The Committee can exchange information and data with an audit firm and key statutory auditor also by participating in common meetings to analyse the results of the Polish

Financial Supervision Authority's (KNF) inspections, audit results, assessment of the Bank's standing or other significant issues for its business.

5. Minutes and support of the Committee's operations

Minutes of each meeting should be circulated, when approved by the Committee members, to the Supervisory Board members, for acknowledging or discussing at a subsequent next meeting. The minutes are approved at the beginning of the next Committee meeting and signed off by the Committee Chair and the Secretary.

Additionally, the Supervisory Board receives annual written reports on the Committee's activities, which include in particular information on the issues analysed by the Committee in that year (including the assessment of the risk of processes and areas subject to the Committee's oversight, actions taken and effects thereof). The report may be provided to the statutory auditor.

The Corporate Governance Department provides operational services and supports the Committee's work.

6. Mediation

In the event that agreement cannot be reached on a matter requiring the approval of the Committee, such matter should be minuted and referred to the Supervisory Board for determination.

7. Annual General Meeting

The Chair of the Audit and Compliance Committee or a deputy appointed by them should attend the Annual General Meeting and respond to shareholders' questions concerning the Committee's activities.
