, bilateral lending and trade finance;
- lending, including project finance, syndicated facilities and bond issues;
- FX and interest rate risk management products provided to all the Bank's customers (segment allocates revenues from this activity to other segments, the allocation level may be subject to changes in consecutive years);
- underwriting and financing of securities issues, financial advice and brokerage services.

Through its presence in the wholesale market, Global Corporate Banking also generates revenues from interest rate and FX risk positioning activity.

ALM and Centre

The segment covers central operations such as financing of other Group's segments, including liquidity, interest rate risk and FX risk management. It also includes managing the Bank's strategic investments and transactions generating income and/or costs that cannot be directly or reasonably assigned to a given segment.

In August 2016, Santander Consumer Bank completed the securitisation of a cash loans portfolio. The transaction was executed as a traditional and revolving securitisation scheme involving transfer of securitised receivables to SC Poland Consumer 2016-1 sp. z o.o. (SPV3), a special purpose vehicle registered in Poland.

Based on the securitised assets, SPV3 issued bonds of PLN 1,225,000 k in total secured by a registered pledge on SPV3 assets. Interest on bonds consists of 1M WIBOR plus margin. As a result of securitisation, SCB raised funding in exchange for transfer of future cash flows from the securitised credit portfolio. The bonds are planned to be redeemed in full by 16 September 2026, however, SCB expects that it will take place no later than 3 years after the date of transaction.

The transaction was financed from a loan of PLN 37,388 k granted by SCB to SPV3, which is subordinated to senior secured bonds. Interest on the loan is fixed and paid from SPV3 funds, while the principal will be repaid upon the full redemption of bonds.

In September 2015, Santander Consumer Bank completed the securitisation of a hire purchase loan portfolio. The transaction was executed as a traditional and revolving securitisation scheme involving transfer of securitised receivables to SC Poland Consumer 2015-1 sp. z o.o. (SPV2), a special purpose vehicle registered in Poland.

Based on the securitised assets, SPV2 issued bonds of PLN 1,051,125 k in total secured by a registered pledge on SPV2 assets. Interest on bonds consists of 1M WIBOR plus margin. As a result of securitisation, SCB raised funding in exchange for transfer of future cash flows from the securitised credit portfolio. The bonds are planned to be redeemed in full by 19 August 2025, however, SCB expects that it will take place no later than 2 years after the date of transaction.

The transaction was financed from a loan of PLN 239,413 k granted by SCB to SPV2, which is subordinated to senior secured bonds. Interest on the loan is fixed and paid from SPV2 funds, while the principal will be repaid upon the full redemption of bonds.

The contractual terms of securitisation do not satisfy the criteria for derecognition of securitised assets from SCB financial statements pursuant to IAS 39. Consequently, as at 30.09.2016, SCB recognised the securitised assets of PLN 2,116,552 k net under Loans and advances to customers, and liability of PLN 2,330,010 k under Deposits from customers in respect of cash flows on account of securitisation.

In May 2016, Santander Consumer Bank closed the securitisation of a car and hire purchase loan portfolio which was completed in 2014. The transaction was executed as a traditional securitisation scheme involving transfer of securitised receivables to SC Poland Auto 2014-1 Limited (SPV1), a special purpose vehicle registered in Ireland. The net value of the securitisation portfolio at the repurchase date was PLN 391,684 k.

The impact of the National Swiss Bank decision on the FX mortgage loans

Pursuant to the decision of the Swiss National Bank as a result of the decision of the Swiss National Bank to abandon the cap on the franc's value against the euro, in January 2015, there occurred a material depreciation of the zloty against the Swiss franc. The official NBP PLN/CHF exchange rate as at 30 September 2016 was 3.9802, as at 31 December 2015 was 3.9394, as at 30 September 2015 was 3.8785.

The exchange rate movement have affected the value and the risk profile of assets, liabilities and off-balance sheet financial instruments denominated in the currency under review from 1 Q 2015 onwards.

The table below presents the PLN equivalent of the mortgage loan-book value of Bank Zachodni WBK Group as at 30 September 2016, 31 December 2015, 30 September 2015.

^{*} Due to changes in the Act on Bank Guarantee Fund (Journal of Laws of 2016), in March 2016, the mandatory and prudential BGF fee started to be calculated on an annual rather than guarterly basis.

Accordingly, at the end of March 2016, the Bank paid the fee for Q1 2016 and now no BGF payments are posted under "Prepayments".

Due to the above amendment to the Act, the basis for calculation of the fee will also change in the following quarters. In Q2, the fee will be calculated on the basis of the total risk exposure estimated as at 31.03.2016.

In the corresponding period, "Prepayments" included the fees to the Bank Guarantee Fund that are settled over time. As at 30.09.2015 they amounted to PLN 50,214 k for the bank and PLN 7,518 k for Santander Consumer Bank.

In 2015, BGF payments were accounted for on an accrual basis in accordance with the opinion of the KNF and the Finance Ministry.

^{*} Provision acquired as a result of the acquisition of control over Santander Consumer Bank on July 1, 2014 in the amount of PLN 15,547 k (as at 30.09.2016 in the amount of PLN 5,350 k) referred to:

- restructuring of employment in the bank PLN 3,323 k (as at 30.09.2016 in the amount of PLN 1,959 k),
- liquidation of branches PLN 12,224 k. (as at 30.06.2016 in the amount of PLN 3,391 k).

The restructuring is related to the business reorganisation plan for Santander Consumer Finance (SCF) in Poland which was adopted by the Group in 2010. The plan was adopted after SCF Group had taken control over AIG Bank Polska S.A. and in the wake of subsequent restructuring actions carried out in the years 2013-2014 (amongst others, restructuring of the business transferred from Santander Consumer Finanse Sp z o.o.). Provision has also been associated with the implementation of the Operational Excellence Programme in 2015.

It is expected that most of cash flows related to the raised restructuring provision will materialise in the years 2016-2018.

30. Fair value

A fair value measurement assumes that the asset or liability is exchanged in an orderly transaction between market participants to sell the asset or transfer the liability at the measurement date under current market conditions.

Below is a summary of the book values and fair values of the individual groups of assets and liabilities.

Below is a summary of the key methods and assumptions used in the estimation of fair values of the financial instruments shown in the table above.

Financial assets and liabilities not carried at fair value in the statement of financial position

The Group has financial instruments which in accordance with the IFRS are not carried at fair value in the consolidated financial statements. The fair value of such instruments is measured using the following methods and assumptions.

Loans and advances to banks: The fair value of deposits is measured using discounted cash flows at the current money market interest rates for receivables of similar credit risk, maturity and currency.

Loans and advances to customers: Carried at net value after impairment charges. Fair value is calculated as the discounted value of the expected future cash flows in respect of principal and interest payments. It is assumed that loans and advances will be repaid at their contractual maturity date. The estimated fair value of the loans and advances reflects changes in the credit risk from the moment of sanction (margins) and changes in interest rates.

Financial assets not carried at fair value: The Group does not use fair valuation for equity securities of unlisted companies for which the fair value cannot be reliably established. In the statement of financial position, equity instruments are presented at cost less impairment. Debt instruments are measured at amortised cost.

Investments in associates: The financial assets representing investments in associates are measured using the equity method. The Management Board of the parent company believes that this is the most accurate estimation of fair value of these instruments.

Deposits from banks and deposits from customers: Fair value of the deposits with maturity exceeding 6 months was estimated based on the cash flows discounted by the current market rates for the deposits with similar maturity dates. In the case of demand deposits without a fixed maturity date or with maturity up to 6 months, it is assumed that their fair value is not significantly different than their book value. The process of fair value estimation for these instruments is not affected by the long-term nature of the business with depositors.

Debt securities in issue and subordinated liabilities: The securities and subordinated liabilities are measured at amortised cost. The fair value of these instruments is not significantly different from their balance sheet value.

Financial assets and liabilities carried at fair value in the statement of financial position

As at 30.09.2016 and in the comparable periods the Group made the following classification of its financial instruments measured at fair value in the statement of financial position:

Level I (active market quotations): debt, equity and derivative financial instruments which at the balance sheet date were measured using the prices quoted in the active market. The Group allocates to this level fixed-rate State Treasury bonds, treasury bills, shares of listed companies and WIG 20 futures.

Level II (the measurement methods based on market-derived parameters): This level includes derivative instruments. Level II also classifies variable-rate State Treasury bonds. These bonds were measured using discounted cash flow models based on the discount curve derived from the market of fixed-rate treasury bonds. Derivative instruments are measured using discounted cash flow models based on the discount curve derived from the inter-bank market.

Level III (measurement methods using material non-market parameters): This level includes equity securities that are not quoted in the active market, measured using the expert valuation model; investment certificates measured at the balance sheet date at the price announced by the mutual fund and debt securities.

The objective of using a valuation technique is to determine the fair value, i.e., prices, which were obtained by the sale of an asset in in an orderly transaction between market participants carried out under current market conditions between market participants at the measurement date.

Valuation of major capital investments classified to Category III are made semi-annually by specialized units of the Bank using income methods based on discounted cash flows and comparative methods based on market multiples of comparable transactions multiples or stock quotes.

The final valuation is approved jointly by representatives of the Risk Management Division and the Financial Accounting and Control Division, who assess it taking into account in particular:

- a) which valuation technique requires the least subjective / expert changes to the input data (ie. to maximize the use of appropriate, observable parameters and minimizes the use of unobservable data),
 - b) span ranges of valuation and the convergence of the results indicated by valuation techniques,
 - c) the differences in the values indicated by the different valuation techniques.

The most significant capital investments included within this category are AVIVA Group companies:

- a) AVIVA Towarzystwo Ubezpieczeń na Życie SA (AVIVA TUŻ),
- b) AVIVA Powszechne Towarzystwo Emerytalne SA (AVIVA PTE),
- c) AVIVA Towarzystwo Ubezpieczeń Ogólnych SA (AVIVA TUO).

In the current reporting period, the valuations remained unchanged.

As at 30.09.2016 and in the comparable periods the Group classified its financial instruments to the following fair value levels:

Transaction description

On 30.09.2016, Santander Consumer Bank (SCB), a subsidiary of Bank Zachodni WBK, and Banque PSA Finance entered into an agreement establishing strategic cooperation with regard to financing in Poland the vehicles manufactured by PSA Peugeot Citroen (PSA), financing the working capital requirements of the Polish PSA network and joint distribution of financial and banking products to the Polish customers of PSA. Under the above agreement, as of 1.10.2016 ("Change of Control Date"), Santander Consumer Finance (a subsidiary of SCB) purchased 50% shares of PSA Finance and, indirectly, PSA Consumer Finance for PLN 61,352,500. The price paid, which is a preliminary price, represents 50% of the reference book value of the acquired companies as agreed by the parties. The final price will be determined by the end of Q1 2017 and will depend on the outcome of the review of the acquired assets and liabilities carried out by the acquiring entity.

Assets and liabilities recognised at the merger date

As at the date of publication of the condensed interim consolidated financial statements of Bank Zachodni WBK Group for the period ended 30.09.2016, a provisional valuation was made of the acquisition of control over PSA Finance and PSA Consumer Finance. The companies' financial data as at 30.09.2016 that are the basis for this provisional valuation have not been audited and as such are subject to change as a result of a future audit of the financial statements. In addition, the Group has not finalised the process of estimating the fair value as at the date of combination of selected assets and liabilities of the PSA companies or the process of estimating the fair value of the intangible assets recognised in relation to the merger.

The table below shows a preliminary estimation of the fair value of the acquired assets and liabilities.

50. Macroeconomic Situation in Q3 2016

Economic Growth

The available data suggest that the economic growth in Poland in Q3 2016 was similar to H1 2016, although it might have slowed down a bit due to weak tendencies in investment and foreign trade. Investment was undermined by weak disbursement of EU funds in the transition period between two EU financial frameworks. It affected mostly investment in public infrastructure. Private investment most likely decelerated as well. The decrease in investment was observed mainly in non-housing construction, however, the recent data suggest that weaker tendencies could also be seen in housing construction, which had a positive contribution to the investment earlier in the year. Exports decelerated slightly versus Q2 2016 due to a deterioration in global trade. Imports decelerated as well, but less visibly than exports, which worsened the foreign trade's contribution to Polish GDP. Private consumption might have accelerated versus H1 2016 thanks to the positive labour market situation and payments of family benefits (500 + programme). Poland's external trade imbalance remained low - according to the bank's estimate the current account deficit accounted for approximately 0.6% of GDP at the end of September 2016.

Labour Market

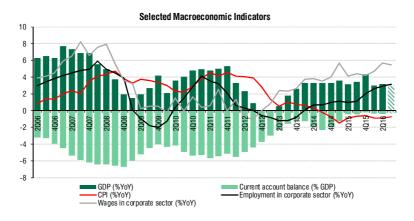

The labour market was strong in Q3 2016. Average employment in the corporate sector grew by approximately 3.1% YoY, amid a steady increase in the demand for labour. However, the data from other sources (e.g. Labour Force Survey, LFS) suggest that the growth in the employment statistics might have resulted to some extent from changes in the type of job contracts. Unemployment continued to fall, with regard to both the official unemployment rate and LFS unemployment, reaching its lowest levels since early 90s (8.4% and 5.9%, respectively). Corporate sector wages increased in nominal terms by 4.6% YoY, which together with negative growth of consumer prices and an increase in employment caused a decent rise in real wage bill (by approximately 8.7% YoY). A rise in wage pressure was visible, primarily in the retail sector.

Inflation

Inflationary pressure was low in Q3 2016, but CPI inflation started to rise, mostly due to low base effect in fuel prices. CPI inflation stood at -0.8% YoY on average and negative price growth was visible in many consumer products. Deflationary tendencies strengthened in the core categories, driving core inflation down to -0.4% YoY on average (excluding food and energy prices).

Monetary Policy

In Q3 2016, the Monetary Policy Council (MPC) kept monetary policy parameters unchanged. According to the MPC members, deflation did not show any negative effects, the GDP slowdown was temporary and interest rates were at optimum levels. The Council predicted that CPI inflation would turn positive in the next quarters. At the same time, central bankers believed that the downside risks to the global economic conditions and the volatility of commodity prices remained the sources of uncertainty for domestic economy and price developments. In general, the MPC rhetoric reduced market expectations of possible interest rate cuts.

Credit and Deposit Markets

In Q3 2016, the growth in total deposits accelerated by 9.0% YoY on average. It stemmed from a solid increase in deposits from the household and corporate sectors. The credit market slowed down compared to Q2 2016. The growth in loans to households stabilised around 4% YoY (FX-adjusted). Mortgage loans rose by 3% YoY. At the same time, the growth of the corporate loan portfolio was curbed, which resulted mainly from a lower demand for working capital loans, however, other categories expanded at a similar pace as before. In particular, investment loans rose by almost 10% YoY.

Financial Market

Financial markets were quite volatile in Q3 2016. Investor sentiment was driven by the following factors: (1) decisions of the rating agencies: (affirmation of Poland's rating by Fitch in mid-July 2016 at A- with stable outlook); (2) central bank actions (expected rate hikes by the Federal Reserve amid better-than-projected data from the US labour market and data regarding the economic growth); (3) domestic macroeconomic data (disappointing GDP growth in H1 2016 due to a stronger decrease in investments, probable deceleration of GDP growth below 3% YoY, slower-than-expected emergence from deflation; (4) political risk and geopolitical developments (the possibility of so-called "hard Brexit" for the exit of the United Kingdom from the European Union).

These factors determined the direction of the financial markets, in particular changes in the zloty and treasury bonds. In Q3 2016, the domestic debt weakened on the shorter end of the yield curve, mostly due to hawkish rhetoric of the MPC, which reduced market expectations of rate cuts. Moreover, MPC members suggested that their next decision would be to increase rates, yet it should not be expected in the near term. Compared with Q2 2016, the yield curve moved up by 10 b.p. on the short end and belly, while the long end remained relatively stable. As a result, the yield curve flattened.

The Polish currency was impacted by domestic factors, including the President's draft on FX loan conversion. EUR/PLN fell temporarily to 4.25 in August and after a correction in the following weeks exceeded 4.30 again, remaining considerably below this year's high at 4.50 following the January's decision of S&P. In the period from July to September, the zloty gained 2.5% against the euro, 2% against the Swiss franc, 3% against the US dollar and almost 7% against the British pound. Compared with the end of September 2015, the zloty lost 3% against the Swiss franc and 2% against the euro and the US dollar, but gained 13% against the British pound.

51. Activities of Bank Zachodni WBK Group in 03 2016

Bank Zachodni WBK

Retail Banking Division

Directions and achievements in respective product lines

In Q3 2016, Bank Zachodni WBK continued the information campaign to notify personal customers of changes implemented from the beginning of August 2016, which:

- optimised and improved the clarity of the bank's offer of products and services (e.g. by limiting the number of cards and term deposits);
- helped to align the schedule of fees and charges with the market conditions (by introducing modifications to personal and savings accounts, debit and credit cards, and payment and cash services).

Accounts and settlement products

In September 2016, BZ WBK Account<20 (Konto<20) for the second year running was selected the best account for customers under 18 in the ranking of personal accounts for the young published by TotalMoney.pl. This recognition was received on account of such parameters as free account maintenance, free online transfers and ATM withdrawals across Poland, relatively wide age range of the target group (between 13 and 20) and no requirement for a parent account.

During the first nine months of 2016, the portfolio of PLN personal accounts grew by 28.1% YoY and reached 3.1m (162.3k accounts more than in the last year). Including FX accounts, the personal account base totalled 3.9m.

Debit cards for individuals

In Q3 2016, Bank Zachodni WBK focused on the promotion of card payments. As part of this endeavour, the Bank:

- launched the second edition of the "Account with 4% interest" ("Konto na 4%") campaign featuring the Account Worth Recommending (Konto Godne Polecenia) bundled with a free-of-charge MasterCard debit card;
- carried out the "Take time off fees" campaign addressed to students, offering the Account Worth Recommending (Konto Godne Polecenia) with a free-of-charge MasterCard debit card and selected services;
- extended the promotional campaign called "10% Cashback on MasterCard<20" ("Nagroda 10% na karcie MasterCard<20"), offering 10% cashback on card transactions at cinemas and theatres.

On 15 September 2016, the bank introduced BZWBK MasterPassTM Digital Wallet which registers and stores payment cards details of BZ WBK customers (Visa and MasterCard) to enable them to make online payments just by logging into the MasterPassTM system, without the need to provide payment card details. A dedicated promotion was launched to encourage customers to use a new payment solution when shopping online.

As at the end of September 2016, the personal debit card portfolio of Bank Zachodni WBK (excluding prepaid cards) comprised nearly 3.2m items and increased by 4.8% YoY. Taking business cards into account, the total number of debit cards reached 3.4 million, up 5.1% YoY.

Cash loans

In Q3 2016, cash loan sales exceeded PLN 1.0bn, up 7.0% YoY. Year-to-date credit sales grew at a similar rate, reaching PLN 3.1bn. This performance translated into a YoY increase of 10.4% in the gross cash loan portfolio of Bank Zachodni WBK to PLN 7.3bn as at 30 September 2016.

The sales growth was driven by:

- competitiveness of the product resulting from:
 - ✓ extension of the maximum tenor to 120 months;
 - ✓ special offers: "Loan without interest" ("Kredyt bez odsetek") and "Duet cash loan" ("Kredyt gotówkowy Duet")
 for two borrowers:
 - ✓ 4.99% interest for customers with high credit worthiness; lower arrangement fee for loans taken out in the remote channels;
 - ✓ simplified credit process for smaller-amount consumer loans;
- · marketing support, including:
 - ✓ new CRM tools (including the specilised application software rolled out in branches and partner outlets on 1 August 2016) which provides access to comprehensive customer information and customised offers;
 - ✓ TV and online cash loan campaign started in Q2 2016 and continued into Q3 2016;
 - ✓ marketing and promotional campaigns via BZWBK24 platform, which brought about a 51% YoY growth in electronic sales of cash loans in Q3 2016.

Mortgage loans

In Q3 2016, the bank modified the terms of fixed-rate mortgage loans and equity releases. An interest rate of 4.15% (previously 3.95%) was set for home loans to be applied for the first five years of the lending period.

Following the termination of the cooperation agreement by the National Fund for Environmental Protection and Water Management (NFOŚiGW) in Q3 2016, the subsidized loans earmarked for development or purchase of energy-efficient houses or apartments were withdrawn from the bank's offer.

During the first nine months of 2016, the value of new (disbursed) mortgage loans totalled PLN 4.4bn, up 39.6% YoY. The gross mortgage portfolio grew by 10.7% YoY, reaching PLN 32.8bn at the end of September 2016, of which the PLN-denominated portion was PLN 20.1bn, up 23.4% YoY.

Credit cards

In Q3 2016, a number of initiatives were undertaken to activate sales and increase the volume of transactions made with credit cards. In August 2016, the bank simplified the credit card offer, reducing the number of available cards to five products meeting specific needs and transactional behaviours of customers.

As at 30 September 2016, the credit card portfolio of Bank Zachodni WBK comprised 775.1k instruments, an increase of 5.2% YoY.

Deposits and investment products

In Q3 2016, Bank Zachodni WBK continued the strategy aimed at increasing the share of current account balances (personal and savings accounts) and investment funds, and at optimising the term deposit portfolio while maintaining a stable growth of the entire deposit and investment base. To that end, the bank:

- launched new special offers under the "Active deposit" ("Aktywny depozyt") campaign, with interest on savings accounts linked with the volume of transactions made (1 July 2016);
- facilitated cross-selling of investment, insurance and credit card products using term deposits with attractive interest rates, including Bonus Deposit (Lokata Bonusowa) and elnvestor deposit (elnwestor) (available only in the mobile and internet channel);
- introduced a new Max Savings Account (Konto Max Oszczędnościowe) paying relatively high interest on new funds for the period of three months (1 August 2016);
- withdrew 20 term deposits from the offer, which simplified it significantly and strengthened the position of savings accounts (1 August 2016);
- continued the linkage development programme for deposit customers, which involved the communication of selected special offers to the most price-sensitive customer segments and sale of negotiated deposits to the VIP segment.

As a result of optimisation of BZ WBK deposit structure, the balance of savings accounts increased by 6% over Q3 2016. Growth was also reported with respect to term deposits for VIP customers (a negotiated deposit and an 18-month rentier deposit) and eDeposits available only in the electronic banking channel (a 1-month term deposit with a fixed rate and 3-month elnvestor deposit offered to buyers of investment products).

Brokerage products and services

In Q3 2016, Bank Zachodni WBK focused on acquisition and activation of Brokerage Office customers and on strengthening the position of brokerage products and services among BZ WBK customers, in particular the VIP segment. In the reporting period:

- the "Bonus for yield" ("Premia za zysk") marketing campaign was ended, helping to acquire or activate three thousand customers and increase share in the WSE retail trading market;
- a new marketing campaign called "Global stock markets without foreign currencies" ("Światowe gieldy bez obcych
 walut") was started on 1 August 2016 and will continue until 31 December 2016 to help the bank achieve a leadership
 position in the foreign spot markets. The special offer included an attractive transaction fee and currency spreads,
 automated currency conversion of funds earmarked for purchase of foreign stock and bonds, and free investment advice.

Structured deposits

In Q3 2016, Bank Zachodni WBK continued its activity on the structured deposit market. The bank offered products with yield linked to exchange rates (EUR/PLN, USD/PLN, EUR/USD), stock indices (NASDAQ 100, Euro Stoxx Oil&Gas®), or investment fund performance (Energy Select Sector SPDR Fund), providing 100% capital protection at maturity. The bank offered 27 products with different maturities in the total of 15 subscriptions, including 14 subscriptions for standard personal customers and one subscription for Private Banking customers. In all, PLN 185.3m worth of funds were collected as a result of the aforementioned subscriptions.

Investment funds managed by BZ WBK Towarzystwo Funduszy Inwestycyjnych (BZ WBK TFI)

Sale of investment funds

As at 30 September 2016, the total net assets managed by BZ WBK TFI were PLN 13.8bn, including PLN 13.3bn worth of net assets in mutual funds, which were up 6.7% on 31 December 2015 and up 3.6% on 30 June 2016.

In the year to date, the highest net sales were reported by the corporate bond and money market subfunds: Arka Prestiż Obligacji Korporacyjnych, Arka BZ WBK Gotówkowy and Arka Prestiż Gotówkowy. In Q3 corporate bond subfunds performed best, in particular Arka Prestiż Obligacji Korporacyjnych which at the end of September 2016 was ranked among the top 10 retail investment funds in Poland by an independent research company Analizy Online. Since February 2016, BZ WBK TFI funds have reported positive net monthly sales.

Awards and recognitions

Arka Prestiż Akcji Polskich, the Polish equity sub-fund, won an accolade in the Best Investment Products 2016 ranking published by Gazeta Finansowa on 16 September 2016, in recognition of its outstanding performance with a five-year yield totalling 35.79% on 31 August 2016).

The above subfund was also awarded four out of five stars in the rating published by Analizy Online.

Bancassurance

In Q3 2016, the range of the bank's insurance products was extended to include "Onkopolisa" cancer insurance designed to provide financial support to people diagnosed with cancer (July 2016).

SME Banking Division

Directions and results in respective product lines

In Q3 2016, the range of current accounts for small and medium enterprises was expanded to include accounts in non-standard currencies: CNY (Chinese yuan), MXN (Mexican peso), RON (Romanian leu), RUB (Russian rouble) and TRY (Turkish lira).

Bank Zachodni WBK amended the schedule of fees and charges for business customers with respect to certain card and ATM transactions, which became effective on 1 August 2016.

In August 2016, the bank launched a promotional campaign for Premium Business Account Worth Recommending (Konto Firmowe Godne Polecenia Premium) which was carried out under the slogan "VIP Account and Business Account" ("Konto VIP i rachunek dla firmy") and targeted at business customers holding VIP Account (Konto VIP) or VIP Account24 (Konto24 VIP). Accounts opened as part of this promotion are temporarily exempt from an account maintenance fee.

In Q3 2016, credit and deposit sales in the SME segment continued to grow dynamically.

- Credit sales for three quarters of 2016 went up by 5.4%, and the gross portfolio grew by 1.5% QoQ and 9.6% YoY;
- Deposit volume increased by 4.5% QoQ and 13.5% YoY.

Education and information initiatives

In September 2016, TVP1 launched the second edition of the TV show called "Business Evolutions" ("Firmowe Ewolucje") under the patronage of Bank Zachodni WBK and in cooperation with the bank's partners. The purpose of the programme is to analyse the situation of the companies, provide them with guidelines on how to do business and inspire them to take the most promising business opportunities. The programme also presents financial and non-financial solutions offered by the bank to small and medium-sized companies.

As part of BZ WBK Entrepreneur Academy, the bank launched another series of conferences for small and medium enterprises across Poland entitled "Win the markets with new technologies" ("Podbij rynki dzięki nowym technologiom"). By the end of 2016, the bank will have organised 33 conferences in the largest Polish cities.

Activities of leasing companies

In the year to date, BZ WBK Leasing and BZ WBK Lease financed movable assets with total net value of PLN 2.8bn, which represents an increase of 9.6% YoY and includes non-agricultural sector growing at a rate of 25.6% YoY.

Lease products and services were developed as follows:

- The financing for investments in agricultural land was re-introduced on attractive terms, following the amendment of regulations pertaining to the sale of agricultural land introduced in August 2016.
- In cooperation with Fundusz Poręczeń Kredytowych POLFUND, a guarantee scheme was set up to provide an opportunity
 to execute transactions requiring additional collateral which could not be processed as part of the existing credit risk
 management system of the leasing companies.
- New vendor finance schemes were introduced in collaboration with the three suppliers of machines and equipment, using financial solutions available in BZ WBK Leasing.

Business and Corporate Banking Division

Scope of business

The Business and Corporate Banking provides customers with end-to-end support in building and growing their businesses and offers specialized programmes with a view to being recognised as the first choice bank for corporate customers.

Corporate customers are serviced through a countrywide network of 12 Corporate Centres and two central units which offer specialist services: Large Corporate Department and Corporate Property Department. Customers are provided with tailor-made solutions by locally based relationship managers who work with credit partners and product specialists to ensure a complete and comprehensive customer proposition covering loans, deposits, transactional banking, treasury, leasing, factoring and capital markets products.

Directions and results in respective product lines

Similarly to the previous periods, in Q3 2016 the Business and Corporate Banking Division pursued its goals, focusing on areas which show considerable business potential or help enhance customer experience: foreign trade development programme (continuation of the Export Development Programme), products and services for the agriculture sector, digital banking, service quality, personnel and efficiency.

The Division's strategic approach to foreign trade business and agri sector was giving positive results both in terms of growth in business volumes and income.

Electronic platforms are key for the day to day business operations of the bank's corporate clients. After the successful launch of a mobile application this year, the bank is now in the next phase of developing features that are designed to personalize and increase functionality of this application.

In 2016, the Division maintained robust revenue and business momentum with performing loans and deposits growing at a rate of 11.5% YoY and 9.1% YoY, respectively. The continued focus on growing a diversified customer base with high share of wallet is key to delivering a strong performance at the year end. The Division also achieved a significant double digit growth in transactional banking and trade fees. Furthermore, a good trend in payments volumes and transfers has been observed since the beginning of 2016.

Factoring business

During the first nine months of 2016, the turnover of BZ WBK Faktor came in at PLN 13.5bn, up 9.4% YoY. This gave the company a market share of 12% and the second position in the ranking of the members of the Polish Association of Factoring Companies. As at the end of September 2016, the company's credit exposure was PLN 3.0bn, higher by 13.7% YoY.

Global Corporate Banking Division

Core business

Global Corporate Banking Division (GCB) provides an end-to-end support to the largest corporate customers of Bank Zachodni WBK (around 180 companies and groups as at the end of September 2016), renders services to corporations handled under the global framework of Santander Group GCB, is responsible for the bank's activities on the financial markets and provides specialist financial products including treasury, brokerage and capital market instruments to retail and corporate customers.

Directions and results in respective product lines

Global Transactional Banking

In the reporting period, Global Transactional Banking closed a number of deals in relation to financing, guarantees and trade finance with companies from the automotive, media, telecommunications, trade, construction, shipbuilding, mining, financial, transportation and household appliance sectors.

The volume of factoring receivables grew by 12% YoY to PLN 1.6bn and was generated mainly by the food and mining sectors.

As at the end of September 2016, the value of term deposits and current account balances totalled PLN 7.4bn.

Capital and Credit Markets

Capital Markets

In Q3 2016, Capital Markets:

- provided analytical and advisory services to customers and were engaged as a financial/transactional advisor for companies from the financial, construction, plastics processing, pharmaceutical and service sectors;
- managed the JESSICA Programme (Urban Regeneration Fund for Greater Szczecin) under the agreement with the Zachodniopomorskie province;
- at the turn of June and July, finalised in cooperation with the Brokerage Office a transaction to raise PLN 2.2bn worth of capital for a financial institution as part of the largest public offering on the WSE since 2013 and the largest issue of shares with pre-emptive rights since 2009.

Credit Markets

The Credit Markets were engaged in financing companies from the telecommunications, real estate and finance sectors, as well as transaction advisory services provided together with the Brokerage Office. Other significant undertakings of the Capital Markets included:

- refinancing the debt of a company from the telecommunications sector as part of a syndicate led by Bank Zachodni WBK, ensuring stable source of capex finance; the bank became the main lender for the customer and the coordinator of the interest rate hedging process;
- acquisitions made by companies from the metallurgical, trade and service sectors (with the bank acting in the capacity of a transaction advisor for the customer from one of the sectors mentioned above):
- financing a company from the real estate sector (in cooperation with the Business and Corporate Banking Division).

As at 30 September 2016, the value of open credit lines increased to PLN 9.3bn, whereas the total sum of loans and advances to customers amounted to PLN 5.8bn, i.e. up 34% YoY.

Financial Markets

Treasury

In Q3 2016, the Financial Market Transactions Department:

focused on further development of products and services using the global know-how of Santander Group; the new
products are targeted at large corporates and include solutions based on debt and derivative instruments with substantial
market potential;

In the reporting period, the Treasury Services Department:

- continued an income diversification strategy based on the development of interest rate hedges;
- focused on promoting interest rate and FX hedging solutions among mortgage borrowers and SME customers; enabling
 them to hedge their respective risks and stabilise their balance sheet positions;
- intensified efforts to extend the range of structured products for retail and corporate customers, to develop the distribution
 channels for treasury products and e-commerce tools and to increase the opportunities for SME and corporate customers
 to invest surplus money by expanding the product range.

In Q3 2016, the bank actively offered currency and interest rate hedging solutions to the largest companies in Poland, including customers from the power, food, chemical and telecommunications sectors.

Brokerage Office

In Q3 2016, the "Bonus for yield" ("Premia za zysk") promotional campaign launched at the beginning of 2016 came to an end. A new advertising and sales campaign called "Global stock markets without foreign currencies" ("Światowe giełdy bez obcych walut") was started to promote mobile investments on foreign markets (for more information see "Brokerage products and services" in the "Retail Banking Division" section).

After three quarters of 2016, the BZ WBK Brokerage Office share in the equity market totalled 5.3% and in the futures market totalled 10.6%.

Santander Consumer Bank Group

Loans

The lending activity of Santander Consumer Bank Group (SCB Group) is based on the following product groups: car loans for the purchase of new and used vehicles, business loans, instalment loans, cash loans, consolidation loans, credit cards and leasing.

The bank steadily strengthens its presence in the remote channels (call centre, internet) in terms of cash loans, credit cards and instalment loans.

As at 30 September 2016, gross loans and advances granted by SCB Group amounted to PLN 14.2bn (including intercompany transactions) and were 1.1% higher YoY due to the growth in the portfolios of cash loans, instalment loans, working capital loans and lease products.

Deposits

Retail deposits are the bulk of the SCB Group's deposit base, and mainly include term deposits paying a fixed interest rate. The remaining portion is made up of business deposits.

As at 30 September 2016, deposits from customers (excluding intercompany transactions) totalled PLN 7.8bn and increased by 18.2% driven by higher volume of deposits from retail and corporate customers. The bank focused on the sale of deposits for tenors of one year or more, by offering attractive pricing, particularly on 12-month deposits. The value of retail deposits increased with a parallel decrease in their costs as a funding source.

Development of SCB Group

On 30 September 2016, SCB signed an agreement under which on 1 October 2016 it acquired 50% shares in PSA Finance Polska, a wholly owned subsidiary of Banque PSA Finance. The representatives of SCB and Banque PSA Finance will sit on the company's executive boards. As a result, SCB will increase its share in the car loan market and strengthen its leadership position.

Awards

In Q3 2016, SCB won the following accolades:

- 1st place in the rating of cash loans for summer holidays for internal and external customers published by TotalMoney.pl in July 2016:

In Q3 2016, Bank Zachodni WBK continued the programme designed to develop self-service channels in order to reduce cashier-services in branches and enhance customer experience. The functionality of ATMs was extended to include a cash deposit option, new deposit ATMs (combining cash withdrawals and deposits) were put in place and old machines were replaced. At the same time, the network rationalisation process was continued (involving relocation of devices to more effective locations). As at the end of September 2016, the network of self-service devices of Bank Zachodni WBK comprised 1,735 ATMs, CDMs and deposit ATMs in total (vs. 1,686 as at 30 September 2015).

The number of customers who logged into BZWBK24 in September at least once (digital customers) totalled 1,960k, up 6.7% YoY. In the 9-month period ended 30 September 2016, the number of payment and similar transactions in the remote channels grew by 16.1% YoY, while the remote sales increased by 228.9% YoY in terms of personal accounts and by 25.6% YoY in terms of credit facilities (35.9% by value).

²⁾ Apart from branches and partner outlets, the distribution network of SCB as at 30 September 2016 included 530 partners offering car loans (-52 YoY) and 12,816 partners offering instalment loans (-661 YoY).

In Q3 2016, Bank Zachodni launched the TeleKlik service which allows customers who apply for credit facilities by phone or via an online advisor to sign an agreement through the BZWBK24 internet platform without the need to visit the bank's branch. The bank also started to implement the mass call centralisation project: each customer calling a branch is to be redirected to the Call Centre which will provide an end-to-end support.

Bank Zachodni WBK was named the Best Institution of 2016 in the third edition of the cross-sectoral service quality survey which was performed by MojeBankownie.pl portal in July and September to promote best practice in terms of customer experience in the remote channels. For the first time, the survey also covered customer contact via video or via chat line.

As at 30 September 2016, Santander Consumer Bank sold its products through the network of 307 branches and franchise outlets, mobile sales channels for car loans and corporate deposits, remote sales channels for banking products (call centre and the internet), a remote sales channel for car loans and a network of external partners offering the bank's car loans (530 active partners including car dealers, car dealers and intermediaries) as well as instalment loans and credit cards (12,816 active partners including retail chains and stores).

Identification of Bank Zachodni WBK as other systemically-important institution

In July 2016, Bank Zachodni WBK was informed by the Polish Financial Supervision Authority (KNF) about the instigation of the supervisory evaluation process regarding identification of the bank as other systemically-important institution pursuant to Article 39 (1) of the Act of 5 August 2015 on macroprudential supervision over the financial system and crisis management. In view of a positive decision of the Financial Stability Committee issued in accordance with the macroprudential procedure, on 4 October 2016 KNF unanimously identified Bank Zachodni WBK as other systemically important institution and imposed a buffer (on a consolidated and stand-alone basis) equal to 0.50% of the total risk exposure (calculated pursuant to Article 92 (3) of CRR no. 575/2013).

Diversification of funding sources

Financing from international financial organisations

- On 1 August 2016, BZ WBK Leasing signed an agreement with International Finance Corporation providing for a
 USD 150m worth of facility (disbursed in the equivalent in EUR) earmarked for financing lease business. The facility is
 based on the EURIBOR rate and is payable within six years of the agreement date. The purpose of the loan is to support
 sustained economic growth by facilitating access to credit for businesses run by women and small enterprises. The
 facility is secured by a guarantee issued by Bank Zachodni WBK.
- On 3 October 2016, BZ WBK Faktor signed an agreement with a foreign bank providing for a EUR 100m credit facility with
 an interest rate based on EURIBOR. The facility is earmarked for financing the factoring business and matures within
 12 months of the disbursement date. The facility is secured by a guarantee issued by Bank Zachodni WBK.
- Pursuant to the existing agreement, on 15 September 2016, Bank Zachodni WBK made an early repayment of CHF 17.7m worth of principal amount of a facility taken out with the European Investment Bank by the former Kredyt Bank on 29 June 2012.

Issue of debt securities

Determinants of BZ WBK Group's profit for the three quarters of 2016						
Increase in net interest income	• The increase in net interest income (+PLN 322.7m YoY) reflects growing net interest margin (+0.12 p.p. YoY 3.65%) resulting from the Group's multidimensional business activities and the dynamics of adaptation processes the record low interest rate environment. Interest margin was strongly affected by trends in the Group's busines volumes, including expansion of cash and mortgage loan portfolios, increase in SME credit exposures, growth of lov cost current and savings account balances and reduction of the term deposit base.					
Stable net fee income	• Net fee and commission income was fairly stable at PLN 1,430.8m as a result of diversification of the Group's income sources and a mix of external and internal developments. In 2016, the Group's net fee and commission income was mainly impacted by the regulatory environment (insurance fees), financial markets (distribution and asset management fees) and customer activation and sales support system (credit card fees and guarantee fees). At the same time, the Group took measures to ensure value for money and bring its products and services in line with market and competition requirements.					
Decrease in other income	 A YoY decrease of PLN 154.3m in the Group's other income (excluding one-off transactions in the equity market) was attributed to lower profit on the portfolio of available-for-sale debt securities and a decline in other operating income due to changes in the presentation of the Group's insurance income (following the deconsolidation of BZ WBK-Aviva insurance companies) and lower income from the disposal of fixed assets. One-off items recognised in the current and base periods are presented in the table on comparability of periods. 					
Improved quality of credit portfolio despite higher impairment losses	Higher YoY level of impairment losses (+PLN 11.0m) primarily reflects adaptive and restructuring measures taken by the Group within its credit risk management framework. It concurred with a 9.5% YoY increase in the gross loan-book and further improvement in credit quality ratios.					
Effective management of staff and general expenses	 Slight increase in total costs (+PLN 44.1m YoY) was fuelled by amortisation and other operating costs while staff, general and administrative expenses were fairly stable, affirming the Group's effective cost management amid rising statutory charges and continuing transformation processes instigated by changing business and regulatory requirements or development and infrastructure initiatives. 					

Key macroeconomic factors impacting financial and business performance of the Group for the first three quarters of 2016						
Economic growth	Solid economic growth in the euro zone, worries about the global economic outlook due to the slowdown in China deteriorating tendencies in the international trade.					
Labour market	Favourable situation in the labour market – gradual increase in employment in the corporate sector, declining unemployment and relatively fast wage growth, supporting private consumption.					
Inflation	 Low inflationary pressure, CPI inflation rate still below zero. Oil prices remaining at a relatively low level. 					
Monetary policy	NBP official rates kept at the lowest level ever.					
Credit market	Deceleration of credit growth in the banking sector.					
Financial markets	 Changes of mood in international financial markets influenced by the expected policy orientation of the main central banks (Federal Reserve, ECB), incoming macroeconomic data, worries about the geopolitical situation, including the results of the negotiations regarding the British exit from the EU, the immigration crisis and the economic slowdown in China. Volatility of the zloty exchange rate versus the main currencies; changes in Polish bond yields. Affirmation of Poland's investment grade by Fitch. Decelerating credit growth rate in the banking sector.

- SCB Group is controlled and consolidated by BZ WBK. As at 30 September 2016, SCB Group included the following entities: AKB Marketing Services in liquidation, Santander Consumer Multirent, Santander Consumer Finanse, SC Poland Consumer 15-1 and SC Poland Consumer 16-1. As at 30 September 2015, the last of the aforementioned entities was not yet in existence and the SCB Group additionally included SC Poland Auto 2014-1 (liquidated). The amounts provided above represent profit before tax (after intercompany and consolidation adjustments) of SCB Group for the periods indicated.
- On 31 March 2016, BZ WBK TFI merged with BZ WBK AM by taking over its assets in return for merger shares issued to the co-owners, i.e. to BZ WBK and Banco Santander.
- The combined profit before tax of these entities for the three quarters of 2015 excludes the dividend of PLN 41.6m received by BZ WBK AM from BZ WBK TFI.

 BZ WBK-Aviva TUO and BZ WBK-Aviva TUnZ changed their status from subsidiaries to associated undertakings as of 27 February 2015. Since then, both entities have been accounted for 3) using the equity method. The amounts provided above represent profit before tax of both companies for two months of 2015 after consolidation adjustments and post-audit profit adjustments
- The combined profit before tax of these entities for 2015 excludes the dividend of PLN 32.4m received by BZ WBK Finanse from BZ WBK Leasing.
- Other subsidiaries include: BZ WBK Inwestycje, BZ WBK Nieruchomości and Gieldokracja in liquidation.

 Dividend received by Bank Zachodni WBK from subsidiaries and associated undertakings, including dividend of PLN 260.8m received from SCB and disclosed in Q2 2016.
- Consolidation adjustments (other than dividends) for the three quarters of 2015 mainly include the items resulting from the loss of control over BZ WBK-Aviva companies (PLN 288.6m).

Parent entity of Bank Zachodni WBK Group

During the first nine months of 2016, the stand-alone profit before tax of Bank Zachodni WBK increased by 12.5% YoY.

On an underlying basis (i.e. adjusting the base period for the one-off gain of PLN 234.4m on partial disposal of shares in BZ WBK-Aviva companies while the current period for PLN 305.9m representing the one-off gain from settlement of Visa Europe Ltd. take-over by Visa Inc. and for PLN 256.5m of the banking tax), the profit before tax increased by 25.4% YoY and was affected by the following trends:

- Major improvement in net interest income (+10.8% YoY) driven by robust credit delivery and optimisation of the deposit range focused on development of current account balances and long-term relationships with deposit customers;
- Increase in net trading income and revaluation (+53.5% YoY) on account of derivative and FX transactions;
- Higher dividend income disclosed in 2016 (+209.7% YoY), mainly as a result of dividends from SCB (PLN 260.8m) and BZ WBK TFI (PLN 29.8m), which were not paid out in the corresponding period of the last year;
- Lower impairment losses on loans and advances (-8.7% YoY), reflecting primarily a reduction in the IBNR reserves.

At the same time, a decrease was noted in gains on debt securities (-68.4% YoY), chiefly treasury bonds, and an increase in operating costs (+2.9% YoY) amid higher depreciation/amortisation and a provision to cover disputed legal issues.

Subsidiaries

The total profit before tax gained by the companies consolidated with Bank Zachodni WBK was down 4.2% YoY due to slightly lower profitability of SCB Group, impairment loss on the portfolio of equity investments of BZ WBK Inwestycje (disclosed in the table above under "Other subsidiary undertaking") and the weaker financial performance of BZ WBK TFI in the market of mutual funds and asset management.

The contribution of SCB Group to the consolidated profit before tax of Bank Zachodni WBK Group for the first nine months of 2016 was PLN 478.7m (after intercompany transactions and consolidation adjustments) and decreased by 2.9% YoY due to the following factors:

- 8.3% YoY higher net interest income of PLN 832.6m, driven by larger net interest margin amid lower funding cost, moderate growth of credit portfolio and favourable changes reported in its structure (e.g. bigger share of high-margin products such as cash loans and credit cards).
- Increase of PLN 13.7m in total gains on other financial instruments and net trading income due to the remuneration arising
 from the settlement of the acquisition of Visa Europe Ltd. by Visa Inc. as well as valuation of derivatives through profit and
 loss.
- Decrease of 9.9% YoY in net fee and commission income to PLN 137.5m on account of lower insurance income and higher partner commissions.
- Higher net impairment charge by PLN 58.4m YoY, mainly attributable to the lower value of disposal of bad loans over the
 first nine months of 2016 compared with the corresponding period of the previous year and changes in the underwriting
 policy for the consumer loans portfolio.
- Additional charge to the income statement of PLN 21.8m representing tax on financial institutions.

The 12.1% YoY decrease in profit before tax reported by BZ WBK TFI reflects lower net fee income from asset management as a result of a decline in the average value of net assets under management and the change in their structure with a shift towards low-margin products (mainly money market instruments and corporate bonds). Due to the high volatility of stock markets in Poland and abroad, the demand for share-based solutions was weak, while the slowdown of the debt market discouraged investors from choosing solutions based on treasury bonds. The negative impact of lower fee and commission income on the company's bottom line was partly offset by lower operating cost base.

BZ WBK Faktor generated an increase of PLN 10.2m in profit before tax amid steadily rising sales and lower credit impairment charges.

In the nine months ended on 30 September 2016, leasing companies with its parent BZ WBK Finanse earned 11.4% YoY higher profit before tax due to the robust sales of lease products, which translated into an increase of 20% YoY in the performing portfolio (with better quality parameters) and a significant improvement in net interest income. Also, leasing companies generated higher net fee income on account of the insurance offered.

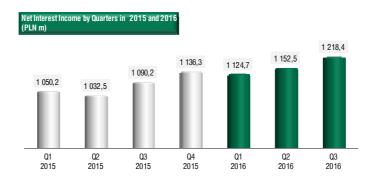

The change in accounting treatment of the insurance companies BZ WBK-Aviva TUnŻ and BZ WBK-Aviva TUO from line-by-line consolidation to equity method valuation is an effect of the partial disposal of shares of both companies and the loss of control over them, effective from 27 February 2015.

Total Income

The total income generated by Bank Zachodni WBK Group for the three quarters of 2016 was PLN 5,745.9m and down 0.9% YoY. Adjusting the current and base period for one-off gains on equity investments, the Group's underlying total income was higher by 2.9% YoY.

Net interest income

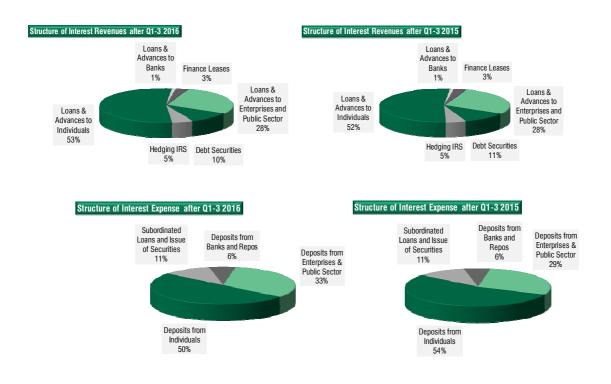

Net interest income for the first nine months of 2016 amounted to PLN 3,495.6m and increased by 10.2% YoY.

In the lower interest rate environment, the Group reported increased interest revenue (by 5.1% YoY to PLN 4,468.6m) alongside a decline in interest expense (down 9.7% YoY to PLN 973.1m).

The growth rate of interest revenue – driven by loans to personal and business customers, leasing receivables and CIRS/IRS transactions hedging cash flows – was slowed down by decreases in the portfolio of debt securities and reverse repo transactions.

The decline in interest expense was due to the pressure from retail customer and public sector deposits, amounts due in respect of repo transactions as well as subordinate debt and debt securities in issue.

The annualised (on a year-to-date basis) net interest margin of Bank Zachodni WBK Group increased from 3.54% as at the end of September 2015 to 3.65% as at the end of September 2016 as a result of lower funding costs aided by the adaptation measures and optimisation strategy for key sources of finance in the lower interest rate environment (following the interest rate cut by 50 b.p. effected by Monetary Policy Council in March 2015), and due to favourable developments in the Group's core business volumes, including further growth in loans to individuals (in particular cash loans and mortgage loans) and businesses, coupled with a significant increase in low-cost current account balances from personal and business customers and a decline in retail term deposits.

* The calculation of the net interest margin of Bank Zachodni WBK takes account of swap points allocation from derivative instruments used for the purpose of liquidity management but excludes interest income from the debt trading portfolio.

The annualized (on a quarterly basis) net interest margin increased from 3.67% in Q2 2016 to 3.73% in Q3 2016. The growth trend reflected proactive business acquisition, promotion and management of product parameters, taking into account market conditions, customer expectations and the organisation's own objectives in liquidity, capital and balance sheet management. From the perspective of business volumes, the quarterly margin was positively affected by the continued business trends, in particular further growth of the retail loan portfolio and an increase in the balances of retail and business current accounts alongside a decline in term deposit balances of individuals.

Net fee and commission income

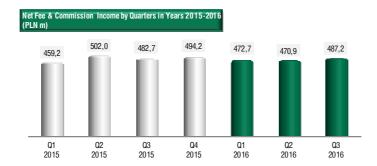

Net fee and commission income for the nine months of 2016 was PLN 1,430.8m and held fairly steady compared with the corresponding period last year (-0.9% YoY).

- Fees for foreign and mass payments, Western Union transfers, trade finance, debit cards, services for third party institutions as well as other electronic and telecommunications services.
- 2) Fee income from account maintenance and cash transactions has been reduced by the corresponding expenses which in Note 5 "Net fee and commission income" of the consolidated financial statements are included in the line item "Other" (PLN 2.3m for the three quarters of 2016 vs. PLN 2.0m for the three quarters of 2015)
- consolidated financial statements are included in the line item "Other" (PLN 2.3m for the three quarters of 2016 vs. PLN 2.0m for the three quarters of 2015).

 3) During the period of control over BZ WBK-Aviva companies (from 20 December 2013 to 27 February 2015), the bank disclosed the major part of income from the insurance business in "Other operating income" instead of "Net fee and commission income" (PLN 26.3m in Q1 2015). Since the loss of control over the entities, the entire insurance fee income other than an integral part of effective interest rate has been disclosed under "Net fee and commission income".
- 4) Net fee income from lending, leasing and factoring activities which is not amortised to net interest income. This line item includes inter alia the cost of credit agency.
- 6) Net ree income from lending, leasing and factoring activities6) Guarantees and sureties, issue arrangement fees and other.

The highest YoY growth in net fee and commission income for the three quarters of 2016 was reported for credit cards (+17.6% YoY) on account of a 8.2% YoY increase in the size of a combined credit card portfolio of Bank Zachodni WBK and SCB, higher volume of credit card-related transactions and a revision of selected credit card fees and charges of both banks.

The YoY decline of 11% in net fee and commission income from insurance business was connected with the legal and regulatory regime of the bancassurance market, in particular the statutory ban imposed by the Act of 11 September 2015 on insurance and reinsurance activity (effective from 1 April 2016) on collection of insurance fees by banks acting as insuring parties in relation to group insurance plans (e.g. linked with payment cards). At the same time, the leasing companies of Bank Zachodni WBK reported a growth in insurance income from Guaranteed Auto Protection (GAP) and other property insurance.

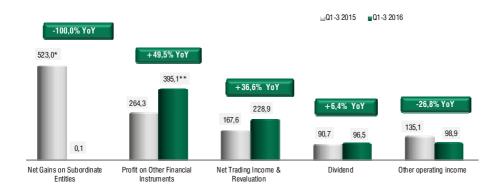

Lower net fee income from fund distribution and asset management (-9.6% YoY) reflects a decrease in the average value of assets managed by BZ WBK TFI and a change in their structure in favour of lower-margin products (mainly cash instruments and corporate bonds). The demand for investment solutions with equity and bond components subsided amid uncertainties in the financial markets.

The growth in other fees (+106.1% YoY) was triggered by fee income from guarantees and from the share issue arrangement, which increased by 62.3% (to PLN 49.5m) and by 25.7% (to PLN 14.2m), respectively. It resulted from measures taken by Bank Zachodni WBK to support foreign trade development and from handling of a substantial public offerings on WSE.

Increases and decreases in other business lines were moderate and kept within the deviations observed in the business as usual operations.

Other Income

Components of Other Income (PLN m) in H1 2015 vs. H1 2016

- * Includes one-off gains on subordinate entities of PLN 523m recognised in Q1 2015 on account of partial disposal and loss of control over BZ WBK-Aviva TUnZ and BZ WBK-Aviva TUO.
- ** Includes total gains of PLN 316.1m on a shareholding in Visa Europe Ltd. disclosed by BZ WBK and SCB upon the completion of acquisition of Visa Europe Ltd. by Visa Inc. on 21 June 2016.

Gains on subordinate entities

In the income statement for the three quarters of 2016, Bank Zachodni WBK Group disclosed one-off gains of PLN 523m on interest in subordinated entities arising from the partial sale of shares in BZ WBK-Aviva TUO and BZ WBK-Aviva TUnZ and the loss of control over the above-mentioned companies in favour of Aviva Ltd., and their consequent reclassification from subsidiaries to associates.

Gains on other financial instruments

Gains on other financial instruments for the three quarters of 2016 increased by 49.5% YoY to PLN 395.1m, including PLN 316.1m of total gains earned by the Group (PLN 305.9m by BZ WBK and PLN 10.2m by SCB) from settlement of acquisition of Visa Europe Ltd. by Visa Inc. on 21 June 2016. Bank Zachodni WBK and SCB – as members and shareholders of the acquired company – received cash consideration of EUR 51.6m, 18,692 series C preference shares and an earn-out of approx. 0.4% from EUR 1.12bn payable to all transaction participants.

Gains on other instruments from BZ WBK Group's available for sale equity investment portfolio totalled PLN 1.8m.

Gains on the sale of debt instruments (mainly treasury bonds) were PLN 84.0m, down 67.8% YoY. The measures taken as part of duration management on the available-for-sale debt securities portfolio are kept in line with market conditions and take into account the Group's objectives with regard to risk and liquidity management. The decisions regarding the structure of the portfolio and balance sheet are determined by expectations of interest rate cycle movements and fluctuations of yield curves.

Net trading income and revaluation ("Net trading income")

In the nine months ended 30 September 2016, net trading income and revaluation reported by Bank Zachodni WBK Group was PLN 228.9m, up 36.6% YoY.

The Group generated a profit on derivatives and interbank FX trading of PLN 204.6m vs. PLN 174.0m a year before. This result was achieved amid moderate volatility on the interest rate and FX markets. Compared with 30 September 2015, the IRS rate declined by 20 b.p. in the 10Y segment whereas 2Y IRS rate increased by almost 10 b.p. The zloty weakened by approx. 3% against the Swiss franc and approx. 2% against the euro and the US dolar but appreciated against the British pound by 13%.

The above-mentioned item includes the net interest-related income of PLN 13.3m on the non-hedging CIRS/IRS transactions for the three quarters of 2016 vs. PLN 14.0m for the three quarters of 2015. It excludes, however, the net interest income from the CIRS and IRS transactions designated as hedging instruments under the cash flow hedge accounting (PLN 208.0m for the three quarters of 2016 vs. PLN 185.9m for the three quarters of 2015), which is disclosed under "Net interest income".

Other FX related income was PLN 20.9m, higher by PLN 7.3m on a YoY basis.

Debt and equity securities trading brought in a total profit of PLN 3.3m compared to a loss of PLN 20.0m in the corresponding period.

Dividends

Dividend income disclosed by the Group for the nine months ended 30 September 2016 was PLN 96.5m and up 6.4% YoY on account of dividends from Aviva Group companies from BZ WBK portfolio of equity investments.

Other operating income

Other operating income for the three quarters of 2016 decreased by 26.8% to PLN 98.9m.

The decline was primarily attributed to changes in the presentation of the Group's insurance income following the loss of control over BZ WBK-Aviva companies. From 1 January 2014 to 27 February 2015, the major part of net insurance income was still disclosed under other operating income (PLN 26.3m in 2015), but starting from March 2015, total insurance income that is not an integral part of an effective interest rate or spread over time is taken to insurance fees.

A YoY decrease of PLN 15.9m was also reported in the income on sale or liquidation of fixed assets and assets held for sale due to execution of transactions involving relatively smaller properties in the current period.

Impairment Charges

PLN m

Impairment Losses on Loans and Advances	Q1-3 2016	Q1-3 2015	YoY Change

Off-balance sheet credit related facilities	19,4	12,2	59,0%
Total	(565,3)	(554,3)	2,0%

After the three quarters of 2016, the loan impairment charge to the income statement of Bank Zachodni WBK Group was PLN 565.3m, up 2% YoY. The contribution of SCB Group to that figure was PLN 109.6m and increased by PLN 58.4m compared to the corresponding period of 2015 on account of lower sales of bad loans and changes in the underwriting policy for the consumer loan portfolio.

The charge for incurred and reported losses (on individual and collective exposures) was PLN 608.4m for the three quarters of 2016 and increased by 4.5% YoY amid a robust growth in the Group's credit portfolio: loans to enterprises and the public sector increased by 9.0% YoY (including factoring receivables), retail loans by 8.4% YoY and lease facilities by 25.5% YoY. Compared with the corresponding period of 2015, impairment charges on individually assessed exposures decreased in favour of impairment charges on collectively assessed exposures (mainly in relation to retail loans), which was attributed to the reclassifications or increases arising from modified procedures and tools, and updated parameters under the credit risk management process. Meanwhile, the Group reported a decline in the impairment charges on both individually and collectively assessed exposures towards business customers.

The impairment charge for incurred but not reported losses was PLN 28.2m vs. PLN 58.5m in the base period. In 2016, Bank Zachodni WBK sold business receivables with incurred but not reported loss in the principal amount of PLN 440.0m.

In total, over the first nine months of 2016, Bank Zachodni WBK sold credit receivables in the principal amount of PLN 656.1m (PLN 704.7m including interest) vs. PLN 165.5m in the corresponding period, which contributed PLN 28.8m and PLN 18.1m to the profit before tax in respective periods. Apart from business loans, mainly from the IBNR portfolio, the receivables sold included overdue retail loans.

Santander Consumer Bank sold the written-off portfolio of instalment loans and cash loans at PLN 326.6m, which brought in profit before tax of PLN 51.9m. Last year, SCB sold the written-off portfolio of credit cards, cash loans and instalment loans for the total amount of PLN 425.0m, generating profit before tax of PLN 60.5m.

The changes in the value and structure of impairment charges reflect the prudential approach of Bank Zachodni WBK Group to credit risk management.

As at 30 September 2016, Bank Zachodni WBK Group's NPL ratio was 6.8% compared with 8.1% as at 30 September 2015. The cost of credit improved as well and totalled 0.8% vs. 0.9% after the three quarters of 2015.

Total Costs

Other operating expenses	(109,9)	(66,3)	65,8%
Total costs	(2 527,4)	(2 483,3)	1,8%

The total costs of BZ WBK Group for the three quarters of 2016 amounted to PLN 2,527.4m, and were 1.8% higher YoY amid higher prudential fee payable to BFG, significant costs associated with maintenance and extension of IT systems, considerable expenses associated with the Group's development projects, increased depreciation/amortization and provisions for legal disputes reflected in other operating costs.

Given the business growth and development projects under way (related to, among other things, digitalization and transformation of BZ WBK business model), the low rate of growth in total costs points to the strong cost discipline across the entire Group.

Adjusting the current and base period for the one-off gains on equity instruments, the Group's cost to income ratio totalled 46.5% as at 30 September 2016 vs. 47.1% 12 months before.

Staff expenses

Staff expenses of Bank Zachodni WBK Group for the three quarters of 2016 totalled PLN 1,126.3m and decreased by 2.0% YoY. SCB Group's contribution to consolidated staff expenses was PLN 168.5m and stable YoY.

The key staff expense line items, i.e. "salaries and bonuses" and "statutory deductions from salaries" decreased by 1.9% YoY to PLN 1,087.4m in total as a result of lower costs incurred in 2016 in relation to incentive programmes (including share-based plans) and organisational changes in the Group, particularly in the branch banking.

As at 30 September 2016, the number of FTEs in Bank Zachodni WBK Group was 14,366 and increased by 49 YoY, as a result of delivery of the project aimed at ensuring BZ WBK customers with centralised top quality phone banking services to be provided by the Telephone Banking Centre. The above headcount figure includes 2,433 SCB Group employees vs. 2,642 a year before.

General and administrative expenses

General and administrative expenses of Bank Zachodni WBK Group for the nine months of 2016 increased slightly by 1.0% YoY to PLN 1,088.7m. Costs incurred by SCB Group were relatively stable at PLN 183.4m (-0.9% YoY) and contributed most to the cost of marketing and entertainment, cost of maintenance and rental of premises, IT usage and fees payable to market regulators.

The most pronounced increase in the consolidated general and administrative expenses (in absolute terms) was reported for statutory charges imposed on Bank Zachodni WBK and Santander Consumer Bank by market regulators (+28.9m YoY). The growth was driven mainly by a prudential fee of PLN 53.3m (+69.0% YoY) payable to the BFG stabilisation fund which is calculated quarterly at an increased rate and against the new base. In addition, part of contribution to the BGK Borrowers Support Fund was recognised in H1 2016 (PLN 8.5m in addition to the provision raised for that purpose in Q4 2015).

Significant growth was also reported in the following line items of the Group's general and administrative expenses:

- cost of bank security (+33.6% YoY) related to a growing cost of physical protection driven among others by amended payroll regulations;
- cost of machine repair (+81.6% YoY) as part of fitting out office premises;
- cost of IT usage (+5.8% YoY) connected with the new systems, development of the central environments and delivery
 of development projects;
- consultancy and advisory fees (+29.4% YoY) generated by higher costs of legal and consultancy services related to the bank's digital transformation programme and programmes delivered across Santander Group.
- other third party services (+3.8% YoY) as an effect of higher number of queries to BIK (credit reference agency), services for external companies and mass printout of letters including the bank's new schedule of fees and charges.

Cost of marketing and entertainment declined YoY (-16.2% YoY) due to the modified timing and payment schedules of marketing campaigns and other initiatives delivered by Bank Zachodni WBK. The Group reduced cost of data transmission (-22.6% YoY) as well as postal fees and telecommunication fees (-11.2% YoY) as a result of review and renegotiation of the agreements. Furthermore, savings were achieved in such line items as: cost of vehicles, transportation and valuables in transit (-8.2% YoY) and cost of consumables, prints, cheques and cards (-8.1% YoY).

Tax on Financial Institutions

Pursuant to the Act of 1 February 2016 on tax imposed on certain financial institutions, bank assets above PLN 4bn are subject to tax of 0.0366% per month. As at 30 September 2016, the total charge to the income statement of Bank Zachodni WBK Group in this respect was PLN 278.3m.

Effective Tax Rate

After the three quarters of 2016, the effective interest rate was 22.2% vs. 19.6% in the corresponding period of 2015, due to loss on debt sale, higher prudential fee and banking tax, which are not tax deductible and do not reduce the tax base of corporate income tax.

Financial Position

Assets

As at 30 September 2016, total assets of Bank Zachodni WBK Group amounted to PLN 142,038.9m and increased by 1.7% Ytd and by 5.2% YoY. The value and structure of the Group's financial position is determined by the parent entity, which accounts for 88.8% of the consolidated total assets vs. 89.8% as at the end of December 2015.

The movements in the consolidated statement of financial position of Bank Zachodni WBK Group over the first nine months of 2016 reflect market tendencies, new business acquisition and the Group's strategy for management of its balance sheet structure and current liquidity.

As at 30 September 2016, consolidated net loans and advances to customers totalled PLN 101,154.4m, up 6.6% on the end of December 2015 on account of credit delivery to business and retail customers. SCB Group contributed PLN 12,629.2m to this line vs. PLN 12,901.7m as at 31 December 2015 (after intercompany and consolidation adjustments).

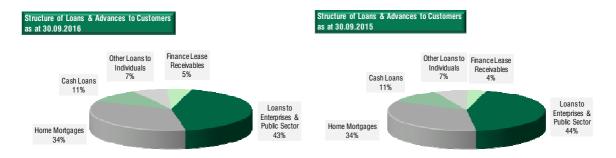

The portfolio of financial assets available for sale increased in value (+3.5% Ytd) on account of the growth in debt securities portfolio. SCB Group contributed PLN 2,952.3m to this item, an increase of 47.6% Ytd.

A decline in the balance of the bank's current account held with the NBP caused a decrease in the value of "cash and operations with central banks" (-47.7% Ytd). A drop was also reported in loans and advances to banks (-20.8% Ytd) and a portfolio of trading debt securities and derivatives disclosed in the table above under "financial assets held for trading and hedging derivatives" (-22.0% Ytd).

The key change in the consolidated equity and liabilities of Bank Zachodni WBK Group was noted in sell-buy-back transactions (-76.4% Ytd). A decrease was also reported in the carrying amount of trade instruments and hedging derivatives reported under "financial liabilities held for trading and hedging derivatives" (-12.4% Ytd).

At the same time, deposits from banks (+47.6%) increased on account of funding granted by international commercial banks. Deposits from customers went up by 5.3%, reflecting a significant growth of personal account balances. As at 30 September 2016, deposits from customers represented 75.1% of the Group's equity and liabilities and were the primary source of funding for its lending business.

The Group continued the issue of debt securities as part of diversification of funding sources. In the year to date, Bank Zachodni WBK issued two series of certificates of deposit with a nominal value of PLN 250m and PLN 100m, respectively, and zero-coupon bearer bonds with a nominal value of PLN 185m. PLN 480m worth of certificates of deposit matured in the analysed period. At the same time, Santander Consumer Bank issued bonds with a nominal value of PLN 432m (as part of debt securities issue programme guaranteed by Santander Consumer Finance) and redeemed several series of matured bonds with a nominal value of PLN 574.7m. Furthermore, SC Poland Consumer 2016-1, a special purpose vehicle, issued bonds under the securitization transaction, which were taken up by SCB. 1bn worth of such bonds by nominal value were sold to external investors.

As a result of the above measures, subordinated liabilities and liabilities from the issue of debt securities increased by 18.9%.

Excluding sell-buy-back transactions.

Over the last nine months, deposits from customers increased by 5.3% and amounted to PLN 106,650.7m as at 30 September 2016 (excluding sell-buy-back transactions), including PLN 7,847.7m relating to SCB Group after intercompany transactions (vs. PLN 7,006.5m as at the end of December 2015).

The Group's total term deposits from customers amounted to PLN 46,185.4m and decreased by 4.9% Ytd. Current account balances increased by 14.0% Ytd to PLN 55,529.8m, and other liabilities were PLN 4,935.6m, up 24.4% on 31 December 2015. The largest constituent of the last item were "loans and advances" (PLN 3,987.0m vs. PLN 3,002.0m as at 31 December 2015), reported under "deposits from enterprises", which included loans granted by the European Investment Bank, the European Bank for Reconstruction and Development, and the Council of Europe Development Bank to finance the bank's credit delivery and the leasing business of the bank's subsidiaries. In the year to date, the bank obtained funding from the above-mentioned financial institutions for a total value of EUR 170m, while the leasing companies drew down EUR 25m worth of financing granted by the Council of Europe Development Bank and received a loan of EUR 135.4m from the International Finance Corporation. At the same time, the bank repaid several tranches of the loan from the European Investment Bank in a total amount of CHF 112.5m.

The retail deposit base stood at PLN 61,362.0m, higher by 3.7% on 31 December 2015 as a result of a strong increase in current account balances (+18.6% Ytd), including savings accounts. In 2016, the bank launched promotional campaigns offering higher interest rates to customers for selected savings accounts, which translated into a significant rise in the balance of such accounts. The new Max Savings Account (Konto Max Oszczędnościowe) with a relatively high interest rate was an effective acquisition tool. At the same time, the value of term deposits declined markedly (-14.2% Ytd) because of a low appeal of deposits in the record low interest rate environment and the Group's strategic focus on increasing the strength of customer relationships and at ensuring stable growth of the entire deposit and investment portfolio.

During the first nine months of 2016, deposits from enterprises and the public sector increased by 7.7% to PLN 45,288.7m at the end of September 2016. The balances in current accounts (+5.1%) grew dynamically, as did term deposits (+6.8%), mainly from the public sector.

- The calculations of the following ratios for 2016 and 2015 use the Group's total income or profit (as the case may be) after adjustment for one-off gains on equity transactions: cost/income, net interest income/total income, net commission income/total income and earnings per share.
- 2) Annualized net interest income (excluding interest income from the portfolio of trading securities) to average net interest-bearing assets (excluding the trading portfolio).
- 3) Impairment losses (for four consecutive quarters) to average gross loans and advances to customers (as at the beginning and end of the reporting period).
- 4) Net profit attributable to the parent's shareholders (for four consecutive quarters) to average equity (as at the beginning and end of the reporting period), net of non-controlling interests, current period profit and undistributed portion of the profit. Adjusted for one-off items, ROE was 11.2% as at 30 September 2016 vs.14.1% as at 30 September 2015. The decrease in the ROE ratio results from the introduction of a tax on financial institutions and increased capital requirements imposed by the banking supervision authorities.
- 5) Net profit attributable to the parent's shareholders (for four consecutive quarters) to average tangible equity (as at the beginning and end of the reporting period) defined as common equity attributable to the parent's shareholders less revaluation reserve, current period profit, retained earnings, intangible assets and goodwill. Adjusted for one-off items, ROTE was 13.5% as at 30 September 2016 vs. 17.3% as at 30 September 2015.
- 6) Net profit attributable to BZ WBK shareholders (for four consecutive quarters) to average total assets (as at the beginning and end of the reporting period).
- 7) The capital adequacy ratio was calculated on the basis of own funds and the total capital requirements established for the individual risk types by means of the standardised approach, in line with the CRD IV/CRR package.
- Tier 1 ratio is Tier 1 capital expressed as a percentage of risk weighted assets for credit, market and operational risk.
- 9) Net profit for the period attributable to shareholders of the parent entity (excluding one-off items) divided by the number of ordinary shares.

53. Key factors affecting the profit in the next quarter

The following external developments may have a significant impact on the financial performance and activity of Bank Zachodni WBK Group in the future:

- Stabilisation of the Polish economic growth at around 3% YoY amid uncertainty about the world economic outlook, fuelled by external risk factors such as economic slowdown in China.
- Favourable growth in real disposable income of households due to higher employment and wage growth, and a new parent benefit programme.
- Growth in consumer prices and movements in commodity prices.
- Low financing costs for households and businesses should stimulate demand for bank debt. At the same time, low interest rates on deposits should encourage bank customers to seek alternative savings/investment options.
- · Possible changes in the monetary policy of the NBP, the ECB and Federal Reserve.
- Changes in asset funding costs dependent on the pace and degree of changes in base rates, movements in the PLN exchange
 rate, liquidity position of the banking sector and the degree of price competition between banks seeking to attract customer
 deposits.
- Changes in Poland's credit rating or rating outlook.
- Modification of the banking tax.
- New capital requirements for FX loans, which may affect the banking sector's lending capacity.
- Effects of the negotiations regarding the British exit from the European Union.
- Results of presidential elections in the USA.
- Possible increase in volatility of financial markets in the event of a more negative outlook for global economic growth, growing concerns about potential monetary policy tightening by the Federal Reserve and further turmoil in financial markets in China.
