3. MANNER IN WHICH THE DEMERGER WILL BE EFFECTED

3.1. Legal Basis of the Demerger

The Demerger will be effected in accordance with the procedure specified in Article 529 § 1 item 4 of the CCC. Under the Demerger, a part of the business of DB Polska, i.e. the Demerged Business, will be Demerged to the Acquiring Bank, while the remaining part of the business of DB Polska, i.e. the Retained Business, will remain in DB Polska.

As a result of the Demerger, pursuant to Article 531 § 1 of the CCC, the Acquiring Bank will on the Demerger Effective Date assume all of the rights and obligations of DB Polska connected with the Demerged Business. Consequently, immediately following the Demerger Effective Date, DB Polska will retain rights and obligations relating to the Retained Business. DB Polska’s business will be limited to the Retained Business and the Acquiring Bank’s business will be enlarged by the Demerged Business.

3.2. Required regulatory consents or permits

The Demerger will be executed subject to obtaining the following regulatory approvals:

- obtaining a decision issued by the PFSA in accordance with Article 25h, section 4 of the Banking Law confirming that there is no objection to the acquisition by the parent company of the Acquiring Bank with the intermediation of the Acquiring Bank of more than 10% of the share capital and the votes in the Bank Being Divided, or the lapse of the statutory time period for the PFSA to raise objections to the acquisition by the parent company of the Acquiring Bank with the intermediation of the Acquiring Bank of more than 10% of the share capital and the votes in the Bank Being Divided;

3.4. Increase in the Acquiring Bank's share capital in connection with the Demerger

In connection with the Demerger, the Acquiring Bank's share capital will be increased by PLN 27,548,240 (twenty seven million five hundred and forty eight thousand two hundred and forty zlotys) through the issuance of the Demerger Shares, subject to the adjustments set out in Sections 5.1 and 5.2 below, which will be granted and allocated to DB AG based on the rules presented herein in Sections 5 and 6 below. The Demerger Shares will be the shares of the same type as the shares of the Acquiring Bank registered with the NDS under ISIN number PLBZ00000044 and the Demerger Shares will grant the same rights as these shares.

The Acquiring Bank will take actions to procure the admission and introduction of the Demerger Shares to trading on the regulated market operated by the WSE. To that end, the Acquiring Bank will file a motion for the registration of the Demerger Shares with the NDS along with an annex to the shares' issue letter (*aneks do listu księgowego akcji*) containing the indication of the issue agent for the purpose of the allotment of the Demerger Shares referred to in Section 6.3 below as well as a motion with the WSE for the introduction of the Demerger Shares to trading on the regulated market.

3.5. Decrease in the share capital of the Bank Being Divided in connection with the Demerger

In connection with the Demerger, the share capital of the Bank Being Divided will be decreased through redemption of all shares held in the Bank Being Divided by the Acquiring Bank. The share capital of the Bank Being Divided will be further decreased through redemption of shares held in the Bank Being Divided by DB AG, if any, to the extent that the own capitals of the Bank Being Divided other than the share capital cannot be used in accordance with applicable laws to adjust the own capitals to the perimeters of the spin-off of the Demerged Business.

4. ECONOMIC JUSTIFICATION OF THE DEMERGER

On 14 December 2017 the sole shareholder of the Bank Being Divided, i.e., DB AG as well as the Acquiring Bank and its strategic shareholder, i.e. Banco Santander S.A., entered in a Transaction Agreement (the "**Transaction Agreement**") concerning the acquisition of the Demerged Business by the Acquiring Bank, comprising retail banking, including private banking, and business banking comprising Small and Medium Enterprises of the Bank Being Divided, as well as its network of branches, agencies and partners and 100% of the shares in DB Securities. As a result of the transaction, the network of branches along with external sales channels, i.e., the agents and intermediaries of the Bank Being Divided, will be incorporated into the current structure of the Acquiring Bank. There will also be a transfer of asset management agreements, which in turn will make it possible to transfer the open architecture of investment funds.

The Transaction Agreement does not include the sale of the Retained Business, i.e. related to mortgage loans and borrowings denominated currently or in the past in currencies other than the Polish zloty of the Bank Being Divided or the business areas of Corporate and Investment banking of the Bank Being Divided. Such activity will be continued by the Bank Being

Divided. The Acquiring Bank informed on the execution of the Transaction Agreement in the current report No. 29/2017 of 14 December 2017.

The demerger of the Demerged Business to the Acquiring Bank is in line with DB AG's strategy to continue to sharpen its focus and reduce complexity. The decision to sell the retail business is not dependent upon performance of Deutsche Bank in Poland but serves to achieve a simpler and more efficient organisation. The Demerged Business has a solid financial basis thanks to a strong growth in the gross value of loans, gross deposits and assets under management since 2014, a very high quality of assets and strong capitalization. Low interest rates and a very strong competition in the market have, however, limited the ability of the Demerged Business to expand substantially.

From the point of view of the Acquiring Bank, the takeover of the Demerged Business will constitute the Acquiring Bank's strategic response to the consolidation trends in the Polish banking sector and will make it possible for the Acquiring Bank to consolidate its leading market position thanks to a 12% increase in the value of its assets, an 11.7% growth in the share of the consumer loan and credit market and an 11% increase in client deposits. Additionally, the Acquiring Bank assumes that the takeover of the Demerged Business will produce meaningful synergies and savings for the Acquiring Bank. Furthermore, the Acquiring Bank will enrich its business with additional competences and skills in relations with affluent clients, as well as in private banking and business banking.

From the perspective of the Acquiring Bank, the principal business and operational objectives of the transaction of taking over the Demerged Business include:

- broadening of the Acquiring Bank's product offer, improvement in the quality of customer service and of client satisfaction with their cooperation with the Acquiring Bank;
- increase of the client base and the volume of business of the Acquiring Bank (the value of loans to clients will increase by 16% and that of client deposits by 9%);
- growth of the sales network of the Acquiring Bank;
- improved operational efficiency thanks to using the potential of both banks, the Acquiring Bank and the Bank Being Divided and the implementation of the Acquiring Bank's best practices and economies of scale; and
- high growth in value combined with a limited impact on capital indices.

The Acquiring Bank expects that the takeover of the Demerged Business will produce a significant return on investment, estimated at 15.5% (net of integration costs) by 2021, above the cost of own equity of the Acquiring Bank, which, together with the projected 5% growth in profit per share after 2021 (net of integration costs) and the growth in the free float of shares in the wake of the issuance of new shares, will be beneficial for the shareholders of the Acquiring Bank.

The integration of the Demerged Business into the Acquiring Bank should be beneficial for the clients of both Banks. The current retail and corporate clients of the Bank Being Divided will obtain access to one of Poland's largest network of branches and access to innovative sales channels, including mobile banking. At the same time, the clients of the Acquiring Bank will have an opportunity to use a broad range of private banking products and will obtain access to an unparalleled network of financial agents, intermediaries and partners with which the Bank Being Divided cooperated with to date.

From the legal and economic perspective, the transferring of the Demerged Business to the Acquiring Bank through demerger is the most effective way of ensuring the operational continuity of the Bank Being Divided, which at the same time secures the legal interests of the Bank Being Divided.

5. SHARE EXCHANGE RATIO OF THE SHARES IN DB POLSKA TO THE SHARES IN THE ACQUIRING BANK

5.1. Exchange ratio of the shares in DB Polska for the shares in the Acquiring Bank

The ratio based on which the Demerger Shares will be granted, subject to Article 550 § 1 of the CCC, is as follows: for 1,000,000 (one million) Reference Shares (as defined in Section 6.3.2 below), DB AG will be granted and allocated 1,836.549333333333 Demerger Shares (the “**Share Exchange Ratio**”).

If before the registration of the Demerger there is a registration of the share capital increase in the Acquiring Bank such share capital increase will be referred to hereinafter as the “**Share Capital Increase**” and the above-mentioned Share Exchange Ratio will be adjusted by dividing it by the dilution adjustment ratio (RF) determined in accordance with the Dilution Adjustment Formula described in Section 5.2 below. If there is any split of the shares of the Acquiring Bank or any other change to the structure of the share capital of the Acquiring Bank, the Share Exchange Ratio will be adjusted accordingly.

5.2. Dilution Adjustment Formula

The dilution adjustment will be calculated based on the following formula:

$$RF = ((SR * PR) + (SI * PI)) / (PR * (SR + SI))$$

where:

RF – means the dilution adjustment ratio

SR – means the number of the Acquiring Bank shares on the record date for the Share Capital Increase

PR – means the closing price for the Acquiring Bank shares on the record date for the Share Capital Increase

SI – means the final number of the shares of the Acquiring Bank issued as part of the Share Capital Increase

PI – means the issue price for the shares of Acquiring Bank as part of the Share Capital Increase

5.3. The methods applied to determine the Share Exchange Ratio

For the purposes of the calculation of the Share Exchange Ratio, the number of Demerger Shares to be allotted to DB AG in respect of all Reference Shares has been calculated by dividing:

(i) 80% of the aggregate preliminary purchase price in respect of the Transferred PCC Business and DB Securities agreed in the Transaction, i.e. a sum of PLN 1,031,839,200 (one billion thirty one million eight hundred and thirty nine thousand two hundred zlotys);

by

(ii) the arithmetic average of the daily volume weighted average prices of shares of the Acquiring Bank traded on the WSE during the period starting on 14 November 2017 and ending on 13 December 2017.

In calculating the Share Exchange Ratio it has been taken into account that according to the Transaction Agreement 20% of the initial sale price of the Demerged Business should be paid to DB AG before the Demerger Effective Date, in the form of Acquiring Bank’s payment of a price for shares of the Demerged Bank representing 10% of its share capital plus one share.

The initial sale price of the Demerged Business was determined as a result of the negotiations.

6. RULES ON THE ALLOCATION OF THE SHARES IN THE ACQUIRING BANK AND THE SHAREHOLDING STRUCTURE

6.1. Shares in DB Polska following the Demerger

As a result of the Demerger:

- (i) after the decrease of the share capital of DB Polska, the Acquiring Bank will cease to be a shareholder of DB Polska as the result of redemption of all shares in DB Polska held by the Acquiring Bank; and
- (ii) DB AG will remain the only shareholder of DB Polska holding 100% of the shares in and 100% of the votes at the General Meeting of DB Polska.

6.2. Shares in the Acquiring Bank following the Demerger

- 6.3.1 The Demerger Shares will be allotted to DB AG through the intermediation of the NDS.
- 6.3.2 The number of Demerger Shares to be allotted to DB AG will be determined by multiplying the number of the Reference Shares (as defined below) by the Share Exchange Ratio and by rounding the product thereof down to the nearest integer (if the product is not an integer). The “**Reference Shares**” shall mean the following shares of the Bank Being Divided held by DB AG: 1,500,000,000 shares, i.e. all shares issued in issues from I to XVII and 28.901.973 shares of issue XVIII.
- 6.3.3 No additional cash payments for DB AG are foreseen. When as a result of the rounding down referred to in Section 6.3.2 DB AG has not been allotted a fraction of the Demerger Share it was entitled to according to the Share Exchange Ratio, DB AG will not receive any additional cash payment.

7. DATE FROM WHICH THE DEMERGER SHARES WILL PARTICIPATE IN THE ACQUIRING BANK’S PROFIT

If the Demerger Shares are registered for the first time on the securities account of DB AG by the dividend date (*dzień dywidendy*), referred to in Article 348 § 2 of the CCC, established in 2019 including that date, the Demerger Shares will participate in the profits distributed after the end of the fiscal year lapsing on 31 December 2018. However, if the Demerger Shares are registered for the first time on the securities account of DB AG after the dividend date established in 2019, the Demerger Shares will participate in the profits distributed after the end of the fiscal year lapsing on 31 December 2019.
